Public Schools Reopen.

The McCook public schools resumed work in all departments last Monday morning after a holiday vacation of two full weeks. On account of the extremely cold weather there was about three-fourths attendance the first two days of the week. One room in the West and one room in the East had to be dismissed in the morning for two days on account of the cold. With the exception of one small pipe, all of the three heating plants were in perfect working condition. During the vacation the high school building was disinfected according to the rules and regulations of the local Board of Health, in addition to this every school seat, every desk and all floors of all buildings were thoroughly scrubbed with a solution of carbolic acid. All toilet rooms were thoroughly disinfected, all door knobs and edges of doors as children are placed were washed with the carbolic acid solution. These measures were taken to insure the sanitary condition of the buildings for the pupils when they came back after vacation. The school authorities are making every possible effort to cooperate with the City Board of Health in all sanitary and health regulations. A number of the teachers came in on the late train Sunday night, which was five hours behind time. It is useless to say that there were some sleepy teachers the next day, as the loss of sleep and the exposure to the weather had been a severe test on the comfort and strength of the teachers.

The second semester of school will begin January 23rd. Parents of new beginners are requested to enter their children during the first two weeks of the second semester, so that all beginning children ought to be in school not later than February 3rd. Classes in all the preparatory departments will be crowded and it will be impossible for the teachers to take in the little people and do them justice unless they enter together at the first of the semester.

The new "High School Megaphone" was issued the first of the week. Have you seen a copy yet? This first issue of the paper is a credit to the board of editors, the school and the city of McCook. It is to be hoped that succeeding issues will prove as deserving as the first.

Examinations in the public schools will take place during the week of January 16-20. Parents and patrons are requested to do every thing convenient and possible to see that their pupils are present at school during examination week. This help will be beneficial and very much appreciated by the teachers.

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effective for colds, croup and whooping cough and that it contains no harmful drug. For sale by all druggists.

NORTH OF MCCOOK.

No hot winds yet for 1911. The box supper in Dist. 64 was a success socially and financially. The proceeds being \$20.80. The teacher, Miss Maggie Doyle, had the highest priced box.

Rudolph Reinheimer, Ed. Augusta, and Bertha Droll attended the masquerade at Culbertson New Year's eve.

Mr. A. Strawder and family entertained their cousin, Mrs. L. B. Lambert, of Beaver City, New Year's day. Miss Pearl Strawder visited her cousin, Mrs. Oberg, near Perry.

Mr. Frank Hammel of Curtis, spent the holidays with home folks.

Mrs. N. E. Hall and family entertained a few of the neighbors with an oyster supper Friday evening.

Real Estate Filings.

The following real estate filings have been made in the county clerk's office since our last report:

County Treasurer to B. B. Duckworth tax deed to 10 in 19, Indianola.

County Treasurer to Ida Shipley Metzger tax deed to 7 in 12, 6 in 13, west McCook.

Mike Dudzniski to S. R. Smith, bill of sale, harness and shoemaking tools 283 00

Typewriter papers, typewriter ribbons, carbon papers, manifold paper, mimeograph paper—a large selection to choose from—at The Tribune office.

"Received on Account," "Paid Out," "Cash," "Credit" slips, etc. for sale at The Tribune office. Per 1,000, 50c.

Something special? The Weekly Inter Ocean and Farmer and this paper for \$1.25 for one year. Ask us what it means.

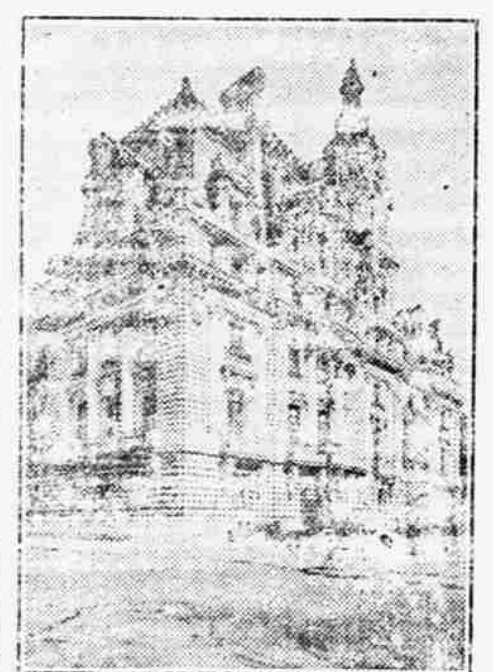

The Tribune, \$1.00 a year.

