OBSERVATIONS.

The local press attests silently to the
immoderate modesty of McCook's pro-
fessional men. Shades of Esculapius
and Blackstone!

It is every one's duty to visit occa-
sionally outside the home precinct, to
change one's perspective and adjust
one's sights.

Have you ever noticed that the un-
ctious brother, who on a Sunday morn-
ing, with conspicuous favor and vocif-
ferous abandon sings, "Lord, I care not
for riches, neither silver nor gold," goes
dollar chasing a little earlier than usual,
Monday morning?

Indianola has reached the "mas-
smeeting" stage in its campaign for a
lightning plant.

The state of Hayes county was among
the unrepresented counties in the late
enthusiastic and harmonious Republi-
can convention of the Fifth Nebraska
district. This is the third consecutive
dereliction. What's the matter, Judge?

Little or no serious opposition to Con-
gressman Norris materialized in Mon-
day's convention. G. W. is making good
and can quite clearly read his title to
another term in the lower house.

Good Words For Shively.

Central City Nonpareil: One of the
candidacies which will be regarded
with favor by a great many Republicans
in the state is that of J. M. Shively for
commissioner of public lands and build-
ings. Mr. Shively's candidacy was
announced last week by the Fremont
Tribune and Editor Hammond made
use of the opportunity to say a great
many nice things about his fellow towns-
man, without, however, going farther
than the record or the character of Mr.
Shively would warrant. For three
years Mr. Shively has been deputy in
the land commissioner's office. Previous
to that he was clerk of the court of
Dodge county, being elected the first
time by 108 in the face of a democratic
majority that went as high as 950, and
the second time he received a plurality
of 1,370. These phenomenal majorities
are a pretty accurate index as to his
standing at home. The editor of this
paper has the good fortune to know Mr.
Shively and he has found him to be a
resolute, capable, genial gentleman.
He has had an active part in the new
progressive republicanism of the state
and is in complete accord with the prin-
ciples that now dominate the party.
The party is in a mood to demand safe
dependable men this year and Mr.
Shively meets that requirement.

COURT HOUSE NEWS.

morning, for Aurora, Nebraska, on a
visit to her sister Mrs. E. E. Magee.
Before returning home she will extend
her journey on to Wellington, Kansas,
on a visit to her parents Mr. and Mrs. J.
B. Meserve.

DR. S. C. BEACH writes that he ex-
pects to arrive at home about the 15th.
After doing some post-graduate work in
the Chicago hospitals, he went to the
famous hospital of Drs. Charles and
William Mayo in Rochester, Minn.,
from which he announces he will return
to McCook primed for a campaign to
establish a hospital in McCook.

WALTER THORGRIMSON has been en-
gaged to hold down the secretaryship of
the Lincoln base-ball club during the
coming season. "Thorzy" needs no in-
troduction, either to the baseball public
of the Nebraska capital or to Mr. Green.
He has been a well known amateur ball
player in Lincoln for several years, later
going on the road as a player with Mr.
Green's Nebraska Indian team.—Lin-
coln Journal.

Budlong were in Harvard, Saturday
and Sunday last, the ladies participat-
ing in the P. E. O. dinner and election
of officers of chapter L at the home of
Mrs. G. J. Thomas. Miss Budlong, a
past president of chapter L, was install-
ing officer. Before the meeting six ladies
of division B of the chapter served a six-
o'clock dinner in five courses, in exquisite
style and of many delicacies.

HERE NEXT WEEK.

World Famous Medical Specialist Will
Arrive Next Thursday.

Since the announcement has been
made in these columns that the Hot
Springs doctors who have their Nebraska
state institute permanently located at
14th and O streets, Lincoln, were looking
about the state for suitable locations for
branch institutes, considerable interest
has been aroused in several towns in
different parts of the state, two of which
have taken active steps to secure the
branch institute of these world famous
specialists. As has been considered by
the Hot Springs doctors and since Dr.
Ben W. Kinsey, the chief of staff, has
consented to make a three-days' visit to
our city, we feel that it is the duty of
every citizen to work to secure the
branch of that institution. The other
towns who are working to secure the
branch institute, are Fairbury and
Kearney, but McCook has so much
better surrounding country to draw from
than either of those two cities, it would
be easy for us to secure the branch in-
stitute, providing we exercise ourselves
a little bit toward that end. The fame
of these specialists is world wide. Daily
papers throughout the United States
are continually publishing accounts of
wonderful cures made by these doctors.
We can hardly pick up a paper on our
exchange table but what it contains a
report of the remarkable work done by
the Hot Springs doctors. The following
article we clipped from the Lincoln
State Journal of Sunday, February 16th:

CONFIDENCE RESTORED.

Had Lost All Faith In the Medical
Profession.

CURED BY THE HOT SPRINGS DOCTORS
Is Profuse In Recommendations of Hot
Springs treatment.

HALLAM, February 16.—What is con-
sidered one of the most remarkable feats
of modern medical skill, was accom-
plished recently in the case of August
Albers of this city.

For over thirty years Mr. Albers had
suffered with a general complication of
diseases which finally brought on a com-
plete nervous breakdown. Mr. Albers'
friends had recommended one physician
after another and after fourteen had
treated him with no other success than
to use up nearly all the money he could
earn. Mr. Albers gave up all faith in
the doctors' ability to cure him.

