MARION.

Ray Rodabaugh and family from near Cedar Bluffs visited at E. E. Blake's Sunday.

A. C. Furman of Fort Collins, Colo., has purchased the Marion Citizen of J. H. Wicks recently. We welcome Mr. Furman in our midst and wish him success.

Powell & Nilsson shipped out 2 cars of sheep and one of cattle on Tuesday evening's stock train.

Rev. Orley Miller of Garnett, Kan., took Tuesday evening's train for his home, having visited his father and family, W. V. Miller since last Friday.

Powell & Nilsson began the excavation for a large alfalfa mill to be put up here as rapidly as possible.

Albert Kemp left here Monday evening for his claim near Brush, Colo., via McCook.

George Adams left here Tuesday to live with Guy Smith southeast of Danbury. Geo. contemplates going into the chicken business.

S. W. Rodabaugh of Logan, Kans. is visiting his son M. W. Rodabaugh and his daughter, Mrs. Alice Blake.

Howard Ruby the real estate hustler of Danbury was in town one day last mid-week on business.

Mrs. A. J. Green and daughter called on her parents northwest of town Sunday p. m.

W. H. Eifert fixed up the room over his hardware to be used as a lodge room which was badly needed.

We understand that the M. W. A. are talking of organizing a camp here in the near future.

Irene, Marie, Pearl and Winona Ruby of Danbury were in town between trains Saturday.

INFORMATION SOUGHT.

Miss Mabel Kimberling a girl of 18 years, disappeared from her home in Frontier county about 18 miles northwest of McCook, presumably in October of last year. Miss Kimberling is said to have come to McCook, but no trace has so far been found here or in this vicinity. Otto Webber of Bartley, Nebr. her grandfather, is most anxious to secure information of her whereabouts.

New Depot for Holdrege.

The railway commission has ordered the Burlington to build a new passenger depot at Holdrege, the building not to be a frame structure. The railroad company must submit plans for approval by April 10 and then the commission will set a date for the completion of the depot. Holdrege is the home of Railway Commissioner W. H. Cowgill.—Lincoln Journal.

TWO WEEKS TO MAKE SHOWING.

Two weeks' additional time has been granted the Herbert E. Gooch company to make its showing in United States court in resistance to the suit brought by the Chicago board of trade to enjoin its use of price quotations on grain options.—Lincoln Journal.

Lady friends to the number of twenty-two gave Grandma Strine a pleasant farewell apron and handkerchief shower on Tuesday. The ladies took with them lunch baskets well filled with dainty viands, and an elegant dinner was spread at noon. After school the young ladies of the public school paid their respects to grandma also and left a number of fine handkerchiefs as a token of remembrance. Grandma Strine left Friday to make her home with her daughter at McCook.—Strang (Neb.) Reporter.

The Burlington and Pennsylvania lines jointly, on October 1st, 1903, inaugurated for the Adams Express company what is said to be the longest, regular through express car service in the world. A through car will be carried daily in each direction between New York City and Denver, Colo., on the fast, exclusive mail and express trains of the two roads. The avoidance of transfer enroute and connections thus insured will mean much to impress shipping merchants in the vast territory served by these two great systems of railways.

Real Estate Filings.

The following real estate filings have been made in the county clerk's office:

United States, Hans I Peterson Pat. s2 sw 4-13-1-30.

Albert Styer et ux, Elwin J. Lurwig wd., 5850.00 se 4-25-1-29.

LORD'S DAY WEEK, APRIL 3-10, 1910.

For thirty-two years societies seeking to exalt the Lord's Day in Europe and America, have asked God's people to observe one week in April as Lord's Day Week.

Because we are in the greatest crisis of the history of the Sabbath in America, both in the United States and Canada, the International Federation of Sunday Rest Associations of America ask with increased emphasis that April 3 to 10 1910, be observed as Lord's Day Week. The liquor and other powers of evil, knowing that if "the Sabbath be destroyed Christianity will perish," are attacking this divine gift as never before.

Mrs. J. A. Bruce of McCook, who ran a nail in her foot about three weeks ago, is recovering from the injury. Her condition was very serious for a few days, on account of blood poisoning.—Bertrand Co. Holdrege Citizen.

"The women can do much. Would to God they could vote. How long would the saloons stay if they had the right of voting on this matter?"—John R. Anderson of Cambridge.

Miss Margaret Heagney of Geneva, visited McCook friends briefly on her way to her new home in Pine Bluffs, Wyoming.

E. W. Harris of Wray, Colorado, assumed charge and possession of the Indianola roller mills, Monday.

A few St. Patrick's Day post cards left and for sale at the Tribune office.

One Moment, Please! Who's the Town Buster?

The citizen who sneers at his own town.