CLARK PALACE IS FINISHED.

Pepper King's \$7,000,000 Home Soon to Be Occupied.

Former Senator William A. Clark of Montana is about to move his family into his wondrous palace of stone, marble and bronze on Fifth avenue, New York, said to be the costliest American home ever built. It has been under construction for nearly eight years and represents an outlay of \$7,000,000. It is on the New York tax books at a valuation of \$3,500,000, and the annual taxes will be \$60,000 a year, or more than \$120 a day.

Thomas W. Lawson of Boston once referred to this house, which contains 121 rooms, as the "biggest, bulkiest and brassiest of all American castles."

W. A. CLARK'S \$7,000,000 PALACE.

In one way it represents the source of its owner's wealth in that it carries more copper and bronze than any building in the world, according to experts. Bronze is the material of which the grand staircase is composed, and the same can be said of the massive entrance doors, which are cast solid.

There are thirty-one bathrooms in this stupendous pile, one of the largest pictures galleries in the world, installed at a cost of \$200,000; pictures to the value of \$2,000,000 and rugs worth \$500,000.

Among the sculptors who did the bronze work for the millionaire were Augustus Saint Gaudens, Paul Bartlett, D. C. French, George Gray Barlow, J. Q. A. Ward, R. Hinton Perry and Alice Cooper.

A magnificent library adjoins Mr. Clark's bedroom and was taken bodily from a French chateau. The ceiling and woodwork are of carved mahogany, and the carver's signature bears the date 1533. Mrs. Clark's suit, which overlooks Central park and was designed by her husband, is on an elaborate scale, embracing satinwood from Ceylon, birdseye maple, mahogany and Circassian walnut.

DR. COOK AGAIN IN AMERICA.

Doubtful Discoverer of North Pole Has Merry Reception.

Dr. Frederick A. Cook, first claimant for the honors of discovering the north pole and now admittedly in doubt as to his having achieved that goal, is again in America. The doctor arrived on the steamship George Washington, which coincidence aroused great mirth among the American newspapers.

His desire, as he stated, was to learn what the people of his country thought

DR. FREDERICK A. COOK.

of him. He was successful beyond his wildest dreams before he had left the steamer, although it was then docked in the Hudson river, for his fellow passengers, though calm throughout the voyage, became entranced in an acrimonious debate in endeavoring to tell the reporters exactly how the arctic explorer was regarded on voyage. As the sides were about even it is still in doubt—like the finding of the pole—whether Dr. Cook was generally shunned or welcomed as a companion by the smoking room

John D. Plans to Teach Commerce At Pet College

JOHN D. ROCKEFELLER by his Christmas gift of \$10,000,000 to his favorite benefaction, the University of Chicago made his total donations to that institution \$34,426,049 and placed it first in the list of America's richest colleges. Chicagoans having added contributions of \$7,154,709. The ranking order is now as follows:

