**"The Wizard of Wiseland."**

"The Wizard of Wiseland" is the new musical comedy extravaganza that has been playing to crowded houses in Chicago for one hundred and thirty-eight performances, and meeting with enthusiastic approval. The cast is composed of the very cleverest comedians and comediennees on the stage, ably supported by a well trained chorus. One of the best animal actors in the world impersonates a huge lion. The music is new and the songs are the best and latest and are staged with great care under the personal supervision of the well known producer Allen K. Foster. Handsome scenery and effects help to make "The Wizard of Wiseland" the most popular musical show on the road today. Managers McConnell & Pennell have secured this attraction for the evening of Oct. 15, at the Temple theatre.

**Three Hundred Nights.**

Coming with a record run of 300 nights in Whitney opera house in Chicago, William Norris' "My Cinderella Girl," which will be seen at the Temple theatre on Tuesday, Oct. 18, should prove a rare treat to the people of McCook. It is one of those sprightly and brisk shows that move with great swiftness from curtain to curtain, and it is a perfect tonic in its effect upon an audience. In Chicago, it proved to be one of the funniest farces ever seen, and the audiences were convulsed with laughter from beginning to end. The song numbers, which are numerous were staged by Gus Sohlke, who also selected and trained the chorus. The piece was staged by William Norris.

**Her Boy's Book.**

A certain woman is going to keep a diary of the clever things said and done by her boy. She expects to buy a large book and jot down all the interesting events in the child's life, keep it a secret, and give it to him when he is of age. The mother is of literary turn of mind, and this book, if ever completed, will be valuable to the owner, as many pleasant little childhood incidents occur that one forgets.

**Bricks from Anthills.**

Excellent bricks are made of the soil of anthills in central Africa. The natives tread it with water into a doughlike substance, which is shaped in rough wooden molds. It is then dried in the sun, and afterward baked in native kilns.

**Where Silence is Golden.**

"You are an American, and yet you don't believe in free speech. How's that?" "I'm in the state department."

News.

**IF SO, WHERE?**

There is a problem which impels me oftentimes to stop and watch the lobby in hotels, the bar, the barber shop—All places where the guests abound—Yet still I ask, enraged, Is anybody ever found When he Is Paged?

You calmly sit consuming beer Or dallying with cheese. A buttons hollers in your ear, "Misterrrrr Gazzookus, please!" In vain! The latter's hidden, drowned. Or otherwise engaged. Is anybody ever found When he Is Paged?

The bellboys come, the bellboys go. Their hope undying seems. "Misterrrrr McHaggis, Dr. Doe!" (Poor lads! Respect their dreams!) Through heartless space their voices sound Till they grow worn and aged. Is anybody ever found When he Is Paged? —Puck.

**WOMEN'S RISE O. K., SAYS KAISER, BARRING POLITICS.**

**Suffrage Indication of Country's Hopeless Decadence His Belief.**

The kaiser recently seized an opportunity of ventilating his views on the feminist movement, and the substance of his utterance has been made public, presumably with his permission. The kaiser used to be credited with limiting woman's sphere to three departments—church, children and kitchen—but if that was ever true he seems to have changed his opinions, for it is said that he views with profound sympathy the general movement proceeding in all the civilized countries of the world for the amelioration of the position of women, including higher education.

He believes in technical education for women and the invasion of different businesses and professions by women, holding that in the present numerical proportion of the sexes this is inevitable and could not be denied to women without grave injustice to them.

Consequently women lawyers, women doctors, women dentists and women in many other branches of activity may count on the kaiser's approval. In brief, the kaiser is a supporter of every phase of the new woman movement, with the single exception of its political aspect. He is a resolute opponent of woman suffrage. He abhors the idea of women in political life.

The introduction of woman suffrage in any country appears to him to be an unmistakable sign of hopeless decadence and decay. Women in politics would, he thinks, be the beginning of the end of any country.

**WOMEN SEEK BIG FEET.**

**Healthful and Beautiful, Assert Munich Aristocrats.**

Big feet in a woman may be beautiful, but most people need to be educated up to appreciating them. It is therefore being leveled at a society formed by some aristocratic ladies of Munich which has for its object the cultivation of big feet.

The society will preach the gospel that big feet in a woman are not only healthful, but beautiful.

The founder of the society is the Austrian Baroness Mohn. She declares that she made this important discovery about feet while touring in the Bavarian highlands, and she was led to start the reform movement as the result of witnessing the efforts of many women to climb mountains in lace dresses and French shoes with high heels.

Despite the sneers of newspapers the society has several hundred members. These have pledged themselves to appear everywhere, even at court functions and dances, in the biggest possible shoes, with sturdy heels, and they further undertake to bring up their children on the same principles.

**TAXES NEVER ARE COLLECTED**

**Irish Islanders Fight Off Officers In Annual Battle.**

The Irish peasants dwelling on the bleak islands of Aran and Valentia, off the stormy coast of Galway, absolutely decline to pay taxes. The Galway tax collectors each year storm the islands and endeavor to compel the peasants to pay their taxes. A battle always ensues, and the collectors are driven back to the mainland.

The Islanders call the collectors "black soldiers," and their annual battle with them is looked forward to with as much interest as the peasants elsewhere look forward to the annual county fair day.

This year the Galway county council had difficulty in finding men who would tackle the job of collecting taxes from the islanders, but finally one of the clerks undertook the contract. He has not yet had the courage to proceed to the island battlefields with his assistants.

**Telephones Need Precious Metals.**

Few persons realize what an enormous amount of the precious metals and even precious stones, such as diamonds, are used in the manufacture of telephone apparatus. In a single year one company uses upward of a ton of platinum for this class of apparatus alone. And platinum costs 30 per cent more than pure gold.

**Bread in Politics.**

From the days of Joseph down the only well populated country which had enough grain to satisfy its own consumers was Egypt, rich beyond the record of any other soil this side of Paradise. Ferrero, in his history of Rome, shows the transcendent political importance of corn in all times. Feed your people, king or demagogue, else they will overthrow you. For the masses from furthest antiquity to most recent days, there has never been any torch of dissatisfaction, rebellion and anarchy like a shortage of bread.
