man's experience bore this out. Continuing, he says: "I did not know the cause of the trouble, but I am led to believe now that it was first brought about by jumping in and out of the wagon and in some way I may have strained my back.

"I was constantly growing worse," he continues, "and I became very much alarmed about my condition. I knew that something had to be done or serious results were sure to follow. I went to a specialist here in Sherman, and underwent a rigid examination."

Then he relates how the doctor told him that it was a serious case, but that he could cure him for fifty dollars.

He Lacked Time Not Money. Senator Clark of Montana says that one day he was walking along Exchange Place, ew York, when a boy said: "Shine, mister?" The western Croesus looked at his shoes, saw that they were quite dusty and was about to stop, when he remembered an important engagement. "No, haven't time," he said. To which the boy replied: "You mean you ain't got de price, don't ye, mister?" About fifteen minutes later Mr. Clark signed and handed over the \$10,000,000 check that paid for 500 miles of the Oregon Short Line.

A Serious Mishap.

The imitative faculty is the most valuable mental gift which a civil servant can poscess, says the London Daily Chronicle, as his success largely depends upon his ability to repeat official formulae and to write documents in the style of his superior, who will sign them. Negroes are admirable imitators, and they make excellent civil servants. Started the Heart Again.

Paul Sick reports the case of a young man who died while being operated upon for tuberculous peritonitis under chloroform. His heart had stopped beating for forty-five minutes, his respirations had ceased and his pupils were widely dilated. Sick opened the pericardium, massaged the heart, and applied hot compresses it it while respiration was being performed. In half an hour the heart was beating strongly and regularly, and life was resumed, the patient living for twenty-seven hours, when he died in collapse. The case is illustrative of the extreme value of direct cardiac massage in cases of sudden death.