Since September of last year a decided
change for the better has been noticed
in Mr. Albers' condition. Upon inquiry
as to the cause of this wonderful
improvement, Mr. Albers gave out this
remarkable interview:

"When I was eleven years old, I had
an attack of what the doctors called in-
flammatory rheumatism. I got over
this, but had another attack when I
was eighteen, which was not so bad, but
for the last twelve years I have been
sick most of the time. I have been able
to work, but much of the time I had
considerable pain, and the ailment kept
me weak, especially my nerves were weak.
I have been treated by many doctors,
some treated me for one thing and some
another, but most of them called it
rheumatism. Sometimes I would get
better for a time, but improvement was
only temporary and I was gradually get-
ting worse until in September. I com-
menced treatment with the Hot Springs
doctors of Lincoln. Under the Hot
Springs treatment I got better from the
start, and for the first time in years I
am free from pain and feel I am getting
well. I am building up and nerves are
stronger. I am well pleased with the
Hot Springs treatment. I am a farmer
and live one mile south east of Hallam,
Neb.

AUGUST ALBERS."
This cure is without doubt almost a
miracle, but the Hot Springs doctors
have hundreds of letters on file in their
offices at 14th and O streets which are
even more remarkable than this. Hardly
a case of chronic disease can be men-
tioned but what these Hot Springs doc-
tors have a living testimonial in a paral-
lel case which they have cured. These
doctors do not claim they can cure all
cases, but they solicit only difficult
cases, cases that other methods have
failed to cure. Consultation and exami-
nation, which is free, will convince the
most skeptical of the wonderful power
of these world famous specialists. Their
permanent location is at 14th and O
streets, Lincoln. Examination and con-
sultation is free to all who call.

When metropolitan daily papers gives
such lengthy space to record the work
of the Hot Springs doctors, we think it
no more than the duty of our citizens
than to make Dr. Kinsey's visit here
March 19, 20, and 21 a success. Dr.
Kinsey says the best way to show him
that we desire the branch institute is
for those who are sick and afflicted and
who have been given up by other doctors
as incurable by ordinary methods, to
call on him at the Palmer hotel when
he visits here. Dr. Kinsey does not
claim that he can cure all diseases but
he solicits only difficult cases, cases that
have failed of a cure by ordinary meth-
ods. Consultation and examination is
free. If your case is found to be cur-
able, you will be treated free of charge,
except the cost of medicines used. If

The Favorable Weather and High Price of Farm Products

will result in every foot of plow land being worked. But you can not do good farming with poor tools. Everybody wants to FARM BETTER.

We have anticipated this and have just received our spring supply of

John Deere Implements

PLOWS. Walking, sulky, and gang
stubble and breakers.

DISC HARROWS, the famous John
Deere "Model H" and "Model
B." We also have Rock Island
and Ohio discs. All of these you
know so well that it is hardly
necessary to mention them except
to tell you where to drive to load
one in your wagon. The steel
plow invented by John Deere was
the greatest gift to man, but of
course you need to follow it with a
GOOD DRAG HARROW. These we
have with from 60 to 140 teeth,
round or U-bar. We also have

HARROW CARTS, which are cheap-
er than shoe leather, besides pro-
viding you a comfortable seat and
giving you a chance to think how
you will soon want to come in and
pick out a

JOHN DEERE LISTER, either one-
or two-row, or walking, depend-
ing of course on the amount of
corn you expect to plant, but all
of them equipped with the fa-
mous

JOHN DEERE SUBSOILER, the
kind you always have wished you
had on that old lister, besides the
Edge Selection Drop, the accu-
racy of which is 96 percent per-
fect, and its use has raised the
average yield of corn in Iowa 20
percent.

We do not want to bother you unne-
cessarily, but we would like
to say about

That New Wagon

that we still handle the "New Mo-
line," "Weber," "Birdsel," and "Bur
Oak," all full clip geared and poplar
boxes, with extra cross braces—in fact,
built for heavy loads and dry country.

And there are many other things,
such as Manure Spreaders, Gasoline
Engines, Wind Mills, and Pumps.
And in speaking of

Wind Mills

we want to make special mention of
the celebrated "Eclipse," "Dempster"
and "Woodmanse" wind mills, like
those you have seen running on your
neighbors' farms for the past 18 years.
We put them up and guarantee their
proper working. But for all of this
you should not forget the comfort of
yourself and family, and for this we
have on hand brand spanking new and
right from the factory the largest line of

Buggies and Spring Wagons

ever shown in the west, and to induce
you to BUY EARLY and get the sum-
mer use of them, we will, until March
15th, make each purchaser of a ve-
hicle a

Present of a \$5.00 Bill.

This will help you and help us to make
room for other goods arriving later.
And then we have

Harness, Blankets and Robes

for every purpose, all going at a spe-
cial low price.

Besides what is mentioned, you will find in our store

Everything for the Farmer's Farm and Your Wife's Kitchen

your case is incurable, it will not be ac-
cepted for treatment at any price, or
under any condition, as it is the invari-
able rule of the Hot Springs doctors not
to accept an incurable case for treat-
ment. As stated above, Dr. Kinsey will
receive patients at the Palmer hotel,
McCook, Neb.
If you are sick and want to be made
well and happy, call on this famous
specialist as soon as he arrives, as con-
sultation and examination are free. And
no charges made for treatment except
for bare cost of medicines used.
