

ACHED IN EVERY BONE.

Chicago Society Woman Who Was So Sick She Could Not Sleep or Eat, Cured by Doan's Kidney Pills.

"This winter when I started to use Doan's Kidney Pills I ached in every bone and had intense pains in the kidneys and pelvic organs. The urine was thick and cloudy and I could barely eat enough to live. I felt a change for the better within a week. The second week I began eating heartily. I began to improve generally and before seven weeks had passed I was well. I had spent hundreds of dollars for medicine that did not help me, but \$6 worth of Doan's Kidney Pills restored me to perfect health."

Steam Turbine for Pumps.

The steam turbine principle has been adapted to a centrifugal high-pressure pump. The action is reversed, however the water entering at what would be the exhaust end, gradually accelerating as it passes through the several fixed and movable vanes, until it acquires a high velocity at what would ordinarily be the outlet end.

The Tailor Took His Measure.

"I was getting measured for a suit of clothes this morning," said young Mr. Sissy to his pretty cousin, "and just for a joke, y'know, I asked Snipem if it weally took nine tailors to make a man. He said it would take more than nine tailors to make a man of some people. I thought it was quite clevah."—Exchange.

Onions for Insomnia.

Onions are recommended as a good thing for insomnia. A favorite dish in England is one of the old sweet Spanish onions cooked in milk. Celery may also be used in the same way, stewed in milk. It is good for the nerves, and consequently for sleeplessness.

Voice From Arkansas.

Cleveland, Ark., August 15 (Special).—Nearly every newspaper tells of some wonderful cure of some form of Kidney Disease by the Great American Remedy, Dodd's Kidney Pills, and this part of Arkansas is not without its share of evidence that no case is too deeply rooted for Dodd's Kidney Pills to cure.

Mr. A. E. Carlile, well known and highly respected here, tells of his cure after nearly a quarter of a century's suffering. Mr. Carlile says: "I want to let the public know what I think of Dodd's Kidney Pills. I think they are the best remedy for sick kidneys ever made."

"I had Kidney Trouble for 23 years and never found anything that did me so much good as Dodd's Kidney Pills. I recommend them to all sufferers." There is no uncertain sound about Mr. Carlile's statement. He knows that Dodd's Kidney Pills rescued him from a life of suffering and he wants the public to know it. Dodd's Kidney Pills cure all Kidney ills from Backache to Bright's Disease.

HIS END WAS QUIET.

Youthful Diplomat Got Neatly Out of Tight Place.

Ned was 7, Budge was 4. They had the small boy's propensity for adopting every stray cat that came in their direction, without drawing any line of color or antecedents. The grown-ups had protested without avail and nearly every day found an additional half-starved kitten running about the place. At last the boys' father had an inspiration.

"See here, boys," he said. "I am altogether too poor to feed any more kittens. I simply cannot afford it. Now, if you really want to keep this last little yellow kitten you have brought in you will have to buy milk for her with your own pennies. But, remember, she must be well fed and the first time I find her crying for something to eat she will have to go."

The boys talked the matter over and readily agreed to this arrangement. The following day, however, the yellow kitten was crying piteously for food when the father came home. Only one of the culprits being present the vials of wrath broke on his head.

"Budge," he said sternly, "didn't I tell you boys that the first time I heard that cat yelling around here she would have to go?"

"Yes, papa," Budge replied hastily. "But you see, I only own half the cat and it isn't my end of the cat that eats."

ENGINES TESTED IN SHOP.

Ingenious Arrangement for Giving Locomotive Its Trial Trip.

One of the greatest triumphs of engineering skill is to be found at the Great Western railway works at Swindon, England, where an ingenious contrivance for giving a locomotive its trial trip without leaving the scene of its construction is in operation. The feature of the testing plant is that the engine, after being placed on the machine, runs on wheels fitted with tires which correspond to the trend and section of the permanent way. A clever braking arrangement secures a representation of the difficulties encountered in running on the metals and all the tests usually made on a trial trip can be conducted inside the works with all the appliances at hand. The dangers of a breakdown and subsequent blocking of the main line are thus obviated and the work of experimenting is simplified. This machine is the invention of the locomotive superintendent, J. G. Churchward, and is said to be the only one in Europe.

