

The "New Moline" Wagon

has made warm friends wherever used, but we know there are others

and we have them, such as the "Weber," "Birdsell" and "Bur Oak" wagons, also "Columbus" wide-tire wagons with a little lower wheels than the regular wagons. Also the "Fitzer" and "John Deere" steel wheel trucks, which are just the thing for a handy rock wagon. We can save you money on any of them as well as on a

"Velie" Buggy

Just come and look at these buggies, We have them in all styles and Prices. They are all made of the best Hickory, Steel and Malleable Iron. There is great satisfaction in having a good buggy, so come and get the summer's use of one of them.

RAILROAD NEWS ITEMS.

Fireman R. E. Love is in Kansas City, this week, attending the marriage of a cousin.

O. E. Pearson, the car distributor, went up to Brush, Sunday night, on company business.

Mrs. C. H. McBride visited Red Cloud friends, Saturday Sunday, returning home on Monday morning.

Hurley Dye came down from Sterling, Saturday morning. He and Mrs. Dye left for Sterling, Monday morning.

The orange train, Wednesday morning, was laid out about an hour at this point, by a slight collision of two engines in the yard. One of the engines was coaling at the chute and the other engine ran into her. Both were slightly damaged.

One train, this week, carried 27 cars of sugar.

James Egan, foreman of the tin-gang, is off duty on account of an injured foot.

Dispatcher R. G. Knowles returned home, Wednesday, from a visit of a few days in his former home, Wymore.

Wednesday's game between the Red Roses and the Regulars was forfeited to the Red Roses, score 9 to 0. The Regulars lacked masks and gloves and declined to play ball.

It is reported that Engineer C. E. Benedict expects to soon move to Denver and run from there. Conductor R. R. Bailey returned to Sterling, the first of the week, after a week's outing in Curtis.—Curtis Courier.

Agent G. S. Scott of Brush was in town, last Saturday night, between trains 10 and 3, forming the bell-wether in a trio who were on that evening given the Royal Arch degree in Masonry. Companion Smith of Brush accompanied him.

One new passenger engine has been received by the Lincoln division of the Burlington of the twenty-five ordered. It is understood of this order the lines west are to get thirteen and the Lincoln division will get three or four. The new engine received for this division was tried out yesterday on a thirteen hundred ton freight train on the main line and it negotiated the Berks hill with the load without difficulty. Passenger engines are usually tried out on freight trains before going into the passenger service.—Journal.

Hegenberger-Rupp.

At the home of the groom's parents, Mr. and Mrs. Herman Hegenberger of this city, at 3 o'clock Sunday afternoon, June 27, Mr. Floyd Hegenberger and Miss Myrtle Rupp were united in the holy bond of matrimony by Rev. E. Burton, pastor of the Baptist church. The ceremony was witnessed by immediate friends and relatives of the contracting parties, many of whom have known both the bride and groom since childhood.

The bride was dressed in white silk, beautifully trimmed with valenciennes lace and carried a beautiful bouquet of white carnations and cream roses; while the groom wore the conventional black.

The young couple are well known in community and they are of excellent reputation and character. She is a young lady of many virtues, fine qualities and kind hearted, which go to make true womanhood and a good companion through life.

The groom, who has grown to manhood in this city, is well and favorably known.

After congratulations they all marched to the dining room where a sumptuous three course dinner was served. They received many valuable and useful presents which gave evidence of the high esteem in which they are held by their many friends, who wish them much joy and happiness in their new life.

The happy couple will make their home at 207 Third street E, which had been beautifully furnished by the groom.

No Postponement Possible.

Washington, June 26—The suggestion that the enforcement of the so-called "hours of service law," relating to the employment of men on railroads be postponed until there is a final decision of the supreme court of the United States determining all possible controversies as to its construction, cannot be entertained, announced Attorney General Wickersham in a letter made public today. The request for postponement was made by General Attorney S. H. West, of the St. Louis Southwestern railroad, to the interstate commerce commission, which referred the letter to the department of justice. The attorney general says:

"This statute has been construed by the United States district court for the northern district of Illinois in the case of the United States against the Atchison, Topeka & Santa Fe railroad, and in the judgment of this department the court's is the correct one. Until the decision is modified or reversed the statute as thus construed must be accepted as the law."

Iced 81 Cars Last Saturday.

The Burlington iced eighty-one cars of ice at this point, last Saturday, when four train loads of oranges passed through this city. This is, perhaps, the record for number of cars iced at this point.

Typewriter ribbons, papers etc. for sale at THE TRIBUNE OFFICE.

Another time card, Sunday, July 11th. Train crews on Nos. 9 and 10 are pooled with 1 and 6. Wow!

