### Where the Shoe Pinches

It is not only because they are not going to wear well, but from the discomfort they will cause you that you will complain most about ill-fitting shoes, still it "serves you right" for had you come into our store you would have been fitted so there would be no place where the shoe pinched. Remember that a well fitted shoe means comfort and it lasts twice as long. So although you can select good leather and know the correct styles when you buy in our store, you can't get anything but a good fitting besides.
