Hotels and restaurants are crowded with strangers and many more are arriving daily.

Water Supply for Tampico.

Deprivations of Tex. Coyotes.
Citizens of McMullen and adjoining counties of Texas are in a state of terror because of the deprivations of coyotes, which are killing scores of cattle. Ways and means of getting rid of the pests are being considered.

State Fair News.

There is no investment of a few dollars which will pay so large dividends of pleasure and profit and increased knowledge as a visit to the Nebraska fair at Lincoln, September 4th to 8th. The railroad fare is one fare for the round trip; there is the pleasure of the trip at the time of the year when the harvest is gathered or in sight; the opportunity to visit the capital city and the public institutions there located, among them the university, experiment station and state farm, capitol building, asylum, penitentiary, also Wesleyan University, Union College and Cotner University.
At the state fair will be gathered for inspection, comparison, and competition the products and live stock from our farms; the handwork of our homes in art and needle work; models and ideals in educational lines, and a great wealth of exhibits in farm implements, farm machinery, buggies, carriages and farm wagons.
At no place in the state at no time in the year is it possible to see so much that is useful on the farm or in the house: so much that adds to our pleasure and comfort as at the state fair. In addition to all these things, are the people themselves—representatives from every county and section of the state. The most interesting study of all is the study of mankind. In 1904 there were 80,343 admissions to the state fair. It is believed the 90,000 mark will be reached this year.
The great aim and object of the state fair management is that each and every visitor shall return home pleased and satisfied with the trip and that no feature of the fair shall be of a questionable or of objectionable nature. The State Fair date is September 4th to 8th.
