

Nervous Women

Their Sufferings Are Usually Due to Uterine Disorders Perhaps Unsuspected

A MEDICINE THAT CURES

Can we dispute the well-known fact that American women are nervous? How often do we hear Lydia express, "I am so nervous, it seems as if I should fly," or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the nerves and generative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she laughs, the next minute weeps. Pain in the ovaries and between the shoulders. Loss of voice; nervous dyspepsia. A tendency to cry at the least provocation. All this points to nervous prostration.

Nothing will relieve this distressing condition and prevent months of prostration and suffering so surely as Lydia E. Pinkham's Vegetable Compound.

Mrs. M. E. Shotwell, of 103 Flatbush Avenue, Brooklyn, N. Y., writes:

"I cannot express the wonderful relief I have experienced by taking Lydia E. Pinkham's Vegetable Compound. I suffered for a long time with nervous prostration, headache, loss of appetite. I could not sleep and would walk the floor almost every night.

"I had three doctors and got no better, and life was a burden. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it has worked wonders for me.

"I am a well woman, my nervousness is all gone and my friends say I look ten years younger."

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound convince all women of its virtues? Surely you cannot wish to remain sick and weak and discouraged, exhausted each day, when you can be as easily cured as other women.

A GREAT SCANDAL

SENSATIONAL DISCLOSURES FOLLOW AN INVESTIGATION.

HISTORY OF DARK DEALINGS

Owners and Union Teamsters Form Close Corporation and Advance Prices.—More Serious Offenses Than Bribery and Conspiracy.

CHICAGO—The greatest scandal Chicago has ever seen, according to States Attorney Healy, is to follow the disclosures made Friday before the grand jury by C. Driscoll, when the former secretary of the Associated Building Trades and Coal Team Owners' association revealed the entire history of the dealings between employers and union labor leaders, particularly that branch of union labor represented by the Chicago Teamsters' union.

State Attorney Healy said: "More serious offenses have been committed than bribery and conspiracy and the evidence presented to the jury has been of an extremely sensational character. It is very important and will lead to startling results. The names mentioned by the witnesses are those of prominent men on both sides. If I thought there would be no results from the investigation I would wait a half immediately. I believe the present line of inquiry will occupy the jury for the remainder of this week and a portion of next week, but if necessary all the docket cases will be sidetracked because of the great importance I attach to the results of the present inquiry."

Today will witness the gathering before the grand jury of twenty or more of the prominent business men of Chicago, together with leading members of the bar. Subpoenas for them have been placed in the hands of private detectives.

John C. Driscoll was the chief witness before the grand jury and related what he called the dealings between the employers and union labor. Driscoll told how the coal teamsters and coal team owners had made the first joint trade agreement, which provided that the owners should employ only members of the Coal Teamsters' union, and that members of the union should work for no employer not a member of the Coal Team Owners' association. The effect of this arrangement, the witness declared, was to force every coal wagon owner into the Coal Team Owners' association and every coal wagon driver into the teamsters' union. The owners behind this provision that barred union drivers from working for men not members of the association and prevent non-union drivers from driving coal wagons, raised the cartage rates of coal from 30 cents to 50 cents a ton for short hauls and to as high as \$1 a ton for longer hauls.

Alabastine

A Rock Cement in white and beautiful tints. Does not rub or scale. Destroys disease germs and vermin. No washing of walls after once applied. Any one can brush it on—mix with cold water. Plain tinting and whitening, and the most elaborate relief, stencil work and frescoing may be done with it. Other finishes (bearing fanciful names and mixed with hot water) do not have the cementing property of Alabastine. They are stuck on with glue or other animal matter, which rots, feeding disease germs, rubbing, scaling and spoiling walls, clothing, etc. Such finishes must be washed off every year—costly, filthy work. Buy Alabastine only in five-pound packages, properly labeled. Tint card, pretty wall and ceiling designs. "Hints on Decorating" and our artists' services in making color plans, free.

NO MATCH FOR JAPS.

Defeat of Rojstvensky Foregone Conclusion.