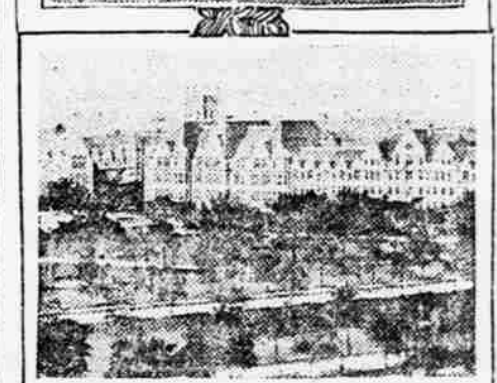

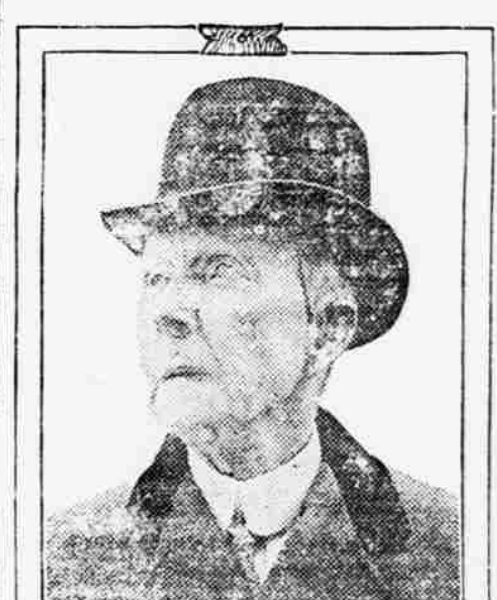

University of Chicago.....	\$15,000,758
Columbia university.....	\$14,143,372
Harvard university.....	\$13,821,246
Leland Stanford, Jr., university.....	\$13,355,437
United States Military academy, West Point.....	\$12,500,000
University of Pennsylvania.....	\$10,150,000
Yale university.....	\$10,041,850

*Endowment funds only.

The "kerosene college," as the University of Chicago has been dubbed by facetious critics, has gone forward along original lines of research and accomplished much in the fields of science. Now it is likely that it will invade the world of business as a teaching force.

It is probable that a portion of the \$10 Rockefeller gift will be used in carrying out plans for a college of commerce and administration, long contemplated by the late President William Rainey Harper and his successor, Harry Pratt Judson.

It is intended that this commercial school shall be on more advanced lines

J. D. ROCKEFELLER, FOUNDER; HIS FAVORITE BENEFACTION, THE UNIVERSITY OF CHICAGO, AND ITS PRESIDENT, HARRY PRATT JUDSON.

than ever before attempted, and the co-operation of several of the large banking, transportation and other commercial interests of Chicago has already been promised. Laboratory work will embrace instruction and practice in large commercial institutions, such as big banks, and so on.

The departments of the college already existing in embryonic form will include the following:

BANKING.—In addition to laboratory work in banking institutions, the executives of the large railway systems and it is believed that little will be needed to make the department a strong one in banking, the financial and tariff history of the United States, commercial cases and commercial law.

TRANSPORTATION.—Some co-operation already has been secured with the executives of the large railway systems and it is believed that little will be needed to make the department a strong one in railway administration.

TRADE AND INDUSTRY.—This course will be more general in the classroom subject matter, and it is probable that considerable latitude will be given the student as to the sort of laboratory work, Economics of workingmen and taxation as well as some of the courses given in the departments of transportation and banking will be offered.

JOURNALISM.—A daily newspaper containing university, city and telegraph news will be issued to furnish the laboratory work. Courses in history, political science, sociology and English will be required.

CONSULAR AND COMMERCIAL SERVICE.—A three year course with a prerequisite of two years' work in other departments of the college will be offered. History, political economy, political science and the modern languages will be offered.

The college will also have departments of insurance and accounting, the plans for which have not been fully formulated, but it is asserted by the faculty that the course of commerce will be radically different from and more thorough than anything of the sort attempted to date.

HEMMED IN BY LIONS.

A Bad Case of Stage Fright and a Record Stunt in Singing.

Stage fright of the sort that afflicted Whit Cunliffe, at one time a prominent singer in English music halls, is not avoidable. Fortunately also it is not common. A place where he was engaged in Birmingham one of the attractions was a lion show, some of the beasts being really wild and untamed. Nearly the whole stage was taken up with the "setting"—the animal show.

"Just as I was going on," said Cunliffe in telling the incident, "I heard a hurried rush and confused shouting and some one slammed an iron gate. I heard a voice say, 'Just in time; he was nearly out.' My music was starting, so I had no time to inquire, I went on the stage.

"In a moment I heard ominous growls and savage snarls mixed with much whip cracking and siren-blowing. I am never fond of a wild animal show, and I felt distinctly nervous that night. The cloth behind me sagged and swayed, and then, to my horror, suddenly in the wings I saw the huge head and front of a lion. 'I was singing a song called 'I Would,' which had a lot of short verses. As I sang them, my blood running cold, I watched the lion, it seemed slowly to advance, and its beautiful eyes glittered in a truly horrible way. I could not go off that side without passing it, so I prepared to 'exit' with haste.

"Turning I was doubly horrified to see another lion on the other side.

"I was caught like a mouse in a trap. I dared not go off the stage; I dared not show my discomfiture to the audience. There was only one thing for me to do—sing. So I sang in desperation, hoping that some one would come and take those lions away. They told me afterward that I sang ninety eight verses. But I think that was unkind.

