Engine 2701, which brought No. 14 into McCook, Tuesday night, had her trailer wheels turn cross wise of the track in the McCook yard, just after making the depot track. The platform was torn up but no damage of a serious nature was occasioned. It is said that the length of the tanks on these engines makes it difficult to make sharp curves.

In the car now used by D. F. McFarland of the Sterling division is an old piece of furniture with a history," said a Burlington man recently while indulging in the luxury of a reminiscent mood. "It is a large, solidly built table, of good material with a green colored cloth top. That table has a history, and it is said more money has passed over that piece of furniture than over a great many others the Burlington now has in use. In the days of Tom Potter that table occupied a place of distinction in his private car. Potter loved a friendly game of poker, and he could play a game that kept his friends vigilant if they cared to remain friendly. That table has been retired from its former business but it is still kept as a relic."—Lincoln Journal.

Offices Will Be Close to Depot. The offices of the B. & M. officials and of the dispatcher and his men will be erected just north of the union depot, the B. & M. company having made arrangements with the Union Pacific company for the use of the ground for a term of years. Saturday a surveyor of the B. & M. staked the ground for the building, and work has been begun on the foundation. A part of the material therefor has been here for a couple of weeks and nine additional cars, including that part of the Holyoke depot which will be utilized, arrived Tuesday. It will not take long to get the foundation ready, and the building in shape for occupancy, so that in a few weeks at the latest the trainmen and their office force will have more commodious quarters than they have at present.—Sterling Advocate.

A Continual Strain. Many men and women are constantly subjected to what they commonly term "a continual strain" because of some financial or family trouble. It wears and distresses them both mentally and physically, affecting their nerves badly and bringing on kidney and liver ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, insures healthy bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continual strain." Trial bottle of August Flower 25c; regular size, 75c. At all druggists.

We want to call your attention to the fact that we want to send you samples of the cloths that we make our Men's and Boys' clothing of. We want to send these samples to you so that you can sit down at home and pick them to pieces, burn them, "chew the rag" as it were, to see if you can find any cotton in them. Or better still, carry them to your home merchant and compare them with his goods and let him try and find any CHEAT or SHODDY in them.

You know that no sample an inch and a quarter square can do justice to a whole suit of clothes, but we have faith enough in our little samples and little prices to send them out to you to compare. We send with our catalogue samples of men's all wool suits \$6 00 to \$20 00, Boys' knee pants suits 2 00 to 5 00. Young men's suits 4 00 to 12 00. Men's pants from 2 00 to 3 60.
