ALASKA has instructed its delegates for President Roosevelt.

THE extra session of congress commenced its work on Monday, November 9th.

THE "mannish" woman in manner and attire, thank the good Lord, is a passing fad. May it ever be womanly to be feminine.

REPRESENTATIVE NORRIS has been notified that the pension of John T. Willey, of Sutton, Neb., has been increased from \$8 to \$12 per month, from July 15, 1903. Mr. Norris was instrumental in obtaining the increase for Mr. Willey.

RETURNS from a number of the South-western Nebraska counties show the late election to have been somewhat disastrous to the county tickets, notwithstanding the state and judicial tickets carried by good pluralities in each case.

CONGRESSMAN NORRIS, Tuesday, announced the appointment of Paul M. Fell of Harvard, as a cadet to the military academy at West Point, from the Fifth district of Nebraska, making known at the same time the fact that J. W. Eckersley of Juniata and F. L. Sward of Axtell are the first and second alternates respectively. This announcement is the result of the last examination held in Hastings.

## The Panama Republic Incident.

In their search for an issue the democratic leaders in congress are always capable of butting their heads against the stone wall of public sentiment with all the faculty of a he-goat determined to derail a fast express. We doubt if there are a dozen democrats in congress who do not believe deep in their hearts, that the president and Mr. Hay acted honorably and intelligently and patriotically in this matter and adopted the only course that the government could take without an inexcusable sacrifice of national interests and the national welfare. —Detroit Free Press (dem.)

# Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request. Be sure that this picture in the wrapper of every bottle of Emulsion you buy.

## MISTAKES OF BIRDS.

### They Are the Result of Contact With Civilization.

Probably in a state of wild nature birds never make mistakes, but where they come in contact with our civilization and are confronted by new conditions they very naturally make mistakes. For instance, their cunning in nest building sometimes deserts them. The art of the bird is to conceal its nest both as to position and as to material, but now and then it is betrayed into weaving into its structure showy and bizarre bits of this or that, which give its secret away and which seem to violate all the traditions of its kind. I have the picture of a robin's nest before me upon the outside of which are stuck a small muslin flower, a leaf from a small calendar and a photograph of a local celebrity. A more incongruous use of material in bird architecture it would be hard to find. I have been told of another robin's nest upon the outside of which the bird had fastened a wooden label from a nearby flower bed marked "Wake Robin." Still another nest I have seen, built upon a large, showy foundation of the paperlike flowers of antepennaria, or everlasting. The wood thrush frequently weaves a fragment of newspaper or a white rag into the foundation of its nest. "Evil communications corrupt good manners." The newspaper and the rag bag unsettle the wits of the birds.

The phoebe bird is capable of this kind of mistake or indiscretion. All the past generations of her tribe have built upon natural and therefore neutral sites, usually under shelving and overhanging rocks, and the art of adapting the nest to its surroundings, blending it with them, has been highly developed. But phoebe now frequently builds under our sheds and porches, where, so far as concealment is concerned, a change of material, say from moss to dry grass or shreds of bark, would be an advantage to her. But she departs not a mite from the family traditions; she uses the same woody mosses which in some cases, especially when the nest is placed upon unevenly sawed timber, makes her secret an open one to all eyes.—John Burroughs in Century.

### The Easy Route.

The old squire lay a-dying, and his faithful coachman was summoned to the bedside. "Well, John," said the old gallant, "I'm going now on a longer journey than ever you could drive me." "Never mind, squire; never mind," cried the servant in a broken voice, "It'll be downhill all the way."—London Globe.

### Her Military Taste.

"Is she fond of the military?" "I should say she was. Why, she has all her books bound in one color, so they will be uniform."—Chicago Record-Herald.

### Unrecognized.

"Fortune knocks once at the door of every man." "Yes, but she's generally very cleverly disguised."—Chicago Post.

### FROM SOUTH AFRICA.

New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby was sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by all druggists.

### Egyptological Enthusiasm.

It may be noted as an agreeable evidence of the spread of Egyptological enthusiasm in America that nearly half the aggregate income of the fund for the last year came from the United States.—London Spectator.

### A Remarkable Case.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by L. W. McConnell.

## Chamberlain's Cough Remedy is Pleasant to Take.

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take. Mr. W. L. Roderick of Poolesville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of. The children like to take it and it has no injurious after effect. For sale by all druggists.
