LONDON BANK CLERKS.

Their Dress and Mode of Living a Century Ago.

A hundred years ago the number of bank clerks in London must have been inconsiderable. The old banks needed only small staffs. Quite late in the eighteenth century one of the biggest conducted its business with two clerks The engagement of a third created great excitement. His arrival was still more exciting, for we are assured that "he wore a long flapped coat with large pockets; the sleeves had broad cuffs, with three large buttons, somewhat like the coats worn by Greenwich pensioners; an embroidered waistcoat reaching nearly down to his knees, with an enormous bouquet in the buttonhole; a cocked hat, powdered hair, with pigtail and bagwig, and gold headed cane." This, no doubt, was something of a peacock, even fot his time. A few years later, in the early part of the nineteenth century. the correct official garb was knee breeches, silk stockings, shoes with silver buckles and often a white tie. One can scarcely imagine a dress more

suggestive of sober opulence. But it does not seem that, according to our ideas, the manner of life was

quite in harmony with this impressive appearance. Not for the bank clerk of the early eighteen hundreds the immaculately clean and elaborately fitted restaurants of the modern city! Not for him tea shops with varieties of harmless drinks and tempting light food! If he wanted a meal he went to the butcher and bought himself a chop or steak for fivepence halfpenny of sixpence. This he carried himself to The Disaster Most Dreaded by the Loan adjacent public house, where they cooked it for a penny. The public

RARE WILD BEASTS.

The Kadiak Bear and the Tufted Ear Rhinoceros.

There are a number of beasts speci mens of which are ardently desired not only by the zoological gardens of the world, but by the professional menageries as well. Among these may be mentioned the Kadiak bear, an extremely rare animal and one calculated to make a Rocky mountain grizzly appear insignificant. South America contains a prize in

tremendous size and coal black.

Big Live Stock Shipments.

Agent W. C. Hanson of the Burlington railroad at this point reports that shipments of live stock from Benkelman have increased considerably over those of last year, the railroad fiscal year ending with June 30 of each year. Since July 1, 1909, there were shipped from Benkelman 93 cars of cattle, valued at \$140,000; there were 74 cars of hogs sent out, averaging \$110,000, and of horses and mules there were 15 cars, at on estimate value of live stock
