of modern dentistry to select teeth that are well adapted to harmonize with real teeth. You can always depend upon it, that it is a lack of careful judgment of some dentist, when you see unreal teeth that do not present a pleasing appearance. The unexpected sources that increase the popularity of teeth that fit, is reasonable evidence of the pleasure my patients have received. A brief chat about your teeth is waiting for you.

Some Points For Voters.  
We are all interested in the affairs of our city. Which way does your interest lay? Shall facts determine? What are some of them? We have two tickets in the field soliciting your vote. At the head of one of these, there is a man known to all to be a clean, straight-forward business man. He was nominated by the Citizens party, and the Citizens platform meets his hearty approval.

At the head of the other, the so-called "Republican ticket," stand the name of the present executive, with his self-adopted platform. When this executive was seeking office last year, he was continually promising that the city should have a clean administration. What has he done? Almost continuously, from the beginning of his term: to the present, he knowingly has allowed the breaking of both the statutory and municipal laws and by his failures has fostered vice and immorality in our city. This is a matter of common knowledge and court record. Further, when the raid on the houses of ill-fame was made last September, and the law-breaking was brought to light, he refused to give sympathy or help in the prosecution of these cases, and by force of public opinion was compelled to discharge his own public officers. Now in these days he is seeking to win votes by advocating that it was a shame to have these prosecutions and to incur so much expense to the county, but according to the statement of the county attorney not a cent of cost has fallen to the county but that \$750 has been put into the treasury. It is a matter of court record, on the other hand, that because these houses have been allowed to run that the county in the last two years has paid \$1,319.45 as cost in one case where no moral issue was at stake. Does such administration pay? Do you want these places of vice to run open and unrestrained in our city? Do you want liquor freely sold to boys under age and under such conditions? If not, vote for the Citizens ticket. We call upon all good citizens irrespective of political parties to stand by the men who will give us a clean, moral administration. Signed: G. B. HAWKES, M. B. CARMAN, E. BURTON, G. L. HENKELMANN.

**Young Men**

are beginning to learn that style is not the only thing to look for when buying clothes. Next time you buy a suit ask these questions:  
Is it all wool?  
Do you guarantee it?  
Will it hold its shape?  
Will it wear well?  
You don't need to ask about the style—you can see that.  
When you ask such questions of us we show the Clothcraft All-Wool guarantee.

And what's more the prices on Clothcraft range from \$10.00 to \$25.00. You can't get all wool clothes at these prices unless you buy Clothcraft.
