

# COMMODORE NICHOLSON OF OUR NAVY

## Recommends Pe-ru-na-Other Prominent Men Testify.

Commodore Somerville Nicholson, of the United States Navy, in a letter from 1837 R Street, N. W., Washington, D. C., says: "Your Peruna has been and is now used by so many of my friends and acquaintances as a sure cure for catarrh that I am convinced of its curative qualities and I unhesitatingly recommend it to all persons suffering from that complaint."—S. Nicholson.

### United States Minister to Guatemala Endorses Pe-ru-na.

Dr. W. Godfrey Hunter, U. S. Minister to Guatemala, ex-member of Congress from Kentucky, in a letter from Washington, D. C., writes:

"I am fully satisfied that your Peruna is an efficacious remedy for catarrh, as I and many of my friends have been benefited by its use."—W. G. Hunter, M. D. Member of Congress from Virginia Writes.

Hon. G. R. Brown, Martintown, Va., ex-member of Congress Fifth District, 50th Congress, writes:

"I cheerfully give my endorsement to your Peruna as a cure for catarrh. Its beneficial results have been so fully demonstrated that its use is essential to all persons suffering from that disease."—Hon. G. R. Brown.

The day was when men of prominence hesitated to give their testimonials to proprietary medicines for publication. This remains true to-day of most proprietary medicines. But Peruna has become so justly famous, its merits are known to so many people of high and low stations, that no one hesitates to see his name in print recommending Peruna.

The highest men in our nation have given Peruna a strong endorsement. Men representing all classes and stations are equally represented.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

## REPORTS ARE EXAGGERATED.

### Crops Are Not as Badly Damaged as at First Reported.

NEW YORK—R. G. Dun & Co.'s Weekly Review of Trade says:

Business has made moderate progress during the past week, despite unusual opposition from the elements. When all other industries are to a considerable degree dependent upon agricultural conditions, reports of serious injury to crops by cold and wet weather are not calculated to stimulate confidence. Subsequent correspondence indicated that the amount of damage has been exaggerated as usual and prospects brightened.

The car shortage is beginning to be felt, especially in the Pittsburgh district, where sufficient labor cannot be secured for handling freight. Manufacturing plants are well occupied as a rule, even the textile mills reporting less idle machinery, and at Chicago there is notable pressure for implements and hardware. Lumber is in better demand as structural activity revives. Payments are seasonably prompt, except where late crops delay settlement, and the outlook for fall and winter business contains much that is encouraging. Railway earnings thus far reported for September show an average gain of 10.36 over last year. In the iron and steel industry quotations have been declining for some months and a large tonnage of business is held back in the expectation that still better terms may be offered. Uneasiness over the labor situation aggravates the difficulty, although late developments in the building trades are most encouraging in this respect.

## GOVERNMENT CROP REPORT.

### Condition of Corn in Nebraska and Other States.

NEW YORK—The weather bureau's weekly crop bulletin says in part: Except in Iowa, northern Missouri and eastern Nebraska, where excessive moisture has prevented rapid ripening, the corn crop has made satisfactory progress, the bulk of early planting over the southern portion of the belt being practically safe from frost. In Iowa, northern Missouri and eastern Nebraska the advance has been very slow, and the bulk of the crop over the northwest portion of the corn belt will require from two to three weeks of ripening weather.

The northwest portion of the corn belt has been threatened with damage from the recent cold, the freezing temperatures occurring in the northern Rocky mountain districts having extended as far eastward as the western portions of Dakota and northwest Nebraska on the 14th and 15th, but with the exception of the Dakotas no serious injury has resulted.

### BRAINED WHILE SOUND ASLEEP.

Triple Murder Committed Near Red Cloud by Unknown Fiend.

RED CLOUD.—Mrs. Elsa Payne, her daughter, Mrs. Ada Williamson, and her granddaughter were murdered Tuesday night at their home, fourteen miles south of this city, in Kansas. The bodies of the old lady and the child were found in bed. Mrs. Williamson had been dragged from the house through a wire fence, which tore off some of her night clothes. Her body was found in a draw, with indications of an attempted outrage. Her head was beaten almost beyond recognition.

