M'COOK TRIBUNE

Only One Dollar the Year

You Can Have It = for a year = FREE

We make this remarkable offer to our old and new subscribers to give them

THE TWENTIETH CENTURY FARMER

All we ask is that in every case your subscription must be prepaid to or beyond December 31, 1906

IT'S A REMARKABLY FINE FARM AND LIVE STOCK PAPER

We want every one of our subscribers paid up to the end of the year, so we have selected the stock and farm weekly that we think will be likely to please most of them. The price of the Twentieth Century Farmer is \$1.00 per year and it's a big dollar's worth--24 to 48 pages each week--full of good sense and good reading.

Some Notable Contributors and Regular Departments

THE TWENTIETH CENTURY FARMER is edited by Thomas F. Sturgess, one of the best posted men on matters relating to western agriculture and live stock, as well as having a rare faculty of gathering together a list of eminent contributors and a strong staff of department editors.

THE LIVE STOCK DEPARTMENT is edited by G. W. Harvey, associate editor of The Twentieth Century Farmer. He has had much practical experience as a stock breeder and feeder. He was for many years editor of The Nebraska Farmer and is a member of the Nebraska State Board of Agriculture.

FEEDS AND FEEDING—No feature has been, or can be of greater value to our readers, than the Department of Feeds and Feeding, under Prof. H. R. Smith of the University of Nebraska. Prof. Smith grew into the feeding business on his father's farm in Michigan. From the feed yard he went to Michigan Agricultural College to study the technical side of feeds and feeding. He spent a year each at the Wisconsin and Missouri Agricultural Colleges. The knowledge thus gained has been put in practice at the Nebraska Agricultural College, where he has attained a national reputation, by winning championship honors at the International Live Stock Show. This department is for Twentieth Century Farmer readers, who are urged to ask questions on feeds and feeding.

VETERINARY DEPARTMENT—Through the Veterinary Department is given the free services of Dr. H. L. Ramaccotti, a professional veterinarian of the foremost rank. When anything goes wrong with the stock, each subscriber is not only privileged, but urged, to write about it to The Twentieth Century Farmer. Questions are always answered promptly.

THE DAIRY AND CREAMERY DEPARTMENT is filled with matter from prominent dairy men located in different sections of our territory. Among these are Prof. A. L. Haecker, Nebraska University, Prof. O. Erf, Kansas Experiment Station and Alson Secor of Iowa.

WEEKLY MARKETS are edited by A. C. Davenport, the commercial editor of The Omaha Daily Bee—a recognized authority on the subject.

POULTRY—This department is very popular and is conducted by Ida M. Shepler, a practical poultry woman.

ORCHARD AND GARDEN is in charge of M. J. Wragg, who was a judge in the Pomological Department of the St. Louis Exposition. Mr. Wragg has made a study of horticultural conditions throughout the entire territory from the Mississippi to the Rocky Mountains. Inquiries from subscribers are answered from a practical standpoint.

Such well known men in the live stock world, as F. D. Coburn, who was Chief of Live Stock Department at the St. Louis World's Fair; C. R. Thomas, Superintendent Royal Live Stock Show; W. J. Kennedy, Prof. of Animal Husbandry, Iowa Agricultural College, A. T. Peters, Veterinarian of Nebraska Experiment Station and others write special articles on live stock problems.

James Wilson, Secretary of Agriculture, is an occasional contributor.

Among some of the prominent men who write about the orchard and garden are:

Charles E. Bessey, the Nebraska State Botanist—a man of world wide reputation.

Theodore Williams, the great western orchardist, who has produced remarkable new practical varieties of fruits.

C. S. Harrison, who has made a study of trees for western use.

The seed question is discussed by such men as Thos. L. Lyon of the Nebraska Experiment Station; A. Carleton, Cerealist of the Department of Agricultural and others; Irrigation by F. H. Newell, Chief of the Irrigation service; D. H. Anderson of the Irrigation Age. These are only a few of the subjects and men.

CARPENTER'S LETTERS OF TRAVEL—The Twentieth Century Farmer receives letters from its readers nearly every day, praising Frank G. Carpenter's Letters of Travel. In simplicity of language and vivid descriptive writing, Mr. Carpenter is not excelled by any present day writer of travel.

WILLIAM JENNINGS BRYAN, who is on a tour around the world, is writing a series of letters about his travels, which appear each week.

FOR THE FAMILY CIRCLE—The purpose of the Home and Fireside and Young Folks' Departments, edited by Mrs. Isabel Richey, is to furnish good wholesome, entertaining and instructive family reading for the women, youth and children. Mrs. Richey is a woman whose heart lies close to farm scenes and interests; she is a farmer's wife, yet a woman of much literary note, having been chosen to write the ode at the recent unveiling of the monument to the late J. Sterling Morton.

The Twentieth Century Farmer and the McCook Tribune (the best paper published in Red Willow county) BOTH for \$1.00
