Do You Understand the Proposed Constitutional Amendment Relating to Suffrage?

Its adoption means that, hereafter, men coming to our shores from other lands, must reside in this country five years and become citizens of the United States, before they can vote in Nebraska.

Those who have already become voters after a residence of six months in Nebraska, must take out their second papers at the end of five years or cease to be voters.

To the Voters of the County.

It has been published that I filed or the nomination of county commissioner for the benefit of some person or clique, which was not made clear n the article just who or what, and that I was a grafter, and would be if elected. My past public and private life has been open and above board and at my age it is too late to start in any other way. I thinktoo much of the opinion of my friends and neighbors to be otherwise. filed in good faith and will always do the square thing with everyone either in business or politics and if I am elected as county commissioner, my every action will be honest and fair and to the best interests of the people of the county and will always invite the strictest investigation of these actions. I have no ax to grind and my only aim is that the best, cleanest and most honest administration be given to the public regardless of party and I invite an investigation of my past history as my best argument for your support at this election.

Yours respectfully.