Indications are that the murderer used the beam of a corn cultivator to kill his victims. A beam that had been broken had been in the barn several weeks. It was found in the ravine near the body of Mrs. Williamson, covered with blood. A close examination of this beam disclosed that mixed in with the blood were gray, brown and black hairs.

### SEARCHING FOR A MURDERER.

Sheriff of Webster County Out on the Trail.

INAUALE, Neb.—The sheriff of Webster county is here with a posse of thirteen men searching for the murderer of Mrs. Payne, her daughter and granddaughter, at their home near Red Cloud last night. A man resembling Thomas Madison was seen here just before the arrival of the sheriff. He went to a corn field south of town and has not been seen since.

While there is no proof that Madison killed the women, if found he will be held, pending an investigation, or at least until after the inquest is held by the coroner.

### Trolley Breaks Record.

BERLIN.—An electric car ran at the rate of 106.45 miles per hour on the Zossen military road on Friday, said to be the highest speed ever attained. The engineers in charge of the experiments expect that 125 miles an hour will be reached. The experimenting company, which is composed of various electrical companies and banks, organized for this purpose, has just resumed the trials for the third time.

## THE LIVE STOCK MARKET.

Latest Quotations From South Omaha and Kansas City.

### SOUTH OMAHA.

CATTLE—There was not an excessive run of cattle, and as the local demand was in good shape the market was fairly active and generally steady on desirable grades of killers. There were quite a few corn fed steers on hand and some of them were of better quality than any that have been received here in some little time. The top price of the day was \$5.75, which is also the highest price for some little time. The market on desirable corn fed cows was apparently fully equal to the supply and all grades sold in just about the same netches they did yesterday. Trading could not be quoted as exactly active, but still the cattle kept moving toward the scales and the bulk of them was disposed of in good season. Bulls, veal calves and stags showed no particular change. The stocker and feeder market took on considerable life, and trading was active with prices a little stronger. There were about 100 cars shipped to the country, which cleaned up the supply on hand in fairly good shape, and made speculators anxious for fresh cattle. The good heavy cattle of course sold to good advantage.

HOGS—There was a fairly liberal run of hogs and as Chicago was quoted mostly 10c lower the tendency of prices was downward here also. Packers started in bidding 50c lower, but salesmen were not willing to take off over a nickel, and for that reason trading was rather slow from start to finish. About half of the hogs were late in arriving and that fact of course helped to make trading slow. The heavy hogs sold largely from \$5.00 to \$5.65, medium weights went from \$5.50 to \$5.70 and lights sold from \$5.20 to \$5.30.

SHEEP—Quotations for grass stock: Good choice lambs, \$4.00 to \$4.50; fair to choice yearlings, \$3.50 to \$4.00; fair to good wethers, \$3.25 to \$3.50; fair to good ewes, \$2.75 to \$3.00; fair to good ewes, \$2.50 to \$2.75; feeder lambs, \$3.75 to \$4.25; feeder yearlings, \$3.25 to \$3.50; feeder wethers, \$2.00 to \$2.50.

### KANSAS CITY.

CATTLE—The market for corn-fed cattle was steady; for wintered westerns, lower and weak; for yearlings, steady to strong; for stockers and feeders, steady to strong; for cows, weak; choice export and dressed beef steers, \$4.75 to \$5.00; fair to good, \$4.25 to \$4.75; stockers and feeders, \$2.50 to \$4.00; western fed steers, \$3.25 to \$3.50; Texas and Indian steers, \$2.00 to \$3.00; Texas cows, \$1.75 to \$2.00; native cows, \$1.50 to \$2.00; native heifers, \$2.00 to \$2.50; canners, \$1.50 to \$2.00; bulls, \$2.25 to \$3.00; calves, \$1.75 to \$2.50.

HOGS—The market was steady to 5c lower; top, \$6.10; bulk of sales, \$5.00 to \$6.00; heavy, \$5.00 to \$6.00; packers, \$5.00 to \$6.00; light, \$5.00 to \$6.10; yorkers, \$6.00 to \$6.10; pigs, \$5.75 to \$6.00.

