Burlington Makes Surveys.

Shoshoni, Wyo., July 8.—The Chicago, Burlington & Quincy has had three surveys made into Shoshoni during the past week from the north portal of the Big Horn canon at Boysen, twelve miles west. In the main the surveys are parallel, the chief divergence being at the junctions of the lines here with the Chicago & North-western—Lincoln Journal.

are so much below other stores that we are often asked "How long will the sale on these last?" Well, this is our rounded eleventh year in McCook and it is our reasonable hope that we may serve the public right in this stand at least twenty years more. "The sale" will last a while at least. Will you get your share? The Thompson D. G. Co. The utmost value always.

Shut Down For Repairs.

On account of the damage to our roof and smokestack, Sunday a week ago, we are compelled to shut down the mill and give it a thorough overhauling. This work will require about ten days more, after which we will be ready for our patrons and be better than ever able to give them prompt and efficient service.

MCCOOK MILLING CO.

Velle Automobiles

are now handled by McCook Hardware Co. If you are thinking of buying a car you should investigate the merits of this car. A \$3,000.00 equipment on a \$1,750.00 car is interesting to the careful buyer, and with the most liberal guarantee ever given, this car should interest you.

Day Current Now.

Beginning with the first of the month the McCook Electric Co. has been giving the city the advantages of a day current. It is quite probable that many will take advantage of this opportunity to use electricity for power in various ways, for running electric fans, and for many domestic purposes, cooking, etc.

ADDITIONAL RAILROAD.

The 1020 is the only remaining white leader in the yard.

Switchman George Whittaker has transferred to road service.

Engine 1371 is out of the backshop after a general overhauling.

Switch engine No. 1562 is in the back shops for repairs—new tires etc.

Rex. Scott, of the yardmaster's office, entered the train service, last Saturday.

Engine 326 has been painted and is ready for service after general overhauling.

The shops were closed down as far as possible, Monday, in observance of the Fourth of July holiday.

The concrete foundation for the engine and dynamo for the company lighting plant is being put in.

Conductor A. L. Knowland has been off duty part of this week on account of a mild attack of rheumatism.

Engines 2702 and 1092 are over the drops, this week, for usual repairs. New flues are being given the 1748, this week.

Arrangements are being made to pipe the company's yard at this place for air. When this undertaking is finished trains will be charged with air and be all ready in that important particular even before the engines are attached if necessary.

The new "monkey-motion" passenger engine, S1 2848, was broke in on freight, close of last and first of this week, but she didn't get to first base with No. 15, Tuesday night, on account of running hot. A few more trips will put her in first-class condition for fast work however.

The pressure of extra passenger business became so pronounced, first of the week, that the extension of No. 9 through to Denver could not be delayed until the issue of a new time-card, so this train is now running as second No. 13 and returning as second No. 2. They will be regularly carded as soon as the new time card can be printed.

RACE MEET AT MCCOOK

July 14, 15, 16. The Best That Ever Happened. Will You Help?

The board of directors of the McCook Driving Park association are offering to the people of McCook, and this section of the state, the best program in the way of racing that has ever been presented, and the matter of continuing the activities of the association, and perpetuating our annual race meeting, will be determined entirely by the manner in which the meeting of July 14, 15, 16 is patronized.

The horses entered in the various stake races of this meeting are performers of the highest class; none better may be seen at the Nebraska state fair, or any other racing course in the state.

The races as conducted by the association have always been "on the square," nothing being fixed, and all contests have been, and will be, determined strictly upon the merit and honest performance of the various horses entered.

Now it is up to the people of McCook. Will you help by supporting the association? Will you support it by your own attendance at the daily meeting, and invite your friends in neighboring towns and vicinity to join with us in making this meeting a most positive success. A failure to make good, financially, at this meeting will put the race game out of business in this city.

Other towns, even the smallest, support their local enterprises in an adequate manner, how much more so should McCook, the metropolis of Southwestern Nebraska, support this, the noblest of the sports. Nothing is needed but the earnest and united support of our own people.

The management has issued season tickets, good for the whole program, and good anywhere in the grounds, and it is desired that one thousand or more of these tickets be sold in McCook. The tickets are each transferable, and may be used by any member of the family. Tickets may be purchased of members of the association, and at many of the business houses.

Now will we make good, and assure the management of the racing meet, by purchase of these season tickets, that we will help support this great sporting event, or shall we say to them by our indifference that "this meeting will be the last." It is up to you.

It is especially requested that the business houses of the city close, each afternoon, during the race hours.

Next Week the Races.