The citizen who belittles local enterprises.

The citizen who scoffs at home improvements.

The citizen who buys his household goods by mail.

The citizen who gets his job printing done outside.

That man's THE TOWN BUSTER.

How often do you eat this food?

A short time ago there appeared in the columns of one of the prominent magazines an article on building brain and muscle by the proper selection of the foods you eat.

A good many people were surprised to find oatmeal placed at the top of the list of foods recommended; but if the article had appeared in an English or Scotch paper every reader would have expected to see first place given to good oatmeal.

As a matter of fact Great Britain and Europe come to us for tremendous quantities of Quaker Oats because it represents to them perfect food, being the richest in flavor and best in cleanliness and purity, of all oatmeals.

Americans should eat more Quaker Oats; the results would soon show themselves in improved conditions of health and strength.

Capt. Bogardus Again Hits the Bull's-Eye.

The world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots, is at present living at Lincoln, Illinois. Recently interviewed, he said: "I have suffered a long time with kidney and bladder trouble, and have used several well-known kidney medicines, which gave me no relief until I started taking Foley's Kidney Pills. Before taking Foley's Kidney Pills I was subjected to severe back ache and pains in my kidneys, with suppression and oftentimes cloudy voiding. While upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am not bothered with kidneys or bladder, and once more feel like my old self. All this I owe solely to Foley's Kidney Pills, and I always recommend them to my fellow sufferers."

COURT HOUSE NEWS.

Following licenses to marry have been issued since our last report:

William M. Rambeau (22) and Ruby F. Hanna (19), both of McCook. Married by the county judge, March 7th.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. No medicine can do more. A. McMillen.

Legal Blanks Here.

This office carries all kinds of legal blanks and makes special blanks to order promptly and accurately.

DOORS TOO SMALL FOR HATS

Expressmen Explain Why Rates Have Risen on Women's Headgear.

With an apprehensive group of man milliners looking on the other afternoon the express companies struck a telling blow at the mushroom hat industry. It happened at the interstate commerce commission inquiry into the rates for transporting millinery before Commissioner James S. Harlan at Chicago.

In the last two years the express companies have been putting up the rates on hats until they are nearly twice what they were in 1906. The hatmakers were before the commission to find out why. C. W. Stockton, who did most of the talking for the express companies, said:

"When we first began making rates on women's hats the hats were small, neat, compact affairs that looked like a pat of butter and were fastened to the wearer's head with a bit of string. We charged by the pound at that time. Since then the hats have been growing steadily in width, height, length and the fourth dimension, but they haven't grown an ounce in weight.

"Why, five years ago you could get from 500 to 3,000 women's hats into an ordinary express car. Now you have to take out the double doors to get one in.

"Another thing. These hat people have been coming to us demanding damages for dents which our expressmen make in these hats occasionally. Why, everybody knows that the more dents a hat has in it the better hat it is."

AEROPLANES IN MAIL SERVICE

Lecturer Advocates Their Use For Rural Free Delivery.

Aeroplanes for use in rural free delivery was the plan advocated the other night by Wilbur R. Kimball in a lecture on aeroplanics at the West Side Young Men's Christian association in New York city.

"There has been a remarkable development within the last few months in aeroplanics," said Mr. Kimball, "and today their practicability has been fully established. There is no reason now why the aeroplane should not be used in delivering mail in the rural free delivery system.

"The government has gone to great expense to establish our present rural free delivery, but it is subject to delays, especially in the winter months, because of the storms which make bad roads. With the aeroplane, however, the farmer's hard earned free delivery would be above poor roads. His mail would be dropped in front of his door in a little leather pouch from the aerial delivery wagon, which would then speed on to the next farmhouse to deliver its packet.

"Mail could also be collected by aeroplane mail wagons in the rural districts with an arrangement by which the aerial chauffeur could lower a hook and catch up packets of mail."

PARIS FLOOD JEST.

Warning of the Great Inundation Lightly Treated.

Paul W. Linebarger of Milwaukee, Wis., formerly a judge in the Philippines, who was in Paris when the recent flood began to show itself, returned to New York the other day. Mr. Linebarger noticed that the populace as a whole was inclined to make light of a warning from the hydrographic bureau to be prepared for an unusual flood. Parisians stood on the bridges over the Seine and made frivolous remarks about the bureau, some saying to each other, "Look out or you'll get your feet wet."

In the provinces the warning was heeded, and at one town Mr. Linebarger saw a dike built chiefly of coal to check an expected invasion of water.

New Comet's Speed.

Forty-one miles a second measures the speed at which Comet A 1910 is traveling from the earth, according to a telegram recently received at the Harvard college observatory in Cambridge, Mass., from the Lick observatory. The telegram states that Mr. Albrecht photographed the spectrum of the comet and found the sodium lines displaced, thus indicating the motion of the luminary.

