County Commissioners' Proceedings McCook, Nebraska, March 21st, 1911. The Board of county commissioners met pursuant to adjournment.

MCCOOK, Nebraska, March 22, 1911. The Board of county commissioners met pursuant to adjournment.

The following claims were audited and allowed and the clerk was instructed to draw warrants on the county general fund, levy of 1910, in payment thereof, as follows:

- Hammond & Stephens Co., supplies to Co. sup. returned \$ 5 75
Klopp & Bartlett Co., complete record, clerk of court 25 00
Klopp & Bartlett Co., 2 books school land receipts 8 00
J. C. Moore, recording bonds, and postage 3 90
L. W. McConnell, supplies 8 20
S. D. McClain, boarding jury 4 10
Dr. J. D. Hare, professional services 5 00
Dr. C. L. Fahnstock, professional services 4 00
Nebraska Institute for Feeble Minded Youth, care of Ruby Boyd 25 92
M. J. Clark, house rent, Mrs. Jeffers 4 50
McCook Hardware Co., room rent, 1 month, Chris. Hoffman, claimed at \$10.00, allowed at 8 50
McCook Hardware Co., supplies and hardware 1 95
F. L. McAninch, witness fees, State vs. Swartz 1 99
C. A. Rodgers, fees, Rector vs. Red Willow County 19 95
L. M. Higgins, fees, Rector vs. Red Willow County 1 20
E. Benjamin, fees, Rector vs. Red Willow County 3 60
N. J. Johnson, fees, Rector vs. Red Willow county, witness 4 00
P. Foxen, fees, Rector vs. Red Willow county, witness 4 00
F. S. Lofton, fees, Rector vs. Red Willow county, witness 4 50
N. J. Johnson, fees, Rector vs. Red Willow county, witness 4 00
C. B. Gray, fees, Rector vs. Red Willow county, witness 4 00
Edward Sughroue, fees, Rector vs. Red Willow county, witness 6 20
F. S. Lofton, commissioner services and mileage 23 80
Edward Sughroue, commissioner services and mileage 20 00
W. N. Rogers, commissioner services and mileage 41 80

The fees allowed in the case, Rector vs. County represent the costs of the defendant or county. No action was taken on the plaintiff's costs, as the case is in the supreme court and the board will wait for that court's decision before taking any action.

On motion the county treasurer was instructed to refund to H. C. Clapp the sum of \$15 20, being the amount 1910 taxes illegally assessed against him and paid by him under protest, for the reason that his store fixtures were assessed twice.

On motion the county treasurer was instructed to refund to F. S. Value the sum of \$16.72, being the amount of 1910 taxes illegally assessed against him and paid by him under protest, for the reason that an error of \$1, 100.00 was made in the assessment of his personal property for 1910.

The following claims for road work were audited and allowed and the clerk was instructed to draw warrants on the respective funds in payment thereof as follows:

Road District No. 9, Indianola precinct: Charles J. Sedden, road work \$8.00 Calvin W. Sedden, road work 1 00

tices, of \$17.98, was on motion, disallowed. The claim of C. R. Livingston, for auto livery, for Sheriff Higgins, of \$3.00, was on motion, disallowed.

The claim of H. I. Peterson of \$8.50 for mileage, in case State vs. Bateman, was on motion disallowed.

The claim of S. N. Wilson, of \$3.00, for livery hire, was on motion disallowed.

The claim of John Hesterworth, of \$100.00, for damages caused by the vacation of road No. 142, was on motion disallowed.

The claim of C. B. Hoag, of \$25.00, for damages to carriage and harness caused by upsetting on grade along railroad track, was on motion disallowed.

The claim of S. V. Frye, of \$50.00 for road work, was presented to the board and it appearing to be a duplicate of a claim, on which the board had already taken action, the clerk was instructed to file this claim with the former claim.

The petition of J. W. Burtless, Clint Hamilton, I. H. Wasson and others, asking for the changing of a bridge in Driftwood precinct, was presented to the board and considered, action on same to be taken at a future meeting.

The following official reports were examined and on motion ordered placed on file.

W. B. Whittaker, justice of peace, Willow Grove precinct, 2nd half 1910. James E. Ryana, justice of peace, Indianola precinct, 2nd half 1910.

