A Satisfactory Cleaner.

How would you like to do all the housework in half the time and with half the effort? You can do it, and in a way that is much better and more generally satisfactory. An easy way that gets right down and takes the dirt off better than the ordinary way. Old Dutch Cleanser is the modern cleanser. Try it and see. It cleans quickly, scrubs thoroughly, scours and polishes brightly. Use it in all your cleaning for woodwork, all kinds of floors and painted walls, cutlery and glassware, and throughout the house. Contains neither caustics, acids, alkali nor grit and its uses are unlimited.

Bread in Politics.

From the days of Joseph down the only well populated country which had enough grain to satisfy its own consumers was Egypt, rich beyond the record of any other soil this side of Paradise. Ferrero, in his history of Rome, shows the transcendent political importance of corn in all times. Feed your people, king or demagogue, else they will overthrow you. For the masses from furthest antiquity to most recent days, there has never been any torch of dissatisfaction, rebellion and anarchy like a shortage of bread.

Bamboo.

It is possible that the world's future supply of paper pulp will be derived from the bamboo forests of the tropics instead of being drawn from the forests of the temperate zones. Successful experiments have been made in Japan pointing in that direction. A company has obtained a perpetual lease of 8,000 acres of bamboo forest in Formosa, enough to provide 600 tons a month.

Mrs. Jacob Wilmert, Lincoln, Ill., found her way back to perfect health. She writes: "I suffered with kidney trouble and backache and my appetite was very poor at times. A few weeks ago I got Foley's Kidney Pills and gave them a fair trial. They gave me great relief, so continued till now I am again in perfect health. A. McMillen."

Carlism And Progress In Spain

THE straightest tip about the Carlism of Spain is that they never can "come back." They have been trying it for seventy-five years, but with a Jeffries finish all the time. The present representative of the Carlism is Don Jaime, and he is trying to take advantage of the disagreement between the king and the Vatican to manufacture a little side-revolution in favor of himself. Don Jaime is too nice and proper a pretender ever to overturn a dynasty. He never gets further than pronouncements.

It was even so with his ancestors. One of them did manage to pull off some kind of an inconsequential revolution, but it never got anywhere. That was the first Don Carlos. Since then the pretenders have been pretenders and nothing more. Even when Spain declared herself a republic for a year and a day the Carlism were entirely inefficient and let the regular reigning house return to power when the republican dream was over. From all indications it will be the same in the present instance. Don Jaime will write letters to his followers—nice, ladylike letters they will be—but Alfonso XIII. will continue to be the royal voice around old Madrid.

The present situation in Spain has several points of interest for Americans aside from the fact that it is a step in the direction of the separation of church and state. One is that General Weyler, of Spanish reconquero fame, has figured in it to some extent as a preserver of order. Another is that Cardinal Merry del Val, the man who was charged with having handled the Vatican end of the Roosevelt incident, is also charged by the Spanish

DON JAIME, THE PRETENDER, AND KING ALFONSO.

government with having been the man responsible for the break between the holy see and Spain. The third is that King Alfonso's progressiveness, fearlessness and democratic attitude have rather appealed to Americans, and they are taking notice on his account. Then, too, we have felt a sort of magnanimous and friendly concern in all things done by Spain ever since the Spanish-American war.

One of the reasons for the new attitude in the land of the dons is the growth of the labor movement. This cause has worked a change in every European country, and while it has not so profoundly affected Spain as it has France, Germany and some of the smaller nations, its influence there has been distinctly felt. Moreover, the spirit of modernism, the same spirit that has been felt in Russia and even in Turkey, is present in Spain. The movement for separation of church and state, which won out in Germanic and Anglo-Saxon nations centuries ago, is now sweeping through the Latin countries. Italy led the way. France recently followed, and now Spain is falling in line. This is the real meaning of the present Spanish upheaval.

On the crest of this progressive wave Don Jaime flashes as a piece of wreckage. He is a recrudescence, an anachronism, a relic of the past, a royal pretender. He has about as much chance to regain the throne of his ancestors as the various French pretenders have to re-establish monarchy in France. Many things have been at work in Europe during the past few decades, things that have transformed the thought of the nations. Democracy, liberalism, modernism, socialism, the labor cause and a general wave of enlightenment have touched every land and have made at least the beginnings of a new order.

