to make the children look nice just for a day. Why not preserve the memory of their prittiness by means of our

Photographs.

Our pictures, either of individuals or groups, are so excellent that they rival the steel engraving in softness and far excel in faithful portraiture the work of the skilful artist.

The Primary Election.

The primary election will occur on next Tuesday, August 16. The ballots for the election were distributed by County Clerk Skalla, this week. This primary is one of importance, and Republicans should make it a special point to be out in full force. The necessity of a large Republican vote at the primary, next Tuesday, cannot be too urgently noted.

A discharged employe named Jas. J. Gallagher attempted to assassinate Mayor Gaynor of New York City, Tuesday. The mayor's condition is still precarious.

An Uncommon Situation.

In the case of Laura Hughes, whose house of ill-fame was raided by the officers, some weeks ago, and ninety-eight quart bottles of Blue Ribbon beer was seized and brought before County Judge J. C. Moore and by his order destroyed, the defendant Laura Hughes was bound over to the district court and in default of bail was placed in jail. The mittimus issued by the county judge to Sheriff Higgins required him to keep the defendant in jail until discharged by due course of law.

For failure of the sheriff to carry out this order of the court, Judge Moore on the 4th inst. made application to have an action brought immediately in the district court against Sheriff Higgins and the sureties on his bond. The judge's application, in part, says: "And whereas, thereafter, to-wit, on the afternoon of said 7th day of July, 1910, said L. M. Higgins, sheriff as aforesaid, unlawfully permitted said defendant to leave said county jail contrary to the order of the court, to return to her home in said city without order or permission of any court and without giving bail in any sum for her appearance before the district court, and she is still absent from said county jail; and said sheriff having been by me strictly charged and ordered to return said defendant into said jail, which charge and order he has deliberately disobeyed."

FINE VARIETIES OF TOILET and MEDICAL SOAPS.

A good drug store is the place to procure toilet soaps, and the better the store is the better the soaps are apt to be, because the principle of quality extends throughout the stock. The people of McCook and vicinity will find at McConnell's drug store a rare array of the best toilet soaps. Not only toilet soaps but all the special varieties required for complexion, medicinal and surgical uses. He has the right soap for any purpose. **L. W. McCONNELL, Druggist.**

McCook at Denver.

It is expected that upwards of five thousand railroad employes will march in the big railroad day parade in Denver on August 20th. Alliance and Sterling are both arranging to send good sized delegations to Denver to take part in the celebration and as the famous McCook band is going with the party from this point there is no doubt but that McCook will have one of the largest outside companies in the parade.

The Burlington officials have announced that all employes who wish to go will be granted free transportation and also that very low rates will be in effect for the benefit of the general public.

After the street parade in the morning the crowd will adjourn to Lakeside, the big amusement park, where a basket picnic will be enjoyed. A program of field sports, including a base ball game and tug of war, has been arranged for the afternoon, and in the evening Mr. Morrissey, formerly head of the Brotherhood of Railway Trainmen, will deliver an address in the theatre at Lakeside, together with Hon. John F. Shafroth, governor of Colorado, and Mayor Speer of Denver.

From the amount of interest displayed by both the officials and men of the different railroads running into Denver and from the fact that all shops, general offices, and freight houses will be closed on that day, Railroad Day promises to be the greatest gathering of railroad men ever held in the entire west.

SITUATION IMPROVING.

Scarlet Fever Is Being Gradually Stamped Out by the Authorities.

The board of health, at a called meeting, this week, found the scarlet fever situation so greatly improved that they decided to release the restrictions heretofore imposed on public meetings and to permit churches and public places to be opened as fast as they are thoroughly fumigated.

The churches and other public places are responding to the action of the authorities and are being fumigated. The churches expect to be open next Sunday as usual.

The authorities have thought it best, however, to retain the restriction requiring children under the age of fifteen years to remain off the street and to remain on their home premises. This action is taken with special reference to the fact that the public schools should open in a few weeks and it is considered the part of wisdom to take every precaution so far as the children are concerned.

It is hoped that this restriction can be released in the near future.

Won Husband; Lost Diploma?

Miss Nell Andrews of Lebanon, who attended school in McCook, a few years since, and who was to have received a diploma with honor from St. Luke's hospital, Denver, after serving a three-years' course as a nurse, is due to have trouble in getting her shipskin, after having been graduated and standing among the first three or four in her class.

Miss Andrews fractured a rule of the hospital, about two months since, by becoming Mrs. Charles E. Morse, wife of the Denver field agent of the Travelers Aid Insurance Co. The hospital is now withholding the diploma on the ground that Miss Nell agreed not to assume "home responsibilities" during her three years' probation as a student to be a trained nurse.

Mrs. Morse has invoked the law to secure the coveted sheep-skin and The Tribune and her numerous friends in McCook and Red Willow county will wish her success.

Improving The Pastime.

Mr. Harmon has been utilizing the "closed season" in making improvements at the Pastime. The interior has been redecorated. Advertising panels on the walls alternating with scenes of various sorts, all of them attractive and tasteful in conception and executed by Mike Hogan with an artistic brush. An additional electric fan has been installed, this time on the ceiling; so the improvements contemplate both increased comfort and appearance.

The Pastime will open tomorrow (Friday) evening in one of their best programs, and The Tribune promises all who go not only a moving picture treat, but a surprise—the redecorated Pastime looks like an art gallery. They will have the usual Saturday matinee and evening program.