His Thirst for Knowledge.

Abe Gruber was entertaining a young friend from up the state one day last week. After having pointed out various sights of the city Mr. Gruber conducted his youthful acquaintance to a restaurant.

Mr. Gruber ordered dinner and then began perusing the wine list. He decided on some Burgundy, but just as he was about to order it paused and gazed at the callow youth before him. Then he shook his head.

"What's the use?" he said, half aloud. "He wouldn't know the difference between it and the rankest California claret."

"Perhaps not, Mr. Gruber," he said, "but then, I have such a thirst for knowledge."—New York Times.

Admiring the Mower.

I love the swish of the gleaming blade, The thump of the lustrous tread, Where the timothy stalk is lowly laid And the daisy bends its head.

There's freedom here in the mighty sweep Distilling the bay's perfume; There's freedom here in the hands that reap And conquer the clover bloom.

Here toil is king, and the bearded brow Seems never a-wrink with care; Here work is play—or it seems somehow To me it is—but there.

But there where the lusty mower goes With a strenuous stride along— Perhaps he'd sing, if he could, who knows, A different sort of song?

For here I loil in the shade immense, With my old muse on the run; I loil this side of the zigzag fence— He broils there in the sun. —New York Sun.

To Revive Glories of Long Branch.

Leading citizens of Long Branch are endeavoring to revive the faded glories of that erstwhile fashionable summer resort. Gamblers and the usual swarm of shoddyites crowded in after the real society leaders years ago and turned the place into a fifth-rate summer attraction. Now a meeting has been held and the city authorities have been asked to purchase ocean front, build a casino and construct a board walk. The citizens are determined that there shall be an early return of conditions which prevailed formerly.

Timely and Appropriate.

S. S. Brown, owner of Broomstick, the horse that wrested the laurels from Irish Lad in the Brighton Handicap, was congratulated after the race by a friend.

"If I'm not inquisitive," said his friend, "why did you give your horse such a name?"

"Named it after my cook," answered Mr. Brown.

"Why?" was the query.

"Because," replied Mr. Brown, "it isn't the first time a broomstick beat an Irish Lad."—New York Times.

Gabriele D'Annunzio.

The real name of Gabriele D'Annunzio, whose "Citta Morta" has been prohibited by the censor, in London, is Gaetano Rapagnetto. The dramatist is the son of Duchessa Maria Gallesse de Roma. He is a musician as well as a playwright, and has a son who has a certain celebrity as a mandolinist.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Oldest Tree.

The oldest tree in the world is on the Island of Kos, lying off the coast of Asia Minor. The trunk is thirty feet in circumference. A wall of masonry surrounds it and supports the two main branches. It is believed to be more than 2,000 years old.

Cheerfulness and Grumbling. How many people in real life there are who are a perpetual drain on the sympathies of their more cheerful friends and neighbors! They like to be comforted with strong, uplifting words; they appreciate cheerfulness—in others. It does not occur to them that it is a cultivable quality, just as grumbling is.

Corn Birds Will Not Bother. A well known farmer says he wets his seed corn with coal oil before planting it, and as a result the birds and insects do not bother it before it comes up. The oil does not injure the germ and keep it from sprouting. This has been proved by experience, as he has never had to replant.—F. Moore (Mo.) Lever.

JUST ONE DAY

Free From the Sluggish Brought Out a Fact.

"During the time I was a coffee drinker," says an Iowa woman, "I was nervous, had spells with my heart, smothering spells, headache, stomach trouble, liver and kidney trouble. I did not know for years what made me have those spells. I would frequently sink away as though my last hour had come."

