TWENTY-SIXTH YEAR

MCCOOK, RED WILLOW COUNTY, NEBRASKA, FRIDAY EVENING, MARCH 15, 1907

NUMBER 42

Citizens Named a Ticket.

The result of the Citizens' caucus, last night, was as follows:
Mayor—C. L. Fahnestock.
City Clerk—H. W. Conover.
City Engineer—C. H. Meeker.
City Treasurer—A. C. Ebert.
Councilman First Ward—Frank Real.
Councilman Second Ward—Barney Hoyer.

Member School Board—short term—C. H. Boyle.
Members of School Board—long term—E. H. Dean and G. S. Scott.
City Central Committee—First ward I. M. Smith and J. H. Yarger. Second ward—Oscar Pearson and S. D. McClain.

Following resolutions were adopted:
Be it resolved by the caucus of the Citizens' party of the city of McCook, Nebraska, that we pledge ourselves and our candidates by us nominated to the following:

First. To sane, progressive, economic and business methods in all municipal affairs, the welfare of the city as a whole to be considered in preference to individual or corporate interests.

Second: The impartial and full enforcement of all city laws and ordinances.

Third. The limiting of saloons to the present number, and the better regulation of the ones we now have.

Fourth. Published reports of the proceedings of the school board, and published reports, at least quarterly, of the city treasurer.

Fifth. That whereas the rates charged by the McCook Waterworks Co. for water, both flat rates and meter rates, are exorbitant and in excess of the rates charged under similar conditions in other cities and whereas the water service is grossly inefficient and inadequate, and especially so during the sprinkling hours, thus not only depriving us of the use of water to which we are justly entitled but also subject us to great danger of the loss of our homes and places of business by fire by reason of the inadequate water service with which to fight fire, therefore be it resolved, that we favor the passage of such reasonable ordinances as will procure for us reasonable water rates and the maintaining of the present system of water works or the increasing of them to such an extent as will insure for us an adequate supply of water for use and fire protection until such time as the municipality may be able to purchase such waterworks or install a plant of its own, and be it further resolved that we favor municipal ownership of all public utilities and that we urge upon the city authorities to so conduct the finances of the city that such municipal ownership may be accomplished at the earliest possible time.

That we condemn in the most emphatic manner the present abominable electric light service and the extortionate charges therefor and urge the city authorities to do all in their power to obtain relief from such inadequate service and excessive charges.

An Evening With the Council.
The municipal sessions were in regular session, Monday evening.

David Diamond made complaint that V. Franklin's stairs are in the alley and obstruct travel, that the space under the stairway is used as a place to deposit ashes. He asked that the stairs be taken down, which request was granted.

Harry Simon presented a complaint against paying occupation tax. The council instructed him to pay.

Bills as follows were audited and allowed:

Thomas Burge, occupation fund 60.00
John Eksted, " 57.50
Night Policeman " 50.00

Dr. J. D. Hare was appointed city physician and secretary to the board of health.

The sewer inspection fee was withdrawn and city engineer notified not to require its payment.

Mr. V. Franklin's anti-Semitic speech was the feature of the session.

On Account of Sickness.
On account of sickness which requires him to be at home W. H. Scott has found it necessary to retire from the McCook Live Stock Co., and W. F. Arthur Hartman is a very great artist—perhaps the greatest living violinist. He has the art that conceals the art. With him the violin is an extension of human speech, and the soul of the man is so great, so saturated with the sublime emotions, that he floods an audience and takes it captive, as no man has since the days of Paganini. It is that last indescribable human quality which distinguishes the great artist from the talented party or the industrious person.—ELBERT HUBBARD.
