The pardon record of ex-Governor Mickey discloses that, during the four years of his incumbency, he released upwards of 200 convicts. Lacking less than a dozen of equaling the total number of convicts enrolled at the penitentiary when his term began. A board of pardons would obviate such hysterical humanitarianism.

Nothing like knowing what's going on. We keep you posted locally, but The Weekly Inter Ocean gives the news of all the world. By our special arrangement you can secure both papers for one full year for the very low rate of \$1.05.
