Its display includes a case of miscellaneous articles bearing finger prints. Among those shown which have led to the detection of notable criminals is a cash box with a blurred thumb impression found in the bedroom of a man and his wife who were murdered a few years ago in London. This print led to the iden-

"It Beats All"

This is quoted from a letter of M. Stockwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for exposition there, Scotland Yard being the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first doses gave great relief and one bottle completely cured me." Contains no opiates. A. McMillen, Druggist,
