Little drops of water poured into the milk, give the milkman's daughter lovely gowns of silk. Little grains of sugar mingled with the sand makes the grocer's assets swell to beat the band. Little bowls of custard, humble tho' they seem, help enrich the fellow selling pure ice cream. Little rocks and boulders, little chunks of slate, make the coal man's fortune something fierce and great. Little ads well written, and printed nice and neat, gives the joyful merchant a home on easy street.—Ex.

Refuse substitutes, and take only the genuine Foley's Honey and Tar in the yellow package. A. McMillen.

Anticipation.
 Lieutenant Shackleton tells how when in the antarctic wastes he and his companions sustained their spirits and their bodies as well when supplies had to be cut down to a minimum by dwelling upon the glorious eating they would have on returning to headquarters. The value of such mental sustenance has long been recognized by up to date commanders. There was the German officer in the war of 1870 who sustained the flagging spirits and weary legs of his men by shouting: "There is a brewery inside that town! Let us get there before anybody else!" History relates that the men did get there with remarkable speed. Equally shrewd was that Japanese commander in the Manchurian war who, seeing his men exhausted with thirst and knowing full well the wonderful properties of pickled plums, cried out: "Two miles from here there is a forest of plums." The anticipated plums went far to relieve their parched mouths.

What West Point Does For Its Cadets.
 What West Point does for its cadets is precisely this: It takes its youth at the critical period of growth; it isolates them completely for nearly four years from the vicious influences that corrupt young manhood and from the atmosphere of commercialism; it provides absorbing employment for both mental and physical activities; it surrounds them with exacting responsibilities, high standards and exalted traditions of honor and integrity, and it demands a rigid accountability for every moment of their time and for every voluntary action. It offers them the inducements of an honorable career and a sufficient competence as a reward of success, and it has imperative authority for the enforcement of its conditions and restraints.—Colonel Charles W. Larned in National Magazine.

DANGER IN DELAY.
 Kidney Diseases Are Too Dangerous For McCook People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills.
 Mrs. M. J. Wyatt, Minden, Nebr., says: "For eight years I suffered from acute attacks of backache, brought on by a disorder of my kidneys. My condition was such at times, that I was hardly able to stoop and to go up and down stairs was an action attended with much misery. If I exerted myself, a dull aching across my back would become so acute that I would be forced to lie down and rest. The secretions from my kidneys were also too frequent in action and annoyed me a great deal. I became tired and languid, was restless nights and arose in the morning all worn out. A few months ago I began taking Doan's Kidney Pills and found such prompt and gratifying results that I continued their use until completely cured."

Pleanty more proof like this from McCook people. Call at McConnell's drug store and ask what customers report.
