## H. P. WAITE & CO.

have now on hand a clean new stock of the Moline Plow Co.'s farm machinery. Every machine is of the latest pattern of this most popular line, which embraces:

- "Best Ever" gang and sulky plows
- "Goodenough" gang and sulky plows
- "Nebraska Clipper" walking plows
- "Cricket" rod breaking plows
- "Economy" disc harrows
- Pipe frame spike-tooth harrows
- "Western Belle" listers
- "Tri-Bell" listers
- "Success" listed corn cultivators
- "Lay-By" listed corn cultivators
- "Dutch Uncle" riding cultivators
- "No-Name" walking cultivators
- "Mandt" wagons
- "Mandt" farm trucks
- "Wisconsin" steel wheel trucks

We have sold many kinds of farm machines, but none have given as uniform satisfaction as the Moline line. We believe them to be the best made.

**That the People May Know.**  
This is not an advertisement, but simply a few facts regarding the coming election:  
First—The Republican ticket is trying to make this election a "wet" or "dry" fight, when really there is no such question at issue. All the Citizens ticket requires of the saloons is: That they conform to the law, such as selling liquor to minors, habitual drunkards and keeping the proper hours. The law says they shall do these things, and the Citizens ticket believes the law should be enforced.  
Second—The Republican nominees say, "Remember that word is, the McCook Water Works Company persists in violating the ordinances of the City of McCook and shall not supply water at rates that are just and reasonable to the consumers, the city should at once enter upon the installation of a municipal plant. When the facts are the McCook Water Works Company has refused to obey the ordinances of the City of McCook, and have a suit pending in the Supreme Court at this moment, costing the city plenty of good money that should be spent in improving and beautifying our city. The Citizens platform says the city should work with all possible speed to install a municipal plant sufficient to supply all our people with water for domestic use and fire protection, because the people said so by their votes last spring.  
The present plant has about 62,000 feet of main laid over this town, 37,000 feet of which is 3 inch cast iron. Mr. Darrow, the water works special engineer, swore in court that there was no fire protection procured through a 3 inch main. Thus you will see that over one-half of our fair city is at the mercies of fire.

### THE QUESTION IS:

Shall the McCook Water Works Co., (consisting of about nine individuals) be protected in making a bad deal, and leave more than one-half of our citizens to the mercies of the fire? On the reverse, the Citizens ticket says, protect the people. Vote the Citizens ticket and prevent the raid. Signed:  
W. B. WHITTAKER,  
G. E. THOMPSON,  
F. L. SCHWAB,  
H. W. CONOVER,  
M. L. STANICH,  
C. H. MEYER,  
C. H. BOYLE.

### AS TO TAXES.

They raise their talk about taxes increasing in case the new city plant is built. The bonds have been voted and executed and registered. Now if the old water company gets hold of them for its old plant instead of the city getting a new, ample, up-to-date plant for the bonds, there will be cause for kicking, as the old plant has reached its limit of usefulness and the next step the city would have to take would be more bonds for rebuilding the old plant. Which will you have, the old plant for the bonds or a new plant? It's up to you.  
Now as to the taxes. It is true that the law provides for the levying of taxes to protect bonds when they are voted. That is true, and that is the only fact that the water company wants you to think about. The amount required to pay the interest on our bonds is \$5,100, and that's what they want to ratchet your attention upon. They want to keep in the background the \$12,096.86 cash receipts from the running of the plant. Don't you see where the \$5,100 will come from? It will come from the \$12,096.86. Don't forget that. Shoot it back at them.  
But as to the bonds. It is true the tax will be levied and it might be that during the year of building the works and before they begin running the \$5,100 might be collected. How much will that cause you to pay? Well if you are an average taxpayer such as pays an average valuation of \$125 for household goods and piano the \$5,100 would cause you to pay exactly 19 cents more for the contents of your home. That won't hurt much. But don't you think the \$12,096.86 will take care of the interest? But if it went and you have to be taxed for an old or a new plant anyway, wouldn't you rather be taxed for the new, ample and modern city plant than for the old worn-out plant? Note the Citizens ticket and make certain of the new plant. Signed:  
CITIZENS COMMITTEE.

### Now Is the Time.

The present price of water pipe is \$32.00 per ton laid down in McCook as against \$45.00 figured by Mr. Darrow in his appraisal of the old plant, rendered January 31, 1908. Now is the time to build the plant while the price of pipe and material is low. Vote the Citizens ticket and make certain the building of the plant. Signed:  
CITIZENS COMMITTEE.

**To Organize Militia Company.**  
Manager A. R. Scott of the McCook Electric Co. informs us that he has received authority from the adjutant general of Nebraska to organize a company of state militia company in McCook. All persons interested, and THE TRIBUNE hopes this will embrace a numerous class, will make a point of seeing Mr. Scott about organizing this company.

