THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

The Difference in Cost

between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cause doctors' bills many times this.

Dr. PRICE'S cream Baking Powder

is the most economical in the end, because it goes further in leavening and insures perfect, wholesome food.

When ordering of the grocer always call for Dr. Price's Cream Baking Powder by name for good health and good food. It makes the finest cake, puddings, flapjacks, biscuits and bread.

NOTE.—There are many imitation baking powders which are sold from five cents to twenty-five cents a pound. They should be carefully avoided as they are made from alum and are unhealthful.

HOLLY DECORATIONS.

How to Trim the House With Greens For Christmas.

These are the most time honored and the most handsome of all Christmas decorations, says the Chicago Tribune. The doorway into the dining room may be transformed with a long rope of evergreens and some holly berries. The rope may be draped about the door and perhaps carried over the framework of a window and brought down to the edge of a mantelpiece. The other end will perhaps be looped back and brought over a brass sconce, then fastened with a bunch of holly tied with a streaming scarlet ribbon.

From another doorway, also draped with hemlock rope, suspend a Christmas bell of holly, with mistletoe for a clapper, which will involve many entertaining complications during the festive day.

A coarse fish net tacked along the side of a stairway and stuck with branches of holly and laurel, branches of laurel and cedar, becomes charming.

Wreaths of laurel and holly tied with scarlet ribbons are beautiful in the windows; one on the front door just below the knocker, when there is a knocker, is delightful.

A row of little pine trees breast high along each side of a wide wall is one woman's effective Christmas treatment of her house.

Anywhere and everywhere belong the rope of hemlock and holly bunches, which are as appropriate to a 2 by 4 flat as to a twenty roomed mansion.

A Nuremberg Christmas tree is a distinct beauty on a Christmas drawing room or at a children's Christmas table. It is made of stiff green wire, covered with green, and comes in a wooden pot, and measures three feet or less. It is a blaze of cheerful glory when lighted and can be folded and packed away and rise again for many successive Christmases.

How to Make Imitation Snow.

Decorate your Christmas tree with imitation snow. It looks beautiful. It is best done out of doors or in a cold room. Fasten the tree to stand and, if done in a room, spread paper thickly around the tree to avoid a "muss." Now boil half a gallon of water and dissolve therein four or five pounds of alum. Sprinkle the hot liquid with a sprinkling can or otherwise finely all over the tree. Wait awhile, heat the liquid again and sprinkle once more. While the needles are still wet with alum water sift flour or starch or chalk over the whole. The tree needles will then look as if burdened with snow.

How Yule Dollies Are Made.

These are old Christmas sweets for children: Cream together one-half cup of butter, one cup of sugar, add gradually two well beaten eggs, one tablespoonful of rich cream or milk, one teaspoonful of vanilla and three cups of flour with which has been sifted two teaspoonfuls of baking powder. Stand for an hour in a very cold place. Have ready a tin cutter in the shape of a doll about five inches long. Take a portion of the dough out on the board at one time, roll out one-half inch thick and cut into dolls. Brush each over with milk and dredge lightly with powdered sugar. Use currants for eyes and bake in greased pans in a moderate oven. When cold decorate the skirt of each doll with ruffles of frosting. Wrap separately in sheets of waxed paper. In packing place the doll in a long shallow box, pack firmly with tissue paper and before closing the box add a sprig of holly, tying the box with red ribbon.

How to Make Yule Cakes.

Rub to a light, white cream two cups and a half of butter and three cups of sugar. Add ten eggs, two at a time, beating five minutes between each addition. Sift four cups of flour three times over with a teaspoonful of baking powder, and add to the sugar, butter and eggs. When well mixed add four cupfuls of currants, washed and dried, half a cup of shredded citron, a teaspoonful each of nutmeg and cloves and a gill of brandy. Mix and pour into a paper lined tin, also well protected with paper outside, and bake two and a half hours in a moderate oven.

How to Roast a Duck.

Perhaps you are to have roast duck for Christmas instead of the regulation turkey dinner? In that case omit sage from the filling if you are wise, using simply a forcemeat of breadcrumbs seasoned with salt, pepper, onion juice and minced parsley. Fill the bird after rinsing and wiping it well inside and out. Do not moisten the filling, and pack it rather closely. Dredge the bird with salted flour, pour a cupful of boiling water over it and roast in a fairly brisk oven, allowing about fifteen minutes to the pound. Baste with the gravy and, when nearly done, with butter. Then dredge some flour over the duck and put it in to brown. Serve with currant jelly if you will.

How to Serve Grapefruit.

One of the popular fruits for the Christmas holidays as well as for almost any other occasion is the grapefruit. If possible get one that is grown in Florida, see that the skin is smooth and the fruit heavy and solid and also that the size is large. Cut it in half, scoop out a good part of the juice and fill up the vacancy with champagne if you have it, or, if not, use sherry, brandy, fruit salads, brandied cherries or cordial, and there is something that will revive the spirits of anybody not on the verge of the grave.

How to Make a Holiday Dessert Dish.

Cut orange peels into six, then pare down toward stem end, so as to form petals like a lily. Then spread out the orange sections and place on a dish filled with nuts, bananas and grapes.