"For 27 years I suffered thus and used bottles of medicine enough to set up a drug store—capsules and pills and everything I heard of. Spent lots of money but I was sick nearly all the time. Sometimes I was so nervous I could not hold a plate in my hands! and other times I thought I would surely die sitting at the table."

"This went on until about two years ago when one day I did not use any coffee and I noticed I was not so nervous and told my husband about it. He had been telling me that it might be the coffee but I said 'No, I have been drinking coffee all my life and it cannot be.' But after this I thought I would try and do without and drink hot water. I did this for several days, but got tired of the hot water and went to drinking coffee and as soon as I began coffee again I was nervous again. This proved that it was the coffee that caused my troubles."

"We had tried Postum but had not made it right and did not like it, but now I decided to give it another trial so I read the directions on the package carefully and made it after these directions and it was simply delicious, so we quit coffee for good and the results are wonderful. Before, I could not sleep but now I go to bed and sleep sound, am not a bit nervous now, but work hard and can walk miles. Nervous headaches are gone, my heart does not bother me any more like it did and I don't have any of the smothering spells and would you believe it? I am getting fat. We drink Postum now and nothing else and even my husband's headaches have disappeared; we both sleep sound and healthy now and that's a blessing." Name given by Postum Co., Battle Creek, Mich.

The Cause of Sleep.

The man who is kept awake by pain, or who suffers in any other way from lack of sleep, can usually obtain it by the use of a drug. Such sleep, however, is generally regarded as unnatural, and hypnotic drugs are avoided when possible. But now comes Mr. Raphael Dubois, a French physiologist, who tells us that all sleep is the result of drugging, the sleep-producer being carbonic-acid formed within the system.

Irrigation in Kansas.

Great state, Kansas! There is neither a mountain nor a marsh in all her length and breadth of 82,000 square miles. One-third of her area is almost a barren steppe, owing to lack of rain. Irrigation will make the dry prairies a veritable "garden of the west," raise the Kansas corn crop to 300,000,000 bushels and increase her live stock valuation to \$180,000,000.—New York Press.

England's Great Artist.

George Frederick Watts, the great English artist, who died recently in London, rarely worked from a living subject, but modeled fragmentary studies in wax and clay for particular parts of the figures of his pictures. This patriarch of painters said in reference to his principal works that one or his great aims was to take the terror away from death.

Labouchere on Intoxicants.

"I myself never drink spirits, or, indeed, either wine or beer when I can get water," said Henry Labouchere. "I can understand the liking for beer or wine. The taste for spirits, however, is incomprehensible to me. I tried all of them. The experiment did not succeed, but gin struck me as the least nasty."

Condemns Flannels.

Dr. Leonard Williams, in an article in the London Practitioner, declares that flannel underclothing is a fraud. "Dry flannel," he says, "is practically unabsorbent, whereas linen, cotton and silk are, in different degrees, very absorbent." He concludes that "woolen underclothing is, of all others, the best calculated to induce a relaxed and unresponsive condition of the skin."

To be a successful wife, to retain the love and admiration of her husband should be a woman's constant study. If she would be all that she may, she must guard well against the signs of ill health. Mrs. Brown tells her story for the benefit of all wives and mothers.

"DEAR MRS. PINKHAM:—Lydia E. Pinkham's Vegetable Compound will make every mother well, strong, healthy and happy. I dragged through nine years of miserable existence, worn out with pain and weariness. I then noticed a statement of a woman troubled as I was; and the wonderful results she had had from your Vegetable Compound, and decided to try what it would do for me, and used it for three months. At the end of that time, I was a different woman, my neighbors remarked it, and my husband fell in love with me all over again. It seemed like a new existence. I had been suffering with inflammation and falling of the womb, but your medicine cured that, and built up my entire system, till I was indeed like a new woman.—Sincerely yours, Mrs. CHAS. F. BROWN, 21 Cedar Terrace, Hot Springs, Ark., Vice President Mothers Club.—\$5000 forfeit if original of above letter proving genuineness cannot be produced."
