Russia may have the money in sight and hand that talks, but it takes men to fight—and Japan seems to have plenty of this more essential requisite in war times. After all its Man that was intended for dominion.

## For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

## Colds

It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases, among which are the two greatest destroyers of human life, pneumonia and consumption.

### Chamberlain's Cough Remedy

has won its great popularity by its prompt cures of this most common ailment. It aids expectation, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia.

# The Difference in Cost

between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cause doctors' bills many times this.

## Dr. PRICE'S cream Baking Powder

is the most economical in the end, because it goes further in leavening and insures perfect, wholesome food.

When ordering of the grocer always call for Dr. Price's Cream Baking Powder by name for good health and good food. It makes the finest cake, puddings, flapjacks, biscuits and bread.

NOTE.—There are many imitation baking powders which are sold from five cents to twenty-five cents a pound. They should be carefully avoided as they are made from alum and are unhealthful.

### A Big Success.

The entertainment and box supper in Berry's hall last, Thursday evening, given by the M. W. A. and R. N. A., was a success, both socially and financially and will long be remembered by all who were fortunate enough to be present. The following programme speaks for itself:

Duet—Clarinet and violin.....  
Messrs. Ganter and Cutler  
Piano solo.....Clarence Stokes  
Reading.....Miss Storer  
Vocal solo.....Miss Rowell  
Reading.....Miss Abbott  
Quartette.....Mrs. Thomas, Misses Budlong, Stangland, Daich  
Reading with music.....Miss Santee  
Piano solo.....Miss Barr  
Short talk.....Rev. Carman  
Piano solo.....Mrs. Mills  
Quartette.....Mrs. Thomas, Misses Stangland, Budlong, Daich

It is regretted that the hall was not larger so that more people could have enjoyed this intellectual and musical treat, the equal of which, few if any, have been heard in McCook for several years.

Next the boxes were sold at auction, many being very attractive and some selling as high as five dollars. The vote for the most popular lady resulted in Miss Daigh receiving first prize, a handsome toilet case, and Miss Fleischman second prize, a Japanese work box. The booby prize for the homeliest man present was carried by W. A. Middleton.

## A Present to Every Farmer's Boy and Girl

G. W. Predmore & Sons are so anxious that every farmer should know of Skow's Rotary Disc Sharpener and the wonderful work it is doing in their shop that they are willing to give a nice present to every boy or girl that will READ THIS AD TO THEIR FATHER and induce him to bring us a trial set to be sharpened. This wonderful disc sharpener in our shop is one of only 6 in Nebraska. Discs sharpened on this machine do better work and stay sharp twice as long as by the old hand method. The reason is that the disc is rolled instead of pounded, made from three-eighths to five-eighths of an inch larger, the steel is made harder and the disc naturally cut, easier, while the old method of pounding warps the disc out of shape and makes it rough.

Cash Prices for Sharpening

15c per 16-inch disc