"I wondered how long it would take those two brutes to make up their minds to come into the full glare of the footlights, and I had just prepared to leap into the stalls, regardless of the consequences, when I heard the hoarse voice of one of the stage hands say: 'Here, Bill, these two chaps are too far forward. Give a hand with them, will you?' And coming up between the two lions, they lifted them bodily. 'They were papier mache'."

LIFE IN SANTIAGO.

Curious Customs That Prevail in the Capital of Chile.

They have women conductors on the electric cars of Santiago, the capital of Chile. This was made necessary by a war, which took so many men to the front and imposed upon women the work usually done by men. The custom has been kept up, the women having proved equally as efficient as the men had been.

One of the most peculiar customs seen here is the evening promenade in the plaza or park, which is attended by young ladies and young men and quite small boys and girls. They do not mix, but keep quite separate paths. Yet even the little girls at eight years are finished coiffures. Their eyes languidly observe a young man and boy in the plaza, and they take care that each shall receive a due share of their smiles.

Another curious custom which prevails in Santiago and which is joined by those fortunate enough to have fine horses and carriages is the promenade at the Parque Casino, a beautiful park near the center of the city.

A company of mounted police stands in single file in the center of the drive and the carriages, with uniformed coachmen and footmen and beautifully dressed men occupying the carriages, ride around and around these mounted police.

Sometimes there are two or as many as six rows of carriages, some going in the opposite direction and alternating, the ladies smiling and the gentlemen tipping their hats in a polite manner. This promenade lasts from 5 o'clock in the afternoon until 8 o'clock in the evening.—Logical Point.

The Moslem's Exalted Month.

Ramadan is the month exalted by Moslems above all others. In that month the Koran—according to Moslem tradition—was brought down by Gabriel from heaven and delivered to man in small sections. In that month Mohammed was accustomed to retire from Mecca to the cave of Hira for prayer and meditation. That month Abraham, Moses and other prophets received their divine revelations. In that month the "doors of heaven are always open, the passages to hell are shut, and the devils are chained." So run the traditions.—Christian Herald.

The Missing Word.

A "new missing" word contest has just appeared. It is as follows: A good church deacon sat down on the pointed end of a tack. He at once sprang up and said only two words. The last was "it." Any one guessing the first word and sending a dollar in cash will be entitled to this periodical for one year.—Lippincott's.

Her Little Joke.

"Mrs. Pufferly is tickled to death with the way she fooled the customs inspectors."

"How did she do it?"

"She didn't buy a thing abroad."—Cleveland Plain Dealer.

Her Handwriting.

"Is your wife economizing?"

"I think so. She now writes eight words on a page of letter paper instead of only six."—

DANBURY.

Mrs. T. E. McEall and daughter Hildie visited at Lebanon a couple of a last week.

The band concert Saturday night was well attended and everything went off smoothly.

Waverly Simpson of Manhattan, Kan., is here to spend the holidays with his parents.

John Good and daughter Anna from Red Oak, Iowa, sister and father of Mrs. G. B. Morgan is here on a visit.

O. B. Woods arrived home Wednesday from Texas where he has been the last three weeks. He went to Mena, Ark., to visit his parents before returning.

Lella Burbridge of Inavale, Neb., is here on a visit with her sister Mrs. W. J. Stilgebauer.

Delph & Resler had a good match Saturday for New Year's. A number of people were lucky to bag a turkey.

The scholars are having a big time during school vacation.

J. H. Wicks of Marion was a business visitor Friday.

Floyd Ressler of Wilcoxville came up Saturday to attend the turkey shoot.

Foster Stilgebauer and family of Bartley spent Xmas with the home folks.

Harry Shepard and family of McCook spent the last week with relatives.

Ray Sims left Monday.

His home at Danbury, Iowa.

Mrs. John Leake of Danbury, Neb., arrived Tuesday for a visit with relatives.

Train No. 189 was four hours late Monday.

Mrs. George Gill accompanied by her brother John, left Tuesday for her home at Akron, Colo.

Ed Ruby came home from Bird City Kan., Saturday to attend the band concert.

Leon Leisure from Pawnee City, Neb., arrived Saturday for a visit with relatives.

Mr. and Mrs. R. Sanders came home on Saturday from an extended visit with relatives in Iowa.