Nevertheless if a revolution were to break out in Spain Don Jaime might become an incident in the struggle, provided he has enough real stamina to project himself into the situation at all. There are many Carlism in Spain, and it is altogether possible that the reactionaries of all shades might be rallied under his banner. In the Basque provinces he is strong, but the Basque provinces are poverty stricken and thinly peopled.

ROYAL ACCOUNTS.

Methods of the King of England in Transacting Business.

No advertisement is more valuable to a British tradesman than the royal warrant, which allows him to place the royal arms over his place of business and describe himself as "purveyor by appointment to his majesty the king."

Each tradesman who has the royal custom must send in his bill at the end of the month. It is compared with his ledger account kept at Marlborough House and if correct is paid in the first week of the month. No discount is asked on any of the royal accounts. A tradesman who receives the royal custom is informed that he must supply goods at the lowest reasonable prices, and there is never any attempt at bargaining by the official of the royal household. If a tradesman is thought to be making extortionate charges he simply loses the royal custom.

House is supplied to Marlborough House by contract, the contracts being made for three years and the contractors paid in equal half yearly payments. Window cleaning, carpet cleaning and chimney sweeping are all done by contract, and the glass frames of large pictures are also kept clean by contract.

Servants' wages are paid monthly, the upper servants being paid by check sent to each from the treasurer's department. The king's accounts for clothes, cigars, theaters, newspapers, books and other personal articles are sent to his secretary, not the treasurer, and are also paid monthly.—Toronto Times.

CORE OF THE EARTH.

One of the Enigmas of Nature That Science Cannot Solve.

Human beings know only a mere skin of the surface of the earth, not more than thirty miles deep, while the globe is 8,000 miles in diameter. There is probably no oxygen at all below thirty miles, and it is difficult to guess what are the elements within. Probably the heaviest elements form a dense core near the center.

It is in some respects astonishing, most alarming, that we are so completely devoid of any direct knowledge of the constituents of the vast mass of globe beneath us and really only know the merest film. A skin or membrane one-twentieth of an inch in thickness (the thickness of kid or brown paper) spread over a ball a little more than a foot in diameter represents the proportion between the known crust of the earth thirty miles thick and the great globe itself.

We are dependent on inference and speculation for our notions as to the constitution of all that is beneath the mere skin of thirty miles thickness on the globe's surface! Even what is thrown up by the biggest volcanoes does not come from below this depth or tell us what lies hidden there.—Exchange.

Helter Skelter.

"Helter skelter" has been suggestively defined as a jingling expression vaguely imitating the hurried clatter of feet rapidly and irregularly moved. Most dictionaries, however, led astray probably by the ordinary orthography, have missed the true etymology of this phrase. It should be "helter kelter." "Helter" is an old word for "hang," probably connected with halter, and "kelter" is used by old writers in the sense of "order" or the proper state. Thus Barrow, the divine, says, "If the organs of prayer be out of kelter how can we pray?" "Helter kelter," therefore, is literally "hang order" and means, "Oh, hang order; let us do it, or let it take its chance." Ben Jonson in "Every Man In His Humor" writes, "Helter skelter, hang sorrow, care'll kill a cat," and Shakespeare, using it to express rush and hurry, says, "Helter skelter have I rode to thee."

Horseradish as a Vegetable.

In Germany horseradish is frequently made into an excellent cooked vegetable which goes particularly well with boiled mutton or chicken fricassee. It is made as follows: Grate as usual and stew till tender in butter; mix well with grated Parker House rolls, one cupful of the latter to three of the horseradish, and boil up once more, adding a heaping teaspoonful of sugar. Served with very firmly jellied currant jelly, scooped out with a teaspoon and laid in solid little ovals like a wreath round the white mound of horseradish, this delectable dish looks almost as good as it tastes.—Suburbanite.

The Attraction.

Tourist—I must confess that I can't see why so many people want to come here—no scenery, no amusements, no good things to eat, absolutely no attractions. Innkeeper—Ah, signor, zey come because we 'ave ze gr-ran' label to stek on ze luggage.—Mexican Herald.

Civilization.

The upward sweep of civilization is not unlike the rising of the incoming tide. It advances and recedes, but each advance carries humanity to a higher altitude than it had reached before.—B. O. Flower.

"Ha-ha-ha!"
"Well, what are you laughing at? Ain't it a good joke?"—Toledo Blade.