VLADIVOSTOK—A series of interviews which the correspondent of the Associated Press has had with naval officers who survived the battle of the sea of Japan has developed a most sensational story of the causes of the Russian disaster and the complete demoralization which followed the sinking of the flagship Kniaz Souvaroff and the wounding of Admiral Rojstvensky. It is explained that a single officer of the fleet knew the commander-in-chief's plans. The admirals in command of divisions knew no more than the sub-lieutenants, and had to rely only on the signature signals of the flagship, Admiral Nebogatoff, upon whom the command devolved, had seen Rojstvensky once after the juncture of their squadrons and then only for fifteen minutes. All the stories of extensive target practice in Madagascarr, it seems, were false. During the entire voyage there practically was not tramping in gunnery worthy of the name, and the big gun practice was confined to three shots per vessel.

FRANCE IS PLEASED WITH THE PRESIDENT

PARIS—President Roosevelt's success in opening a way for peace negotiations between Russia and Japan is the absorbing theme here and France has forgotten her own troubles with Germany over Morocco to join in enthusiastic approval of the American initiative. Portraits of President Roosevelt, Ambassador Meyer, Minister Takahira and Ambassador Cassini appear in all the journals, with pictures of the White House as the scene movement.

MEET IN WASHINGTON

Nation's Capital Selected for the Peace Meeting.

WASHINGTON—Official announcement is made that Washington has been selected as the location of the peace conference.

The announcement came in the form of an official statement issued by Secretary Loeb by direction of the president. The statement follows: "When the two governments were unable to agree upon either The Hague or Paris, the president suggested The Hague, but both governments have now requested that Washington be chosen as the place of meeting and the president has accordingly formally notified both governments that Washington will be so selected."

It is suggested at the White House informally, that after meeting and organizing the plenipotentiaries of the two governments, if it should be found to be uncomfortably hot in Washington, might adjourn the meeting to some summer resort in the north, where they may continue their sittings until such time as the weather in Washington will be more comfortable. Minister Takahira of Japan called at the White house at 10:15 o'clock and was shown directly into the office of the president.

Mr. Takahira's visit lasted one hour and twenty-five minutes. He declined to divulge any of the details of his talk with the president. The conference was had during the busiest part of the executive day and everything else was in abeyance during that time. Naturally it is to be presumed that it was of rather more than usual importance.

Mr. Takahira, on leaving the White house, when asked whether a decision had been reached as to the location of the peace conference, said: "Oh, no. It is a long journey," meaning probably that it might take considerable time to determine the matter.

AN IOWA WOMAN VICTIM OF TRAMPS

WATERLOO, Ia.—W. J. Schrock, a prominent farmer near Waterloo, on returning home found the charred body of his wife in the ruins of the coal shed. The trunk had been wholly consumed. A coroner's jury was unable to solve the mystery, but the theory is generally entertained that the woman was the victim of tramps.

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored **LION COFFEE**, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

Use LION COFFEE, because to get best results you must use the best coffee. Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1. **WITH BOILING WATER.** Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly.

2. **WITH COLD WATER.** Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

3. **Don't boil it too long.**

4. **Don't let it stand more than ten minutes before serving.**

5. **Don't use water that has been boiled before.**

TWO WAYS TO SETTLE COFFEE.

1. **With Eggs.** Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.

2. **With Cold Water** instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.) (Lion-head on every package.) (Save these Lion-heads for valuable premiums.)

THE OPPORTUNITY OF TO-DAY

The opportunity for the man with little means is probably better to-day in the prairie states of the Southwest than ever before in the history of the nation. To be sure, there is not the vast open choice of land for the homesteaders that existed in the '70s. The lands then taken up under Government laws are now prosperous farms and ranches. There is need of more hands to develop the country. In the Southwest, Indian Territory, Oklahoma and Texas, are vast areas of unimproved land not yet producing the crops of which it is capable. Practically the same thing is true of the towns. Few lines of business are adequately represented. There are openings of all sorts for wide-awake men. Are you one?

If you are interested, tell us what you want, how much you have to invest, and we will gladly furnish the information. Write for a copy of our paper, "The Coming Country." It's free. Address