The company has handled 80 trains of oranges already this season, and more a-coming every day.

There will be a new time card, Sunday a week. No. 9 will run through to Denver and an opposite train east from Denver.

No. 77 suffered a slight mishap, Monday evening, as the train was pulling into the east end of the yard. Some freight cars had been switched down the yard and the hand brakes failing to work, they caught two cars of the freight train on the side, doing some damage and delaying traffic a short time.

Last Sunday evening about 6:30 smoke was discovered coming out of the side of the railroad coal chutes. The coal was burning in one of the bins. Two streams of water was brought to play on the building, but it did not reach the spot. A steelbox freight car was run under the chute and the coal dumped into it with the streams of water playing on it as it came out, and the danger was soon past. No great damage was done. It is generally supposed to have been caused by spontaneous combustion.—Oxford Standard.

Parland-Newhalls Coming.

The Parland Newhalls company will give the second number of the Junior Normal Lecture course, July 9th, at the high school auditorium. McCook audiences have heard many of the best concert companies and it is with particular pleasure that the management present this attraction for the Junior Normal Lecture Course.

Season ticket holders may get seats reserved at McConnell's, July 2nd. Single admission tickets will be on sale July 5th. Get your ticket reserved early. Admission 50. Plenty of good seats for all.

In an interesting article appearing in the June issue of "Lyceumite and Talent" is found the following racy incident from their varied experiences:

"The boys live every minute and make many friendships along the way. It was out at Cedar Rapids that they got a new sensation. A man named Smith had taken them out to his home after the concert, and invited in some of his friends and the home filled up with music and mirth. Time sped on until perhaps 2 or 2:30 a. m., when a policeman walked in and announced that the crowd had been making too much noise and had disturbed the public peace. He said it was his duty to run in the concert company. And he did it, made them get into the patrol wagon and ran them back to the city. But he took them to the hotel instead of to the jail. It was a pleasant arrangement of the host to get them back to their quarters, the cars having stopped running.

"It is their humor and ease on the platform that make their good music and their many varieties of it so palatable to the public. In building their programs, they try to minister to the many different tastes of the audience. And they have been very successful in adapting themselves. And they keep bringing in new effects. Mr. Newhall has made an innovation for the coming season in an arrangement of Faust which includes the overture for violin, cello, horn and piano, and this closing with a male quartet. Then the Mephisto and Faust duet is given, followed by a duet in brass with piano accompaniment, and then the tenor solo, which is the heavy one in the work. It closes with the soldiers' chorus by the quartet. The rendition consumes twenty-seven minutes. It has proven a hit both in the small towns and the cities. This is perhaps the main secret of their success—they are something different. So the people get new sensations and the Parland-Newhalls get full seasons. And a long career to them—they deserve it."

Digs Up A Large Tusk.

Indianola, Neb., June 25—While loading gravel today, Geo. Ridgley unearthed a huge tusk measuring four feet five inches in length and five inches in diameter at the larger end. It was found fifteen feet under ground and about eight inches was left in the ground attached to what is supposed to be the head of a mastodon. It is believed that the whole skeleton is buried there and excavation will be made. The tusk is in a good state of preservation and is of a dark horn color.—Special to Lincoln News.

Engraving and Embossing.

Your wants can be supplied at THE TRIBUNE in the line of engraving and embossing, such as calling cards, invitations and announcements, monogram correspondence paper etc. Handsome samples of all on display. Prices reasonable. Prompt service. If interested come and inspect.

Delay in taking Foley's Kidney Remedy if you have backache, kidney or bladder trouble, fastens the disease upon you and makes a cure more difficult. Commence taking Foley's Kidney Remedy today and you will soon be well. Why risk a serious malady? A. McMillen, druggist.

BEGGS' BLOOD PURIFIER

CURES disease with Pure Blood.

Health, Comfort and Convenience

Are the things to look for in buying a heater. You don't buy a furnace often and it is only natural that you should hesitate. Comfort, convenience, fuel expense, all depend on the furnace and the way it is put in. It is a pleasure to sit in an evenly heated house, where all inside doors can be thrown open, making the house practically one big room.

Use the "Wise" Furnace

And get one-third more heat from your fuel. It is provided with a gas and smoke consuming fire pot, which allows the air to pass into and mix with the fuel and gases, consuming fully 90 per cent of the gas and smoke, securing perfect combustion and generating intense heat. The radiator is absolutely self-cleaning, there being no place for the accumulation of soot and ashes. For durability, economy of fuel and radiating power it stands pre-eminent. Come in and look over the furnace; we will be glad to explain anything you wish to know and give you prices.
