WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms-pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Mrs. Neliie May, of 308 Pennsylvania ave., Joplin, Mo., says: "I know from my own experience that Doan's Kidney Pills are a reliable kidney remedy. was bothered for six or eight weeks with a constant dull heavy acting in the small of my back. I was tired all the time, lacked ambition and in the morning always felt worse. Having reason to believe these symptoms were caused from the kidneys I got a box of Doan's Kidney Pills. They proved to be the very remedy I required, and under the treatment the backache, languor and other symptoms disappeared."