Butler A. Jones, justice of peace, Indianola precinct, 2nd half 1910. E. L. Hethcote, justice of peace, Beaver precinct, 2nd half 1910.

S. R. Smith, justice of peace, Red Willow precinct, all of 1910. The fourth quarter-annually reports of L. M. Higgins, sheriff, for 1910, also the quarterly reports of J. W. Dutcher, deputy sheriff for 1910, were examined and on motion ordered filed.

Final action on same to be postponed until the supreme court has given a decision in the pending suit for the recovery of mileage from H. I. Peterson. The petition of E. W. McAninch, R. L. Drain and others, asking for the establishment of a public road, together with the viewers report, surveyors plat, appraisers report, claims for damages, etc., were presented to the board, and read and considered.

After due consideration the board finds that all the requirements of the law have been complied with and that the public good requires it, on motion same was granted as changed by the board, establishing a public road to be known as road No. 438, as follows: Commencing at the north bank of the irrigation canal at a point 84 feet north of the southwest corner of section 19, township 3, range 30, in Perry precinct, on the county line between Red Willow and Hitchcock counties, running thence south 11 degrees, 55 minutes east 684 feet, on said county line, to a point 600 feet south of the northwest corner of section 20, township 3, range 30 and terminating thereat and connecting with a road to be established by Hitchcock county, and again commencing at a point on said county line between Red Willow and Hitchcock counties, which point is south of the northwest corner of the southwest quarter of section 30, township 3, range 30, at the termination of the road to be established by Hitchcock county, thence in southeasterly direction to a point marked station 8 on the surveyor's plat of said road, as attached to the viewers report, thence south 28 degrees, 16 minutes east 615 feet, thence south 18 degrees, 51 minutes east 739 feet, thence south 14 degrees, 31 minutes east 471 feet thence south 6 degrees 09 minutes east 576 feet, thence south 77 degrees, 29 minutes west 701 feet to a point 683 feet south of the northwest corner of section 31-3-30, thence south on the county line to the southwest corner of section 7, township 2, range 30, terminating at the southwest corner of section 7, township 2, range 30, on the county line between Red Willow and Hitchcock counties. The granting of this road is subject to concurrent action to be taken by the county board of Hitchcock county and the county clerk was instructed to notify the county board of Hitchcock county of the action of this board, and the county clerk was further instructed to notify the overseer of highways to open said road, after Hitchcock county has notified the county clerk of similar and concurrent action being taken by them. The consideration of the claims for damages caused by the location of this road was also postponed until the road is established by Hitchcock county.

On motion the board adjourned to meet April 4, 1911.

F. S. LOFTON, Chairman. CHAS. SKALLA, County Clerk.

BEGGS' BLOOD PURIFIER CURES and Purifies the Blood.

RADIATION OF THE SUN VARIES

Dr. Abbot, Smithsonian Astronomer, Hopes to Prove This.

HE FORESEES BIG DISCOVERY.

Research in Mexico is Expected to Render Important Service to Agriculture and Long Distance Weather Forecasts—How Earth's Temperature is Affected Also to be Shown.

As a result of the action of congress at the last session in making a special appropriation of \$5,000 for the purpose, Dr. C. G. Abbot, director of the astrophysical observatory of the Smithsonian institution, will be able to complete within the next year an investigation begun in 1905 which is expected to prove that the radiation of the sun varies and that this variation produces a corresponding variation in the temperature of the earth.

To complete the tests which have been and still are being made at the observatory in Washington, sea level; at Mount Whitney, three miles elevation, and at Mount Wilson, one mile elevation, Dr. Abbot finds it necessary to establish a station in the cloudless region of southern Mexico. Observations then will be taken at the new station and at Mount Wilson simultaneously, and if the two sets of measurements should agree the conclusion will be proved.

Expedition Starts in July. Congress has provided for this trip to Mexico by adding \$5,000 to the appropriation regularly made for the work of the astrophysical observatory. While the expedition will not set out for Mexico until next July, the work of preparation already is under way. In speaking of the work Dr. Abbot says:

"When we began to make these measurements there was nowhere in the world any exact scale of measurement of radiation, although physicists had been working devising instruments for that purpose for about sixty years. Still there remained an uncertainty of 5 to 10 per cent in the scale of pyrheliometry, as it is called. We have devised several instruments to be used as standards for that purpose, and in the last year we have made a careful comparison of two of our instruments of the most improved type, and these agreed perfectly in fixing the scale of measurements.

