NEW TRICK ON BARKEEPER.

Ring of Butter in the Pitcher Keeps

the Foam Down on the Beer. The barkeeper stopped long enough to fill a "growler," or glass pitcher, with beer, looked at it suspiciously and then swore. When his good naure returned he explained:

"Did you notice how little foam here was on that pitcher of beer? Well, I got worked for about twice as much as we usually sell for a time. The trick is very simple. Be-'ore those people sent in that pitcher they drew a ring around the inside of it with butter or something of that

"What difference does that make? Why, it acts this way: Most of the growlers we send out of here are about one-third beer and the rest oam, but with one of these greased pitchers it is all the other way.

"When you draw the beer into one of these the stuff flats very quickly. There is no better way of dusting As the beer hits that ring it drops

Unwelcome Chinese. Bathoen, chief of all the Bang-

waketse tribes of British Bechuanaland, has sent to the colonial secre. fary at London a remarkable protest against the importation of Chinese labor into the Transvaal. In it the Bangwaketse chief calls

the attention of the British colonial office to the fact that the natives of South Africa get their living by work ing in the diamond and gold mines, and he asks: "If the Chinese come into South

Africa, what will become of us?" With the money earned in the mines, he says, the natives feed and clothe their children and pay the hut tax; and if "these Asiatics," as he calls them, are allowed to come into South Africa it will be an exceedingly grave

"Poverty." he declares, "will be great, and the government will not be able to get the hut tax from any of us, as there will be no work for us." He, therefore, is opposed to the importation of Chinese into South Africa.

Milk Caused Wrinkles.

A writer on beauty in one of the society papers urges her readers water, as being certain destruction to a fine complexion. I cannot indorse this view.

Cleanliness is absolutely necessary to the beauty and delicacy of the tex- 3Y ture of the skin. If soap is not liked, at least oatmeal should take its place, and pure or distilled water in variably be used. I once saw the result of only washing the fact with milk in a lady who started life with a good complexion, but before she reached middle age had lost all freshness, and showed a faded skin covered with fine wrinkles. Nothing equals the complexion of the country woman who rises early, is much in the open air, and bathes freely in cold water. The homely idea of washing in the dew of the morning as an aid to beauty is simply a practical way of expressing this fact.—Lady Greville in devil when seated 'twixt two lawyers. London Graphic.

Mrs. Hughson, of Chicago, whose letter follows, is another woman in high position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pinkham: - I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was fitful, and I would lie awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Mrs. Pinkham's medicines are certainly all they are claimed to be."— Mrs. M. E. Hughson, 347 East Ohio St., Chicago, Ill.

Mrs. Pinkham Tells How Ordinary Tasks Produce Displacements. Apparently trifling incidents in woman's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started. The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound. If the slightest trouble appears which you do not understand write to Mrs. Pinkham, at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This

advice costs you nothing, but it may mean life or happiness or both. Mrs. Lelah Stowell, 177 Wellington St., Kingston, Ont., writes: "Dear Mrs. Pinkham: - You are indeed a

godsend to women, and if they all knew what you could do for them, there would be no need of their dragging out miserable lives in agony.
"I suffered for years with bearing-down pains, womb trouble, nervousness, and excruciating head-ache, but a few bottles of Lydia E. Pinkham's

Vegetable Compound made life look new and promising to me. I am light and happy, and I do not know what sickness is, and I now enjoy the best of health."

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore

health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints, - that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus or womb. It dissolves and expels tumors from the uterus in the early stage of development, and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system. Its record of cures is the greatest in the world, and should be relied upon with confidence.

FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.
