The Republican State Platform.

Points with pride to the achievements of the Republican party under the splendid leadership of Theodore Roosevelt, and insists that his successor shall be a man who will continue the Roosevelt policies, and suggests Secretary Taft as such a man.

Commends the present state officials for their care of the state institutions, maintaining the credit of the state, and reducing the state debt.

Commends the Nebraska delegation in congress.

Calls attention to the magnificent record of the last legislature which carried out the pledges of the Republican party, as follows:

- 1. A state-wide direct primary.
2. Abolition of the free pass evil.
3. Comprehensive powers for the state railway commission.
4. More equitable rates for transportation of passengers and freight.
5. Equal taxation of railroad property for city purposes.
6. Abolition of fellow servant law and full employer's liability.
7. A pure food and dairy law.
8. Rigid economy in appropriations.

Endorses the direct primary, and pledges such amendments as shall improve its workings.

Commends the good work of the state railway commission, in its efforts to secure better freight rates for the people of the state. Calls for the rigid enforcement of the anti-pass law.

Declares that in suits at law corporations should be deemed citizens of every state where they have filed articles of incorporation or exercised the rights of eminent domain.

Favors an enactment of the federal law forbidding the federal courts from issuing writs of injunction against state officers charged with the enforcement of state statutes.

Regards with high favor the nominees on the state ticket and invites voters who believe in official probity and efficiency to join in electing them.

The Lincoln State Journal "handed" Chancellor Andrews of the Nebraska university, a deserved "bunch," the other day, apropos of the chancellor's ill-advised utterances in a speech "down east" more than incidentally defending such rich banditti as the Rockefeller aggregation. No rational American of honest, fair mind has aught against honest, honorably-acquired wealth; but they have a controversy with the predatory multi-millionaires or the billionaires whose vast fortunes have been acquired by financial brigandage now familiar to a school boy; and that con-

trovery is not in a fair way to end until conditions are bettered in this respect—the chancellor of the Nebraska university and his able compatriot—Chancellor Day of the Syracuse university—to the contrary notwithstanding. The warfare will not end as long as it is possible for wealth to pile up added riches by methods which send the petty thief to jail and the highwayman to the penitentiary. Let it be understood that no billionaire can screen himself behind the silly claim of genius or industry upon industry, from just criticism or from effort to make them amenable to the laws of the land.

THE Holdrege Daily Progress is no more. Editor Page is a rustler expressed in upper case type, but expenses were too much for the price, which is the case with all the Nebraska newspapers of the lesser sort, daily and weekly, and he had to succumb. Just how long Nebraska newspapermen will attempt to do business on the prices of 25 years ago, we do not dare guess. But it is absurd, if not suicidal, and the sooner changed to meet the insane high prices of today, the better for the craft.

The Nebraska Republican Taft league recently organized in Omaha gives the Fifth congressional district four vice-presidents, namely: Congressman G. W. Norris of McCook; J. W. Kiefer of Nuckolls county; A. L. Clarke of Adams county; E. B. Perry of Cambridge. The headquarters of the league is at Omaha.

The Nebraska supreme court rendered a decision in favor of the temperance element in Arapahoe, recently. This makes T. L. Grier the mayor of that burg, and should close the row there for the rest of the municipal year at any rate.

Secretary Wilson of the department of agriculture says that the unbounded prosperity of the agriculturist is not due to chance, but is the result of intelligent, scientific business methods. A reader of The Weekly Inter Ocean has placed before him each week the practical and approved methods to which Secretary Wilson refers. It is a good investment. Only \$1.25 for The Weekly Inter Ocean and this paper one year.

Most men who mingle with great crowds or participate in an event of many features are absolutely unable to describe in detail any one particular feature. It is then that they find their weekly newspaper most valuable. Just so it is with the readers of daily newspapers; they have not the time or the inclination to follow every phase of the week's events and so turn to a weekly newspaper for a concise and connected account of any event of more than local interest. This demand is easily supplied at small cost by The Weekly Inter Ocean, which can be obtained with this paper, one year, for \$1.25.
