C. R. Woodworth, Druggist

R. F. D. No. 4.
C. F. Evans is threshing, this week.
J. W. Little is haying.
W. G. Dutton is irrigating.
Mr. and Mrs. Hudson of Lincoln visited and looked after their farm on the route, last week.
Mr. Silvers made a flying visit to Holdrege, last Saturday.
Harvest is about ended and threshing is under way.
E. H. Silvers lost his best cow in the case, recently. He says that the cane and dry weather stand to drive him back to that dear old Holdrege.
It was a mistake about the young man hoeing in the garden—he was only cutting weeds in the yard. More of them ought to take the hoe with them.

R. F. D. No. 3.
Harvest is about over and threshing has begun.
Miss Martha Nothnagel is staying at home now helping the folks stack. She says there is no place like home in the wheat fields.
Mr. and Mrs. Chas. Ebert were Sunday guests at the Nothnagel farm.
Walter Nothnagle killed two coyotes, last week.
C. H. Coulson is stacking wheat.
J. W. Randal is heading at Austin's, this week.
Don Thompson is stacking.
W. S. Fitch is finished threshing.
I. H. Wasson will begin threshing, last of this week, if it doesn't rain.

GRANT.
Everything dry and still no rain.
The farmers are nearly all through harvesting.
Born to Mr. and Mrs. Roy Albrecht, baby, July 17th.
John H. Wesch and brother started their new threshing machine, last Monday, and are now threshing for Fred Hauger.
Ed Casfield finished up heading for Charles A. Wesch, Monday.

Mr. and Mrs. C. L. Markwad of Westboro, Mo., are here on a visit of a few weeks with relatives in McCook and vicinity.
Joe Williams and Leo Ryan returned, Tuesday, from a visit of a few days in Denver.

Wilson Dress-hook

The only perfect fastening device for skirts, waists, collars, belts, children's garments, etc.

2 SIZES: LARGE AND SMALL
3 COLORS: GRAY, BLACK, WHITE

Price: 10c a Card

It hooks—does not snap or press together; cannot slip open accidentally, or pull out beyond the edge of the garment; is flat and flexible; easy to sew on and does not cut or wear the threads or work loose; cannot be injured in the laundry; will not rust, and is positively the only fastening device that can be ironed. Endorsed by dressmakers.

Try the Wilson Dress-hook, and see how superior it is to hooks and eyes, snaps, or any fastener now used.

BARTLEY.

Miss Grace Flint came home from Lincoln, Friday evening.
Mr. and Mrs. Ray Hindman of Danbury are visiting relatives here this week.
Mrs. Clarence McCord, who has been visiting here the past two weeks, returned to her home in Colorado, Tuesday night.
Joe Fern and family arrived here last Saturday from Louisville, Colo. Mr. Fern has been working in the mines for a good many years, but owing to failing health was compelled to leave that work and will now take up farming. Mr. Fern is a relative of the Burtens.

There are several threshing machines in this vicinity and all seem to be doing their best to save the grain for the farmers. The report on the yield of wheat is from five to ten bushels per acre and the test from forty-eight to fifty-seven pounds to the bushel. F. A. Hodgkin threshed a field of rye, Wednesday afternoon, and the quality of the berry was so fine, that some of the boys suggested that he sell it for alfalfa seed.

Perry A. Premer came home from Missouri, Tuesday morning, where he has been for a few days, looking up the land and agricultural conditions. He says he is well pleased with things in general.
If all the precincts in this county send delegates to the Republican County Convention like those from East Valley, North Valley and Alliance, there will be no danger of county option not getting there. The delegates from Bartley and East Valley were: J. E. Hathorn, U. G. Etherton, F. G. Stilgebouer, A. L. Cochran and S. W. Clark. North Valley: Wm. Wright. Alliance: Samuel Premer.
We are certainly to be congratulated that the delegates to the state convention from this county were instructed for county option and that it is to be hoped it will eventually become a law.
Quite a delegation of McCookites enjoyed a splash in the Indianola swimming pool, Wednesday evening, going down on 10 and returning on 5.

UPDIKE ELEVATORS ARE DESTROYED BY FIRE

Saved in Early Evening From Such a Fate to be Consumed in Early Morning.

LOSS ON BUILDING AND CONTENTS \$30,000.00

City and Company Departments Do Valiant Service—Congratulations are Due All Around that Loss Was Not Much Heavier.

