At the Commercial Club Meeting.

Although the regular monthly meeting of the McCook Commercial club, Tuesday evening, was not as largely attended as it should have been, the amount of business transacted was a credit to that organization.

Mr. Bixler, of the McCook opera house, reported that work on the reconstruction, enlargement and overhauling of the skating rink would commence at once and that they hoped to be able to open the new opera house by the first of September.

The successful issue of the sewer petition was reported and the matter was discussed at some length. The favorable action of the city council in passing an ordinance establishing the city of McCook in one sewer district, providing for the construction of the laterals and for the payment of the same was noted, and commended. Thus this very important matter is placed upon a businesslike and final footing, to be pushed along to completion as soon as arrangements and contracts can be made.

But the most important action of the evening was the favorable consideration accorded the hospital proposition. Rev. J. J. Loughran was present and presented this matter in detail and at some length. A 16 bed hospital is contemplated. The proposed building is to be about 40x60 feet, basement and two stories. The cost of the building unfurnished and without heating or plumbing is placed at about \$6,500. The heating and plumbing it is thought will take \$1,500. The furniture and extras will likely cost \$2,000 more, making the total cost about \$10,000. The vital question of course is finance, but this is not considered as insurmountable. The proposition was fully discussed by several physicians of the city who were present, besides other members of the club, all to the same purpose, there being no discordant tones in the symphony. It was assumed by all that a hospital would be a good thing—in the interest of humanity and incidentally a desirable advertising item for McCook. With this common impulse and feeling it was moved that a committee of nine should be appointed by the president to have this matter strictly and exclusively in charge, it being their duty to canvass the situation and take such action as they deemed expedient in the line of providing funds for the construction of the hospital.

This hospital proposition has been under consideration for several years in various forms, but this seems to be the most favorable time and businesslike action yet taken. From every aspect of the case it merits the favorable consideration and liberal action of the people of McCook and vicinity. THE TRIBUNE ardently hopes that naught will interfere with the successful progress of this contemplated enterprise, which is more philanthropic and humanitarian than commercial, and hence will be the brighter star in our municipal crown.

Cheap Paint

Is dear at any price, and most people consider price before quality. If you are going to paint your buildings, you should be careful as to what paint you buy. Buy a pure lead and linseed oil paint—one that is guaranteed. Patton's Sun Proof Paints are made from pure white lead and linseed oil, using one-half boiled and one-half raw linseed oil. This is something no other mixed paint contains, and they wear longest, look best, and are guaranteed for five years, and are not adulterated with water and naphtha drugs. Walker is the only one that sells it.

Strong Spices.

McCook's spices are much stronger, have richer, more delicious flavors than ordinary spices and they cost you no more. We have whole and ground black pepper, allspice, cinnamon, nutmegs, mace, cloves, celery seed and caraway seed. Buy a nickle's worth, compare with what you are using and prove what we say.

Taken Captive.

To say that Strickland W. Gillilan "came, saw and conquered" does not express it. Perhaps it would be better to say he "stormed the citadel" and took us all captive. Never has any public entertainer who has visited Jackson been given such universal praise as he was after his lecture on Tuesday evening. For almost two hours he held his audience as if by magic—first they roared at his splendid humor, then smiled at his native awkwardness and then sat mute under the spell of his fine pathos. His monologues are execratically funny, his stories apt and admirably told, his poetry simple and picturesque, with a touch of sublimity that will give it endurance. S. W. Gillilan is a man with a message; his work will brighten the dark places of life and hasten the coming of the millennium.

He will entertain you at Menard's opera house, next Friday, July 20th. Seats now on sale at McConnell's. Read the advertising circulars.

P. E. O.'s at Home.

Last Friday at 7:15 p. m., the P. E. O.'s assembled at the home of Mr. and Mrs. C. W. Britt, in an early business session, at the close of which the B. I. L.'s were welcomed by the host and hostess for the social feature of the evening. Margarites, the P. E. O. flower, were utilized for the decorations. The music numbers by Misses Miller, Schobel, Mesdames Thomas, Britt and Little Marjory Schobel were especially appreciated. Delicate refreshments were served and altogether it was a most felicitous affair.

Will Talk of Libraries.

Miss Charlotte Templeton, the new secretary of the Nebraska public library commission, who succeeds Miss Edna D. Bullock, will visit the various summer schools and a number of county institutes during the next month or six weeks. Miss Templeton will be at McCook, August 10th and 11th.

Get In Your Copy Early.

Every week it is our necessity to "turn down" copy and news we would only be too happy to give publicity to, simply because we cannot do a week's work in one or two days. We make this statement, so that it may at one and the same time stimulate the bringing in of copy for advertisements from merchants and others and make known to correspondents the urgent necessity of having their news before the publisher early in the week.
