### ODD WATER WHEELS.

Some Float on Streams—Huge Ones Make a River Lift Itself.

The people of Syria and Tiflis make their streams do things that Americans do not seem to have learned the secret of persuading the water courses of this country to perform.

At Tiflis the natives have learned how to utilize the power of the current of the river Kur without building dams. What they have accomplished possibly might be done by an American farmer living on the banks of a rapidly moving stream and desiring a small, cheap power. The Caucasians build floats on the surface of the river. Into them are set water wheels. The whole affair is fastened to the bank in such a way that it will rise and fall with any change in the level of the surface of the river, so that the power is about constant all the time.

In Hama, the ancient "entering in of Hamath," the Syrians have accomplished a feat that makes one think of lifting oneself over a fence by tugging at one's bootstraps. They have harnessed the historic Orontes, or Nahr el Asi, as the Syrians call it, into the work of lifting itself many feet toward the zenith and trained it thus to water their fruitful gardens and orchards.

As for size, the water wheels which do this work are as to other water wheels what Niagara is to other waterfalls. As one stands by one of these great wooden frames revolving upon its wooden axle and looks up at its perimeter forty feet above one thinks it large and is astonished when he turns his gaze up stream to see that relatively it is not a great wheel, for in the distance looms up one sixty feet in height. Even then he is not prepared for the spectacle of one ninety feet in diameter grunting around on its cumbersome axle just outside the town.

Life in Hama for some people is like the hiking of others for olives, an acquired taste, because of these very water wheels. According as one feels about it, it is a musical city or one filled with nerve racking groans. Day and night without ceasing these massive, slow revolving structures utter speech. For those who have acquired a taste for their companionship the never ceasing tones are soothing, resembling the ocean roar or a slow fugue played on some cyclopean organ. The diapason tones are deeper and louder than the deepest organ stop. Now they are in unison, now repeating the theme, one after another, now for a brief moment in a sublime harmony never to be forgotten, according to one traveler, then once more together in a tremendous chorus. The sounds are described as a slow movement up the scale, followed with a heavy drop to the keynote as: Do mi sol, do do do; do sol la, do do do. This unceasing Sisyphian music, it is said, has been going on for a century at least.—New York Tribune.

### Byes on Bills.

Among the humorous memories connected with English judges is one of Justice Byes and his horse. This eminent jurist was well known in his profession for his work on "Bills," and as this gave a fine opportunity for alteration his associates were accustomed to bestow the name on the horse, which was but a sorry steed. "There goes Byes on Bills," they took pleasure in saying, and as the judge rode out every afternoon they indulged daily in their little joke. But the truth was that the horse had another name, known only to the master and his man, and when a too curious client inquired as to the judge's whereabouts he was told by the servant, with a clear conscience, that "master was out on Business."

Be patient with every one, but above all with yourself.—Francis.

### Woman's Trials.

The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been ere she learnt to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one degree to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of the grief disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or childlessness, the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination. Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.
