Why He Does It.
"It isn't often that we have faith enough in the medicines put up by other people to be willing to offer to refund the money if it does not cure," said druggists Lon Cone & Bro. to one of their many customers, but we are glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that plan. "The Howard Co., in order to get a quick introductory sale, authorized us to sell the regular fifty cent bottle of their specific for half-price, 25 cents, and although we have sold lot of it, and guaranteed every package, not one has been brought back unsatisfactory. "One great advantage of this specific," he continued, "is its small dose and convenient form. There are sixty doses in a vial that can be carried in the vest pocket or purse, and every one has more medicinal power than a big pill or tablet or a tumbler of mineral water. "We are still selling the specific at half-price, although we cannot tell how long we shall be able to do so. Any person who is subject to constipation, sick headache, dizziness, liver trouble, indigestion, or a general played-out condition, ought to take advantage of this opportunity. If the specific does not cure them, they can come right back to our store and we will cheerfully refund their money."

A New Church Bell.
The Methodist brethren are placing in position, today, their new church bell. Though weighing 500 pounds less than the old bell, it is of the finest bell metal, and is expected to be far superior to the first one installed, which was a disappointment.

The shop forces had a fire drill, Thursday afternoon about two o'clock. Ward's gang threw first water, time 31 seconds. Howell's gang ran about 600 feet and were a close second. Emerson's gang failed to make a showing on account of some defect or failure in the hydrant. The contest aroused considerable interest and spirit.

Conductor and Mrs. A. G. Bump arrived home, Monday on No. 13, from their trip southwest to witness the marriage of Miss Nettie, daughter of Conductor and Mrs. H. G. Terrell, formerly of this city, but now of Guadalajara, Mexico. The wedding took place at San Antonio, Texas, April 26th. Among the other places they visited was Arkansas Hot Springs. They report a grand trip and a delightful visit with the Terrells. Mr. Terrell has recently acquired some property—a quarter of a block of residence lots—in McCook and expects to have a dwelling house or more built upon the same, this summer. Prosperity has come to the Terrells in generous form since their residence in Mexico, where he is a conductor on one of the Mexican roads. Mr. Bump brought home with him a very valuable and exceedingly rare book on Masonry, a book printed in the year 1762 and inscribed and dedicated to George Washington. It has been an heirloom in the family for generations and it is said there are but two other copies of this rare book extant. That he prizes it most highly goes without saying.

State Superintendent Makes Assignments.
State Sup't McBrien has made the assignment of teachers to the several junior normal schools to be held in Nebraska, this summer. The teacher corps for McCook is as follows:

New Time Card For The Burlington.
The Burlington will put a new time card into effect on May 21, which affects the time of through trains between Chicago and Denver. Informal advices of the change were received by local agents this morning, and it is said that No. 1 will arrive at Denver at 7:30 p. m., in stead of 8 as at present, in order to connect with the D. & R. G. No. 3 which will leave at 8 instead of 8:30. Returning, the train, known as No. 6, will reach Omaha at 7:10 a. m., which is fifteen minutes later than at present. It is not known what effect this will have upon the local railroad situation, as full details have not been given out by the passenger department.

A minor change indicated will be the restoration of the local trains between McCook and Wray, Col., which were discontinued during part of the winter.—Lincoln Star.

An interesting discussion is now running in the columns of The Homestead relating to the type of horse that is best adapted to farm labor in the corn belt. The editor of The Homestead has taken the position that the horse weighing from 1,450 to 1,700 pounds is not only the most profitable to raise for the market, but that an animal of this weight, if the quality is right, is much more useful on heavy farm implements than the light weights. The expression of this opinion has stirred up some of the advocates of the lighter breeds, and one subscriber goes so far as to say that he can disc more ground with four 1,200 pound standard horses than can be done by a similar number of drafters. He points out that the standard horse has more snap and that he will do his work with a greater degree of ease than the heavyweights. Some interesting arguments are put forth on both sides of this question, and the matter is not ended yet. We would like to here repeat that subscriptions for The Homestead are taken at this office, and we shall be pleased to do our part towards swelling the number of Homestead subscribers in this community.

Annual Camp Meeting.
The Nebraska State Holiness Association will hold their annual camp meeting at Epworth Lake Park, Lincoln, Neb., beginning June 16, 1905, and continuing ten days. The meeting will be conducted by the National Association same as last year, and Dr. C. J. Fowler, with several other members of the National Association will be present and have full charge of the meeting. Epworth Lake Park camp ground is now splendidly fitted with buildings, lights, telephones, water, street cars, etc., and is now without doubt the best camp ground in the state. The meeting this year will no doubt be the greatest ever held. Reduced R. R. rates will be given by all railroads. Excellent accommodations will be afforded for camping, boarding and lodging. For full information regarding tents, furniture, board, address W. B. Howard, 2724 Q St., for further information address the secretary. W. H. PRESSCOTT, Sec'y, 1817 M St., Lincoln, Neb.