So far as known the new comet cannot be identified with any other comet that has ever visited us, and it is likely that it is moving in a parabola, which is an open curve that does not return to itself. It is one of the tramp family of celestial wanderers and seems to have had no special discoverer, but was discovered by about everybody.

Signaling Military Balloons.

A device for signaling to military balloons at night has been fixed on the tower of the railway station at Spandau. It consists of a large horizontal wooden ring provided with thirty-eight big electric incandescent lamps. Such lighthouses with intermittent lights for aerial navigation are also to be erected at Nauen and Potsdam. Experiments have recently been made with the intermittent lights on the tower at Spandau.

Ridding Kansas of Coyotes.

The war on the coyotes in Kiowa county, Kan., is showing good results. The county commissioners were called on recently to vote \$73 to pay for as many scalps. It is known that more than thirty scalps were not turned in, which would swell the death rate to more than a hundred. A few years ago it was a common thing to see packs of a dozen coyotes, but now, owing to the bounty, they rarely are seen in packs.

WHAT WIRELESS AMATEURS CLAIM

Declare They Are the Only Real Experimenters.

MEAN TO DEFEND THEIR RIGHTS

Object to Bill For Federal Control of the Air—Say Their Small Instruments Can Send Messages Only a Short Distance—They Blame the Hired Operators.

Alarmed by a resolution introduced in congress on Dec. 17 last calling for the appointment of a board of experts to prepare a comprehensive system of regulations to govern the operation of all wireless plants, the amateur wireless operators are preparing to defend what they consider their rights. The editor of a publication devoted to the interests of the wireless amateur has received 6,000 letters from amateurs protesting against the restriction of wireless rights to government and commercial stations, which they fear will be the outcome of the resolution.

It is on the ground that the wireless has been largely perfected by amateurs that the latter base their claims to consideration. They say that they are the only ones actively interested in experimenting with new apparatus, because they can do so on a small and inexpensive scale.

Individuality in a Spark.

In fact, the amateurs twist the professional wireless men with being behind the times and declare that the much talked of interference with the work of the regulars by amateur senders is very largely a myth. They say that a really good wireless man finds individuality in a spark just as he would in a voice and that just as a man in a crowd where many are speaking can distinguish and understand the words spoken by the particular voice in which he is interested so a good wireless man can concentrate his attention upon the particular message which is meant for his ear. A good operator, say the amateurs, has no difficulty in "reading through" six messages.

Even if this were not so, say the defenders of amateur air line rights, the invention of the "loose couples" or "induction tuner" enables the operator to cut out from his receiver all but the particular message which he wishes to take. The amateurs suggest that the expense of installing really up to date apparatus in the commercial stations may have something to do with the attack.

There are estimated to be about 60,000 amateur wireless stations in the United States. New York has at least 1,000, and the number is growing rapidly. The value of these plants ranges from \$10 to what you please, and the business of supplying materials necessary for their construction is a considerable one, so that the amateurs are being marshaled for the fight by the interested dealers.

The "Air Nuisance."

One of these dealers said recently that he had begun the work of supplying wireless apparatus to amateurs in 1904 and that in a way he felt that he was largely responsible for what the regulars have termed the "air nuisance." This man said that to transmit a wireless message sixty miles requires a plant costing at least \$37 and that the majority of the amateurs were content with a \$10 plant, which, while capable of receiving messages sent within a radius of 200 miles, cannot transmit one more than one or two miles. The ability of the amateur to receive messages sent from long distances of course makes privacy for official messages impossible unless a code is used. The amateurs say, however, that there have been no complaints on this head. They say that a majority of the complaints, aside from those which they believe are inspired by commercial companies seeking a monopoly, come from inefficient commercial or government operators.

One amateur who says that he knows personally twenty-five such operators declares that "not four of the men were able to draw a diagram showing how their instruments were connected up." The amateur says that his professional brother isn't interested in the game and doesn't care to learn and as a cover to his inefficiency blames all his shortcomings on "the innocent amateur whose weak spark cannot, as a rule, be heard half a mile."

As a final plea to be allowed to exist the amateur associations say that the amateur wireless plant is a fine thing to keep boys at home and out of mischief.

Course in Poetry.

A course in writing poetry is to be established at the University of Missouri in Columbia, Mo. It will be under the direction of Dr. R. H. Miller of the English department. A prize of \$100 for the best poem has been offered for several years at the university, but no poem regarded as of sufficient merit to win the prize has been submitted by a student.

Vegetable Banquet.

As an expression of dissatisfaction with the prevailing high prices of meats the executive committee of the Vermont Hotel Men's association has voted to have a vegetable banquet at the annual dinner in Montpelier, Vt., on Feb. 18.