Wednesday, Thursday and Friday of next week, McCook expects to pull off the greatest races in the history of her driving park association. Reference to the advertising displayed by the association discloses the fact that such purses have never before been hung up in this part of Nebraska. The special features are given hereafter:

2:30 trot, stake \$500.00
2:25 pace, stake 500.00
2:20 trot, stake 500.00
2:15 pace, purse 200.00
2:25 trot, purse 200.00
Three running races, purses 225.00

2:10 PACE, STAKE, \$1 000.00.

This will be one of the greatest harness races ever contested in the west. King Pin 2:09 1/4, Bill Barleycorn 2:09 3/4, Don 2:10 1/4, The Mystery, Chorister 2:10 1/4, Carter G. 2:10 1/4, Midford Vincent 2:10 1/4, Fay Benard 2:10 1/4, and others are entered in this race.

WEAR OILS

THAT WEAR.

It is better to wear out inexpensive oils than expensive machinery. The film of oil a thousand part of an inch thick in the bearings of your machinery gives as good protection as though the film was an inch thick, as long as the oil has proper wearing qualities. We have tested oils, oils of known value and efficiency. Machine, engine and vacuum automobile oils, each the best of its kind for the purpose for which it is intended.

L. W. McCONNELL, Druggist.

Democrats Meet.

The Democratic County Central Committee met in McCook Saturday and laid plans for the coming election. We understand the following will be candidates on the Democratic ticket: Clark, Barney Hofer; Sheriff, John Real; Commissioner, Ed. Sugbroun; Superintendent, Audrey Jones; Judge, E. S. Dutcher. Who will run for Treasurer is yet undecided.—Indianola Reporter.

Slight Fire, this Morning.

The Star laundry had a small fire in its boiler room, this morning. Fortunately, it was early discovered and extinguished with but small damage, it not being necessary for the department to use the fire hose. Fire resulted from the stack where same passed through the ceiling and roof, the opening not being large enough, bringing the wood too near the hot stack.

Mr. Thresherman.

We believe you can make money this year if you have a good machine and are ready for business. Remember that we are agents for the J. I. Case Co., and can land you a machine here in a few days. Let us fill your orders for anything in the threshers' line. Good stock of oil, grease and other supplies always on hand.

MCCOOK HARDWARE CO.

Removal of a Landmark.

The resignation of A. C. Ebert from the cashiership of the Citizens National Bank removes, temporarily at least from the active business men of the city, one of the landmarks. For a quarter of a century his has been the constant, consistent and ever-reliable figure behind the counter of the bank he has served with such marked fidelity. With one exception, he has been employed without change or interruption in one business house longer than any man in this city.

THE TRIBUNE is unadvised as to his future purposes, but we hope he will remain with the city he has seen grown from virgin prairie, and that after a well-earned vacation on the western coast he will return to this city and resume a place among us in some business capacity.

Dougherty-Walton Wedding.

Tuesday evening, July 6th, Miss Grace Winifred, daughter of Mrs. Cora Dougherty, and James LeRoy Walton were united in marriage, Rev. M. B. Carman performing the ceremony at the residence of Mrs. M. A. Jones on 1st street E. at corner of F, in the presence of a few relatives and friends. Miss Debbie Wilkinson and Mr. D. C. Crane, both of Fort Morgan, Colorado, stood up with the couple. Mrs. J. A. Moser and daughter of the same place were guests. The young couple will make their home at the Jones residence. Mr. Walton is employed in the Burgess plumbing establishment.

No Formal Celebration Here.

McCook afforded no formal observance of Fourth of July, this year, her people providing numbers and enthusiasm at various points in this section of the state. However, the fireworks proposition enjoyed a three-days' stand in place of the usual single appearance. Fortunately, there are no injuries to relate.

LOOK OUT!

The Odd Fellows are planning to hold a picnic, Monday, July 19th, in Little's grove on the South Side, to which everybody will be welcome.

HOT WEATHER

It is undoubtedly hot weather. But then, that is the kind of weather it takes to make things grow. Is it making your bank account grow, too? Don't let that languish, but see that it keeps growing all the time. It is the plant that is always sure to bring returns when properly cultivated—returns in health, in independence, in comfort and in ability to do things.

Remember that a good flourishing bank account grows steadily regardless of the weather—if you want it to grow. While the weather is warm, come in with your deposits just the same as ever. You will always find the same welcome at this bank, hot weather or cold.

Their Opening Concert.

The band regaled the people of the city, last Thursday evening, with a concert at the intersection of Main and C street, giving an enjoyable program. An effort is making to secure funds to make this concert a regular affair during the summer, the concerts alternating between the park and a downtown point. It is hoped that a generous response may be received to this action, and that we may have the benefit of these concerts during the summer.