The big Updike Grain and Coal Co. plant in this city became on early Tuesday morning but a mass of smouldering ruins. Fire finally did its perfect work, including both the old and the new elevators, office building, coal bins, engine house etc.

The first fire occurred at about six o'clock, Monday evening, the big new elevator being discovered afire just under the roof.

Both city and company fire departments responded to the alarms, and although there was considerable delay on the part of the city department in getting a stream of water on the burning building, within an hour the flames were confined to the extreme upper part of the elevator and supposedly extinguished, much to the relief of everybody.

But rejoicing was not to be permanent: At about 3:30 Tuesday morning fire whistles screeched out the alarming fact that fire had broken out anew in the big elevator and by the time the firemen had water on the flames it was only too evident that both elevators were doomed, such headway had the fire already made.

There were about 16,000 bushels of oats, about 7,000 bushels of corn, 2,000 bushels of wheat in the elevators, and about 300 tons of coal in the fine large new bins lately built for that trade. The grain is practically destroyed and the coal is for the most part badly damaged.

The loss on both elevators, the office building and the coal sheds, together with the contents of all, will aggregate \$30,000.00, upon which the company carried a blanket insurance which will doubtless reimburse them for the damage sustained.

A burst fire hydrant at the corner of B and east 3rd street impaired the pressure considerably, and burst hose also delayed getting water promptly onto the fire.

J. E. Molund had 400 sacks of cement stored in the east coal bin of Bullard yard, and this was damaged considerably entailing no little loss on Mr. Molund, which was not protected by insurance. The damage was from water.

The east coal bin of the Bullard yard was practically destroyed. As none of their coal was reached, their loss is small.

The hard, thorough and hearty work of the Burlington fire department is fully appreciated. The Tribune has no doubt, by all the citizens of McCook.

After the city fire department gets down to steady work they do as effective and as good work as any volunteer department. Monday evening, a set of circumstances retarded their progress very much. Twice their water line were too short, and bursting of hose, later on when direct pressure pumping was done in the main, delayed them. With these delays, however, they made good. Their weakness is the lack of thorough organization, which goes necessarily with the volunteer service, but harder and more willing workers to the last bit of endurance you can't find, either in volunteer or regularly paid departments.

Charlie Emerson and Ed Howell and their boys are always there with the wet goods in case of fire.

J. S. Miller of the company fire department was quite severely hurt about the head, by running against a quarantine rope in the darkness. He was thrown to the curb and received an ugly cut on the head and a black eye to boot.

It is greatly to be regretted a watch was not maintained over the elevator all night. About eleven o'clock, Mr. Garvey and others went carefully through the elevator and finding no evidence of fire, left the building and went home and retired for the night.

E. Stockham of the Updike Co. was in the city, yesterday. The company will rebuild at once, building one large elevator.

Of the wheat in the burned elevators 1,100 bushels had just been delivered from Charlie Evans' farm over south. It was extra fine, weighing 62 pounds to the bushel.

The damaged grain is being sold rapidly for feeding purposes.

INDIANOLA.
Wm. Short, pioneer liverman, sold his interests in the Star barn to John Harrison and returned to California, Friday morning.

A little girl was born to R. H. Taylor and wife, Saturday evening; mother and child doing well. Horace's friends hope he will pull through and make it right with the ten centers.

Mrs. Annie Sawyer and Mr. Chas. Suiter each lost a fine milk cow the past week by the cane route.

Mrs. Green of Danbury was over Saturday to meet her daughters who have been attending normal at McCook.

Mr. and Mrs. Harry LaBaron of Kona, Kansas, were Sunday visitors at the home of E. E. Thompson.

Mr. Ami Teel returned from New Mexico, Wednesday.

While driving home, Tuesday, Henry Crampton's team ran down a bank, tipping the wagon, which was loaded with coal, over on him, breaking his neck. The little boy who was with him was not injured. The funeral was held Sunday and he was laid to rest in Mt. Zion cemetery by the side of his wife who passed away only seven weeks ago. He leaves three children, two boys and one girl.

The camp meeting closed, Sunday night, and have gone to Stockville to hold services.
Mr. Crampton of Pawnee City who was up to attend the funeral of his brother Henry returned home, Monday night.
