### Mistakes Made at the Mint.

John Erhard of Philadelphia has a  
coin dated 1891, which has a head on  
either side, showing that mistakes are  
made even at the mint. Every fin-  
ished coin passes through the hands of  
a great many experts, and there is lit-  
tle chance of an imperfect piece escap-  
ing this scrutiny. There are said to  
be many of them in circulation, how-  
ever. No particular value is attached  
to the coins outside of their rarity as  
curiosities.

## The Better Way

The tissues of the throat are  
inflamed and irritated; you  
cough, and there is more irrita-  
tion—more coughing. You take  
a cough mixture and it eases the  
irritation—for a while. You take

## SCOTT'S EMULSION

and it cures the cold. That's  
what is necessary. It soothes the  
throat because it reduces the  
irritation; cures the cold because  
it drives out the inflammation;  
builds up the weakened tissues  
because it nourishes them back  
to their natural strength. That's  
how Scott's Emulsion deals with  
a sore throat, a cough, a cold,  
or bronchitis.
