Irrigation.

Write a letter at once to LeRoy E. Dutton, Alamosa, Colo., and he will tell you all about the beautiful San Luis Valley which is supplied with free and unlimited irrigation by the marvelous artesian wells on every farm. The land can be bought by give-away prices. It is of such porous quality that it sub-irrigates with very little work and is self-irrigating. It grows 500 to 800 bushels of potatoes; 20 to 25 tons of sugar beets; 50 to 60 bushels of wheat; 75 to 100 bushels of barley; 100 to 140 bushels of oats per acre, and the farmers there are getting rich raising field peas which are planted like small grain, grown without cultivation and harvested by turning hogs, cattle and sheep in.—7-14-2ts*

Benjamin F. Addis, formerly in the butcher business in Minden, now with Paul P. Anton of this city, and Miss Rosebud Houser of Minden were united in marriage at the Baptist parsonage, Sunday morning at ten o'clock, Rev. Green officiating. They will make this city their home.

McCook Commercial Club Meeting.

Tuesday evening was their regular session. As Secretary Dovee will shortly leave for Lincoln to attend law school during the winter, he handed his resignation to the club. The resignation was accepted with a vote of appreciation of his past services. J. E. Ludwick was elected to succeed him. Mathew Lawritson was chosen a member of the executive committee to succeed the late G. B. Berry.

President Barnett was empowered to name a committee of three to look into the matter of a city park and make report to the club.

The secretary reported the recent city census taken to give McCook a population of 3,847 people. The bill for this service was ordered paid by the club.

The secretary was instructed to convey to the city council the expressed wish of the club that the council provide hitching posts and chains in different parts of the city where farmers can hitch their horses, and that the council at earliest convenience take steps to establish city scales and appoint a weighmaster therefor.

W. S. Bixler announced to the club that he would open his new opera house, September 27, 28, 29, with a matinee on the 29th. This news was received with enthusiasm and it was unanimous voice of the club that they get busy to the end that Mr. Bixler get a rousing and most liberal benefit during his opening week.

It was also decided to unite in an effort to fund the different auditorium funds accumulated in past years in the interest of Mr. Bixler, who has given McCook an opera house beyond highest expectations—one not excelled outside Nebraska's largest cities.

Let's Have Peace All Round.

The majority of farmers residing in the rural district are bitterly opposing the closing of the South road and are threatening to deal and do their trading with mail order houses, should the South road be closed. On the other hand, the railroad company is handicapped for track facilities on account of growing business.

The county surveyor claims a fall of twenty feet from track to water in the river. Hence my suggestion of having a subway constructed—expenses to be defrayed alike by city, county and railroad company, which would be a square and fair deal all round.

Meanwhile, remember the Peace Maker Diamond now handles a complete and up-to-date line of the famous Hamilton & Brown shoes, from the American Lady and Gentleman shoes in all leathers down to a solid Boys' or Girls' School shoe—just the thing for hard kickers. Give us a trial. DIAMOND, the working man's friend.

Pictures and Picture Framing.

Bring in your pictures you want framed. I can give them immediate attention as I now have the finest line of mouldings ever shown in McCook, and will have more coming all the time. Also a nice line of sheet pictures and some fine French mirrors at very reasonable prices. My moulding samples are displayed in the window, and if you do not see what you want, come in and look over the rest, also a nice line plate rail and room moulding. I am still selling out my stock of wall paper at cost, and have only a few patterns left. Come in and look over the line.

C. L. WALKER,
Wall Paper and Paints.

To the Ladies of McCook and Vicinity.

Mrs. Miller and Miss Vanderpool wish to inform the ladies of McCook and vicinity that they have opened a dress-making room in the new Walsh building, in room No. 14, and that they are now prepared to do guaranteed work in all lines of the dressmaking business.
