PUBLIC LIBRARY NOTES.

The September magazines are coming.

Who will answer why Scott's works should be read?

The first installment of the life story of the greatest business woman in the world, Mrs. Ella Rawls Reader, begins in September issue of Everybody's magazine.

Mr. Russell's narrative of the life of "The Greatest Trust in the World" was completed in August Everybody's magazine, which may be loaned now as the September No. is in. Those who have been interested in this article should call for it at the library.

In one of the late magazines there are a series of photographs showing landscapes, as seen above the clouds undreamed of by most people; these photographs were taken at day-break—14,000 feet above the sea level.

Mr. H. K. Webster has contributed an interesting article to the September Leslie's Magazine entitled, "How the Carnegie Hero Fiend works in practice. The Heroes it has rewarded—What it means to be a Hero."

"Uncle Sam's Confessional" is the name given by the treasury officials to the little office where sums aggregating four hundred thousand dollars have been returned by repentant sinners. This article is found in one of our late magazines.

About two weeks ago some party or parties placed iron bolts in the grain shocks belonging to Tom Saul about two miles south of Bartley. Some of the bolts were run through Mr. Saul's threshing machine doing much damage. The bundles were then opened and searched for iron bolts before being run through the machine and nearly a dozen were found. This week, Bert Young was arrested, charged with placing the bolts in the bundles and bound over to the next term of court in the sum of \$500.

TESTIMONIAL
Delmont, S. D., Dec. 17, 1902.
I used L. K. for hog cholera and it was all right. It cured my hogs. I had three sick ones and they all got well and done fine. I also used it for chicken lice and mites and it is all I claim for it. It is the only medicine for hog cholera, I think.
GOTTLIEB JERKE.
Harrington, Neb., Dec. 11, 1902.
I am using Liquid Koal and am well pleased with it. I am sure I saved my hogs with it last year, and am going to keep it in stock all the time as it is the best thing I ever had on the place for everything it is intended for. It is good for chicken cholera, lice on stock, insects of all kinds; it will destroy all kinds.
