ONE DAY ONLY
9 A. M. TO 7:30 P. M.
FREE

This institute, composed of a group of regularly graduated, physicians and surgeons, licensed, legally chartered and incorporated under the laws of the State of Ohio, sends at its own expense these eminent medical specialists in order to introduce the newest methods and discoveries in medicine and surgery such as the system of treatment under X ray, Violet ray, Finsen ray, Hydrotherapy, Etc., to give to those who call on the above, consultation, examination, advice and all medicines required to complete a cure, absolutely free. These specialists will diagnose your case and give you the benefit of their skill and medical knowledge.

There is in this case no experimenting or guess work at your expense. You will be told whether you can be cured or not. If your case is curable they will put you under treatment immediately; if incurable they will give you such advice as may prolong your life. Their treatment always gives quick relief, and ultimately positively cures. Being prepared to cope with each individual case the human system is thoroughly cleansed of the disease in a natural and direct manner and improvement is noticed at once; even the worst cases are treated without any inconvenience to the patient or the pursuing of his or her daily avocation.

If you are improving under your family physician, do not come and take up your valuable time, as they absolutely refuse to treat any one who is under the care of the local physician. They wish besides to give each patient plenty of time and their undivided attention, but cannot listen to stories not pertaining to your trouble. They have discarded the old methods and remedies used for ages by the medical world, and which it would be folly to depend upon any longer, for they are not known to cure, as thousands die, depending on them for relief. The following list of diseases only are taken under treatment, to-wit: Diseases of the Nervous System, Heart, Stomach, Lungs, Kidneys, Catarrh, (purulent or dry), Consumption, Epilepsy, Deafness, Diseases of Women, Tumors, Pseudo Cancers, etc., of a Chronic Nature only. The treatment of Deafness by an entirely new method, and hearing in many cases restored at once. Catarrh in all its varied forms, like other diseases if once taken under treatment, are cured permanently to remain so and to never return. It matters not whom you have seen, or with whom treated, do not fail to call, as a visit will cost you nothing, and may restore you to health, or even save or prolong your life, as thousands of persons will testify by unassailable testimonials in all parts of the country. If you suspect kidney trouble bring a two ounce bottle of your urine for chemical and microscopic analysis.

REMEMBER:-- The free offer is during this visit only, and will not be repeated. Persons commencing treatment upon their future visits, will be required to pay, but not one cent will be asked from those commencing treatment during this visit for any medicine necessary to effect a cure; irrespective of your position in life, or the number of those who come on above date. Whensoever, or by whom wanted, a positive guarantee to cure will be given under their system of treatment. Those having long standing and complicated diseases who have failed to get well and become discouraged, are particularly invited to call.

NOTICE:--Married ladies, without their HUSBANDS, and minors without their FATHERS, will positively not be admitted to consultation, unless accompanied by one of their local physicians.

In the News

E. F. Richardson, Haywood's Attorney. Judge Fremont Wood—A Queen in Silhouette—War Secretary Haldane. "Father" Clark of the Endeavorers. Premier Sturza, of Roumania.

E. F. RICHARDSON in charge of it have spared no expense in securing for the indicted men every opportunity to make a good defense, so far as the employment of able attorneys and of clever detectives is concerned.

Several eminent members of the bar have been retained by the defense, among them Clarence S. Darrow of Chicago, ex-Governor John T. Morrison of Idaho, John F. Nugent of Idaho and E. F. Richardson. Mr. Richardson is of the firm of Richardson, Patterson and Hawkins of Denver. When the first talesmen called got into the jury box and were inclosed, they looked like a sea of whiskers. One of the most imposing bunches that helped to make up that sea was sported by A. L. Ewing, a sixty-year-old carpenter of Boise.

Mr. Ewing proved to be an exceedingly composed citizen, who shot out his answers with all the celerity of a phonograph. He said he was a Baptist, and he told Lawyer Richardson that none of the attorneys for the prosecution was a member of his church. He was so pointedly emphatic about this that it stirred the courtroom to roars of mirth.

"What papers do you read?" asked Mr. Richardson.

"Waal," said Mr. Ewing cheerfully, stroking his long white whiskers, "I read the Capital City News and the Ladies' Home Journal."

At this there was a howl that moved the court to admonish the spectators. Mr. Ewing went on to say that when Steunenberg was governor he had been appointed janitor of the old Soldiers' home. "But," said he, "through political reasons my term of office has expired."

"Were you discharged?" asked the lawyer.

"No, sir," replied Mr. Ewing, with dignity; "I was relieved."