### HAWAIIANS SEEK STATEHOOD.

Republicans Ask It in All County Conventions.

HONOLULU—The republicans of the five counties comprising the commonwealth of Hawaii have met in convention to nominate candidates for the various county offices which are to be filled by ballot on November 3, the election being the first to be held under the new county government act.

The various conventions nominated mixed tickets, the natives running well with the whites in the contests for places on the tickets.

The various platform express approval of the administration of Governor Dole and recommendations are made that a strong fight be made on the floor of the national congress for the admission of the Hawaiian islands to statehood. Several of the platforms urge that a determined effort be made to secure more liberal federal appropriations for the Hawaiian islands, much work of a necessary character being neglected in the islands for lack of means to properly carry it on.

### Cotton Finds Quiet Time.

WASHINGTON—The following bulletin was posted at the navy department:

"Admiral Cotton cables from Beyroot on September 17 that Beyroot is quiet and nothing of importance has occurred since Saturday last. Some definite news about the case of the vice consul is expected soon."

### Palma Reaches Santiago.

SANTIAGO, Cuba—President Palma arrived here from Puerto Principe. The president's journey here was through a wild, picturesque country whose inhabitants have the reputation of being the most restless in Cuba. They gathered at all the railroad stations and were very enthusiastic.

### Must Pass Examination.

LINCOLN, Neb.—At a meeting of the board of secretaries of the state board of health it was decided to hold the first examination under the new law on the second Wednesday in November. According to law, it will be necessary hereafter for physicians who wish to practice in Nebraska to pass a state examination in order to secure certificates. Formerly diplomas from reputable medical colleges were sufficient to secure diplomas.

An Odd Scrap Basket.

Girls, do you want a scrap basket that will be picturesque and different from anything you have ever had before? If you do, ask your mother to take you to see your fisherman—before your summer outing ends, and either buy or beg from him a genuine eel-pot. Not a brand, new, unused one, but an old and grayish brown affair that has really seen service. He will have plenty of them, and will surely be glad to let you have just what you are looking for. Take your prize home with you, tie your favorite ribbons through the two little handles at the sides, hang it by your writing desk and you have a treasure which will excite much admiration.

The Demand for "Change."

There is over \$100,000,000 in half dollars, quarters, dimes, nickels and cents in circulation, about \$80,000,000 in silver dollars, \$75,000,000 in one dollar bills and \$45,000,000 in two dollar bills. And still the cry is for change. In New York the street car companies instruct conductors to refuse anything larger than a \$2 bill for fare, owing to the impracticability of carrying enough change to break up the fives and tens that would be forced upon them. A majority of fares are paid in nickels, then come, in the order named—dimes, quarters, halves and pennies. There is an occasional dollar and now and then a \$2 bill. Women are responsible for most of the paper money that goes into the pockets of conductors.

### CUBS' FOOD.

They Thrive on Grape-Nuts.

Healthy babies don't cry and the well nourished baby that is fed on Grape-Nuts is never a crying baby. Many babies who cannot take any other food relish the perfect food Grape-Nuts and get well.

"My little baby was given up by three doctors who said that the condensed milk on which I had fed it had ruined the child's stomach. One of the doctors told me that the only thing to do would be to try Grape-Nuts, so I got some and prepared it as follows: I soaked 1 1/2 tablespoonfuls in one pint of cold water for half an hour then I strained off the liquid and mixed 12 teaspoonfuls of this strained Grape-Nuts juice with six teaspoonfuls of rich milk, put in a pinch of salt and a little sugar, warmed it and gave it to baby every two hours.

"In this simple, easy way I saved baby's life and have built her up to a strong healthy child rosy and laughing. The food must certainly be perfect to have such a wonderful effect as this. I can truthfully say I think it is the best food in the world to raise delicate babies on and is also a delicious healthful food for grown-ups as we have discovered in our family." Name given by Postum Co., Battle Creek, Mich.

Grape-Nuts is equally valuable to the strong, healthy man or woman. Grape-Nuts food stands for the true theory of health.
