A New Public School Building.

It is now quite definitely settled that people of McCook will be confronted with the necessity of voting on a proposition to issue bonds for a new public school building, coming spring election. The school board is now considering the matter, though the details as to cost etc. have not yet been determined.

The question is still open, of course, as to whether the new building shall be an exclusive high school building or for general school purposes, and this matter will likely be considered by the voters of the city in passing upon the proposition to vote bonds.

It may also be considered what the cost shall be. Whether a completed building shall be erected or whether a building shall be erected up to the present amount the city can vote for that purpose, with provision made to complete the building or to add in the future.

The people of McCook may well take these and other questions in this connection into consideration and discussion. The erection of a suitable public school building for the growing demands of the city of McCook should be matter of a large and active city pride.

It may be added that the board of education has advanced the possibility of building a new school building by buying and retiring \$5,000 worth of the old issue of \$12,000 bonds which do not become due for two years. While it was necessary to pay a premium for the bonds the emergency warrants fully the expenditure.

Congressman Norris Talks.

The Methodist church was well filled, Monday evening, upon the occasion of Congressman Norris's talk upon his recent travels in Europe. He appeared under auspices of the Brotherhood of St. Paul and at their request.

The congressman opened his talk with an explanation of the organization's purpose and the manner of its formation, its power, its accomplishments for peace and its remarkable standing among the nations notwithstanding its unofficial character and position. The international parliamentary union has accomplished much and is destined the congressman believes to do greater things for the world's peace in the future.

Belgium, Germany, France and England were visited by the speaker during his absence and being a keen observer of men and things his descriptions of cities, people, customs etc. were greatly appreciated by all. His Brussels "old glory" incident was especially appreciated.

Emperor William of Germany, King Leopold of Belgium and other notables were met by the party, which received quite royal attention and honors during its presence in Europe.

Mrs. W. H. Dungan sang acceptably a solo in opening the meeting and the audience closed with a verse of the "Star Spangled Banner." President J. W. Chase of the brotherhood introduced the speaker and voiced the thanks and appreciation of the brotherhood and audience to the speaker at the close of the interesting and instructive evening.

Matters of Municipal Moment.

At the monthly meeting of the McCook commercial club, Tuesday evening, several matters of municipal moment were considered, chief among them being the sewer question and the proposed new public school building.

On the sewer question definite action was taken to the effect that a committee composed of the president A. Barnett, Congressman Norris and W. T. Coleman was selected to appear before the meeting of the city council on next Monday evening and convey to them the expressed wish and action of the commercial club favoring the calling of an election in the near future for the purpose of voting on a proposition to issue bonds for the building of a main outlet sewer. It was the unanimous expression of the members of the club present that McCook most urgently needed sewer facilities and that the time is now propitious for the voting of bonds for that purpose.

It is the wish of the commercial club to be able to do something practical and beyond the talk period for the city and at the regular monthly meetings of the club on the second Tuesday evenings of each month it is hoped the members will devote at least that one night each month to being present at the sessions of the club and to the discussion, presentation and origination of pertinent matters for the city's good. The paramount question just now is the sewer question. There are many improvements that McCook cannot hope to secure until she has an adequate sewer system.

Fell and Broke His Arm.

Little Everett, the ten-year-old son of Conductor and Mrs. Henry Rouch, is nursing a broken wrist back to its normal state. He was at the skating rink, Saturday evening last, and while standing still on a pair of elusive skates his feet left the floor unbidden and went ceiling-ward. His left wrist was broken in the fall. He is getting on nicely, however. That same wrist was injured about a year since.

A Band Rehearsal.

Colonel Sutton has finally collected a bunch of musicians about him and McCook will soon be herself again, for we have been lost since the peerless Nebraska Brigade disbanded.

A room has been secured in the court house and the first rehearsal has been called for to-night.

Furrow-Cox.

Edson B. Furrow of our city and Miss Bessie Cox of Culbertson were united in marriage, Wednesday evening of this week, Rev. M. B. Carman of our city performing the ceremony at the home of the bride's parents in Culbertson. They will take up their residence in McCook as soon as quarters can be secured.

Ayer's

Why is it that Ayer's Hair Vigor does so many remarkable things? Because it is a hair food. It feeds the hair, puts new life into it. The hair

cannot keep from growing. And gradually all the dark, rich color of early life comes back to gray hair.

"When I first used Ayer's Hair Vigor my hair was about all gray. But now it is a nice rich black, and as thick as I could wish."