Judge Fremont Wood, who presides in the Haywood trial, is a "down east Yankee," who settled in the west about fifteen years ago and won for himself a prominent place among the lawyers of his adopted state. He is of middle age and enjoys the reputation of dispensing justice with an even hand. His appearance gives the impression that he is the kind of man from whom to expect a square deal. He is large, has a massive head set squarely on a heavy neck and broad shoulders, and his eyes are keen and kindly, with a twinkle in them. His sense of humor came out when he exuded from the jury which is to try Haywood a citizen who offered as his excuse for not serving the fact that he was an officer of the gun club holding its annual shooting match in Boise at the time.

Sir Richard Burdon Haldane, the British secretary of state for war, is trying to be like Secretary Taft, a secretary of peace. Under his regime a policy of reduction in the armed forces and coast defenses of the empire has begun. Secretary Haldane is on this account more popular at such gatherings as the late national arbitration and peace congress than he is in some parts of Great Britain. The reduction in the defenses of the empire has necessitated a reduction in the number

of men employed in making weapons and materials of warfare. The men laid off do not approve of the secretary's peace policy and have expressed themselves to that effect with more force than elegance.

The secretary was recently caricatured in the attitude of exercising a ministerial prerogative in the house of commons. He is a man who resembles President Roosevelt in his wonderful administrative capacity and power of accomplishment. Physically he is described as "broad shouldered, stout and sturdy of limb, with a big head and a powerful, clean shaven face, the very type of the solid, confidence inspiring Briton whom nature has de-

signed for high and responsible work in the world."

Queen Wilhelmina of Holland has a profile composed of soft and graceful lines, as is strikingly brought out in a silhouette of her majesty recently made. The typical Holland headress she wears emphasizes the picturesque effect. The queen retains the ardent affections of her subjects, and her husband, Prince Henry, has increased his popularity since he participated in the rescue of the survivors of the wrecked steamer Berlin, which drifted against a lighthouse at the entrance to the Hook of Holland and was broken in two. The conduct of the prince evinced his courage and elicited much praise. The only thing that injures Queen Wilhelmina's popularity as a ruler is the fact that she has not provided an heir

for the throne. If she should die without an heir it might result in the absorption of Holland by Germany, and this is an outcome the Dutch desire above all things to prevent.

The Rev. Dr. Francis E. Clark, founder and president of the Christian Endeavor society, is a great traveler. He is now touring South America and recently had a narrow escape from death in the Andes on the Peruvian Central railway. At an altitude of 9,000 feet the train ran into a landslide and but for the fact that it was moving slowly would have been hurled over a precipice several hundred feet high.

FRANCIS E. CLARK.

"Father" Clark, as he is affectionately called by Endeavorers, was in charge of a meeting of his favorite society one evening when he was warned against a certain individual, who, if he once got the floor, would monopolize it for at least twenty minutes in exploiting his notorious views. As this was an important meeting in the history of the society, the members did "hope that Brother Roroker would not spoil it with one of his long speeches."

The time for testimony had arrived. "Here's a brother who has a word," said "Father" Clark. "There's a sister, a word over there; ah, here's a brother in the center aisle. Now, let us hear from the gallery. That's the way. Now, is there another?"

All this time Brother Roroker was trying frantically to catch the leader's eye. But with a diligence which would have done credit to the late Speaker Reed, Dr. Clark's optic never caught that of the much dreaded brother.

"Two minutes remain," said "Father" Clark. "Who can say something in 120 seconds?"

Up went Brother Roroker. "I had considerable to say upon this subject," he faltered, "but ask that the remaining minutes be placed to my credit at the next meeting, when I shall give my views."

The agrarian riots and race troubles in Roumania have brought into international prominence the new Liberal premier, M. Demeter Sturza, who has been exerting himself to devise and put in execution measures designed to afford relief from the evils and abuses which have caused so much unrest among the peasant class. His name is closely associated with the evolution of the old Danubian principalities into the modern kingdom of Roumania. He was one of the conspirators who dethroned Prince Cuza, the last of the Hapsburgs, and he is the only survivor of the ministers who secured the election of Prince Charles of Hohenzollern as Cuza's successor in 1866. The eventual recognition of the kingdom of Roumania by the European powers was largely due to his diplomatic skill and patriotic effort. He is a graduate of German universities and has always been intensely German in his sympathies. He was held in high esteem by the late Prince Bismarck. The premier is fond of studies in philosophy, archaeology and folklore and has written much on such subjects.