Avoid Cheap and Big Can Baking Powders.

The cheap baking powders have but one recommendation; they certainly give the purchaser plenty of powder for his money, but it's not all baking powder; the bulk is made up of cheap materials that have no leavening power. These powders are so carelessly made, from inferior materials, that they will not make light, wholesome food. Further, these cheap baking powders have a very small percentage of leavening gas; therefore it takes from two to three times as much of the powder to raise the cake or biscuit as it does of Calumet Baking Powder. Therefore, in the long run, the actual cost of the cheap powders is more than Calumet would be. Cheap baking powders leave the bread sometimes bleached and acid, sometimes yellow and alkaline and often unpalatable. They are never of uniform strength and quality.

Why not buy a perfectly wholesome baking powder like Calumet, that is at the same time moderate in price and one which can be relied upon? Calumet is always the same, keeps indefinitely, and gives the cook the least trouble.

CITY CHURCH ANNOUNCEMENTS.

CONGREGATIONAL—Preaching at 11 and 8 o'clock. Sunday-school at 10 a. m. Christian Endeavor 7 o'clock. Prayer meeting Wednesday evening at eight o'clock. The public is cordially invited to these services.

REV. R. T. BAYNE, Pastor.

EPISCOPAL—Preaching services at St. Alban's church at 11 a. m. and 7:30 p. m. Sunday-school at 10 a. m. Communion—1st Sundays 11 a. m., 3rd Sundays 7:45 a. m., each month. All are welcome to these services.

E. R. EARLE, Rector.

CATHOLIC—Order of services: Mass, 8:30 a. m. Mass and sermon, 10:30 a. m. Evening service at 8 o'clock. Sunday school, 2:30 p. m. Every Sunday.

WM. J. KIRWIN, O. M. I.

METHODIST—Sunday school at 10 a. m. Sermons by pastor at 11 and 8. Class at 12. Junior League at 3. Epworth League at 6:45. Prayer meeting, Wednesday night at 7:45.

BRYANT HOWE, Pastor.

BAPTIST—Sunday school at ten o'clock a. m. Preaching at 11 a. m., and 7:45 p. m. B. Y. P. U. 6:45 p. m. Prayer meeting and Bible study on Wednesday at 8 p. m. A most cordial invitation is extended to all to worship with us.

FRANCIS E. IAMS, Pastor.

EVANGELICAL LUTHERAN—Regular German preaching services in church, corner of E and 6th street east, every Sunday morning at 10:30. All Germans cordially invited.

REV. WM. BRUEGGEMAN, 607 5th st. East.

CHRISTIAN SCIENCE—219 Main Avenue—Services, Sunday at 11 a. m., and Wednesday at 8 p. m. Reading Room open all the time. Science literature on sale.

EVANGELICAL LUTHERAN CONGREGATIONAL—Sunday School at 9:30 a. m. Preaching at 10:30 a. m. and 7:30 p. m. by pastor. Junior C. E. at 1:30 p. m. Senior C. E. at 7:00 p. m. Prayer meetings every Wednesday and Saturday evenings at 7:30. All Germans cordially invited to these services.

REV. GUSTAV HENKELMANN, 505 3rd street West.

No Substitute.

Accept no substitute for Foley's Honey and Tar. It is the best and safest remedy for coughs, colds, throat and lung troubles. Contains no opiates, and no harmful drugs. Remember the name—Foley's Honey and Tar—and accept no substitute. A. McMillen.

Wonder of Mechanism.

A German shoemaker spent 15 years of his leisure moments in constructing a clock of the grandfather shape, nearly six feet high, made entirely of straw. The wheels, pointers, case and every detail are exclusively of straw. The most remarkable fact is that it is reported to keep perfect time, though the durability of this strange piece of mechanism is a matter of doubt.

Riches in Aspirations.

An aspiration is a joy forever, a possession as solid as a landed estate, a fortune which you can never exhaust and which gives year by year a revenue of pleasurable activity. To have many of these is to be spiritually rich.—Robert Louis Stevenson.

CHAMBERLAIN'S Cough Remedy

Cures Coughs, Colds, Croup, Grip and Whooping Cough.

We are pleased to inform our readers that Chamberlain's Cough Remedy does not contain narcotics of any kind. This makes it the safest and best for children.

It makes no difference when you caught that cold, you have it and want to get rid of it quickly. Take Chamberlain's Cough Remedy.

It won't do to fool with a bad cold. No one can tell what the end will be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from a neglected cold. As a cure for coughs and colds nothing can compare with Chamberlain's Cough Remedy, sold everywhere at 25c, 50c and \$1.00.

FOLEY'S KIDNEY PILLS
for children, safe, no opiates