**Knickbocker Suits \$1.75**  
in brown mixed and grey mixed suitings, in sizes 4 to 8 years, trimmed with braid and handsome buttons, finished with bow-tie and patent leather belt, only \$1.75. Don't miss them. The Thompson D. G. Co. The utmost service.

### Off in Fine Style.

The new electric company plant got off, last Saturday night, in fine style. Mrs. A. R. Scott started the big turbine with Miss Bradbury as fireman. May its light never grow dim. We congratulate.

### This Spring's Style.

Separate pants galore—the greens, browns, grays, all the staples of this spring's styles. The Good Clothes Merchants. ROZELL & BARGER.

**The New City Water Plant.**  
City Engineer Meeker has complied with the request of the city council and submitted plans and specifications for the new city water plant. They provide for a system of ten wells as compared with six wells in the old plant; for a pump house equipped with the latest pumping machinery; for an elevated tank on the hill northwest of A. C. Ebert's large house and orchard in the northwest part of the city; for a 18-inch main uptown to Dennison street; for a 12 inch main from there to the tank; for a 10 inch main along Dennison street; for a 10 inch main across the town on H street along north side of park; for an 8 inch main on Main avenue; for 6 inch mains on all the other north and south streets of the city; for a 6 inch main to West McCook; for a 6-inch main east in South McCook to the city limits; for 4 inch lateral mains in West and South McCook; for 600 service connections to connect consumers to the new plant without individual expense; all for the \$85,000.00 bond voted by the city. Does that look good to you? Wouldn't you rather have that new, ample, up-to-date plant affording abundance of pressure as well as actual fire protection, than to have the city pay the \$85,000.00 over for the old worn out and outgrown plant of the water company with its seven miles of little 3 inch pipe straggling all over our city? The old plant cannot be extended to outlying districts until the inside lines are dug up and replaced with ample size mains. The old plant never was adequate even for McCook 27 years ago when it was built. Now with a growing city of 5,000 people here which will contain 10,000 people within another 10 years it is ridiculous to consider the master of buying the old plant. Let that be the plan and the hope—yes and the expectation—of the water company if they can elect the Republican ticket. The Republican candidates express confidence in the water company. We declare the confidence is misplaced and we take no share in it. We expect to build the new water works this present year if we are elected next Tuesday. Signed: CITIZENS COMMITTEE.

**Peru State Normal Glee Club Friday Evening.**  
The father of Mr. Donald Plumb the director of the University Male Quartette is seriously ill, said to be by the attending physicians, near death's door. This fact has made it necessary for the quartette to cancel all of its dates this week.

J. L. McBrien, director of the University Extension in substituting the Peru State Normal Glee Club for the aggregation says: "But I am glad, as I told you over the telephone this morning, that we have secured the Peru State Normal Glee Club of ten members under the directorship of Prof. Homer House, who was a star attraction in the old Adelpian Quartette as far back as 1892. This organization will be the equal of our quartette in every respect. I believe for your meeting they will be in better condition than the quartette would have been, since Prof. House has been training them all year. They will give you high class glee club music, with sufficient variation in novelty performance and dramatic reading to delight your association."

The Peru State Normal Glee Club consists of twenty-eight members regularly. Prof. House will bring the eight soloists only, with readers. A substitution of platform talent is always an undesirable thing but the patrons of the teachers' association may rest assured that the Peru aggregation will be in every respect the equal of the other. There are about 75 tickets left. Phone to L. W. McConnell and A. McMillen for tickets or come early. The entertainment begins at 8:00 p. m.

**Bringing Good Results.**  
The Carman-Waltz meetings held in the Methodist church each night are bringing forth good results, ten conversions are reported for the first three nights of this week. Trenton has sent word that a large delegation will come down to attend tonight's (Thursday) service. The large choir led by Mr. Waltz is singing the Gospel songs with a spirit that swings things. The church is taking hold in good earnest and the outlook is very favorable for a gracious revival. You ought to hear the children sing in their afternoon meetings, nearly 200 strong in their choruses of "Brighter Days Are Coming" and "Ring, Ring, Ring."

A big men's meeting is to be held on Sunday afternoon at three o'clock, addressed by city pastors, subject, "Civic Righteousness." All men over 16 years invited.

**No Fame Stands Higher.**  
Than Hart Schaffner & Marx no name stands higher or fairer in the good clothes world. Rozell & Barger are their local prophets. Inspect their stylish spring suits in green just received.

**Dinner and Supper.**  
The ladies of the Catholic church will serve and supper, Easter Monday, the place to be announced, next week. The public patronage is solicited.