"This apparatus is used now as a standard by which to standardize other apparatus which has been sent around the world. We have sent instruments to France and Italy and have requests for them from Argentina, Peru and other countries. Abbot Talks of the Work. "Our measurements at Mount Wilson have been carried on for several years. The first expedition was in 1905, and we have observed almost daily for six months of each year from 1905 to 1910, excepting in 1907. In 1910 I was fortunate in having two weeks of good weather on the summit of Mount Whitney, which is the highest mountain in the United States. I carried on there complete measurements which were simultaneous with those carried on at Mount Wilson. We have found that the results obtained at Mount Whitney check and substantiate completely the work we were doing at Mount Wilson. Therefore, having established a standard scale of measurement and having shown that we get the same results at Washington, Mount Wilson and Mount Whitney, we are now able to state the value of the solar constant of radiation. This value is of an importance equal to that of the distance of the sun in astronomical work. Our measurements show a range of the value of the solar radiation outside of our atmosphere of about 8 per cent.

The Method of Proof. "Now, by taking stations so far apart that no local condition in the atmosphere can affect them both, we may actually prove whether or not these variations are in the sun or are something that we have not eliminated in the atmosphere. If we find them in the sun we shall have made a discovery of the first rank. It is clear that if the sun varies the temperature of the earth must vary correspondingly, perhaps not always the same at all stations, because the earth is so affected by the presence of water and mountains and the like that not all stations would behave exactly alike, but yet we will be able to find a relation between the radiation of the sun and the temperature of the earth that will be so important to the meteorological service of this country and abroad that undoubtedly this work we are doing will be continued daily at several stations over the world if we shall prove the variation in the sun."

New Interoceanic Railroad. It is expected that definite announcement will soon be made of the early construction of a new interoceanic railroad through Honduras and Salvador, to traverse what is considered to be the mining Eldorado of Central America.

50,000 NEW YORK GIRLS DOOMED TO BE OLD MAIDS

Scarcity of Men Is Given as the Reason Why Many Cannot Hope to Wed.

"In spite of writers who give formulas to girls 'how to get husbands,' assuring them that every girl can win one if she makes herself attractive, there are thousands of girls today who haven't a ghost of a show at matrimony. There are not enough men to go around."

This is the cold blooded statement of Dr. John Jackola, who backs up his statement with figures. Dr. Jackola's mother and sisters are among the pioneer suffragists of Finland, where women have full suffrage and where there are 100,000 more women than men in 3,000,000 population.

Dr. Jackola declared that there are 50,000 more women than men in Greater New York alone and that no matter what interest they had in looking forward to matrimony for thousands of them there was absolutely no hope. He said that farming would solve the serious and the growing problem of the "old maid."

"Farming can rightfully be called a woman's occupation," said Dr. Jackola. "It is woman's nature to mother something. If she has no babies to mother she can mother the chickens."

WANTED HIS NAME ON MONEY

Because It Was Not He Felt Defrauded and Shot a Man.

There were just four diners in a little basement cafe called the Piccola Napoli, in New York's east side, one night recently. Two were laborers of Sicilian birth whose names have no place in this story. Another was Antonio Lavecchia, a grizzled haired bricklayer out of a job, and one was Vincenzo Nespoli, also out of a job by reason of his habits and his ways. The bricklayer had finished his meal and lolled in his chair, facing the door. He was smoking. Two tables away sat Vincenzo, haggard and trembly. He fumbled in his pockets, drew out a soiled and crumpled five dollar bill and smoothed it out on the bare table. His shaking finger idly traced the figures on it. Then suddenly he jumped up yelling. His bloodshot eyes were staring wildly.

"They have cheated me again!" he shouted. "There's a V on this money, but there should be an N, too—an N for my last name." And with that he pulled out a pistol and fired twice point blank into poor old Lavecchia's breast. Both the bullets entered the heart. A twenty-five cent piece would have covered the two wounds. Antonio's head lolled forward on his chest and the pipe slipped out of his mouth. Probably he never knew what hit him.

CARRIED 13 ON ONE TICKET.

Conductor Objected, but Mother Showed Family Bible.

Mr. and Mrs. Frank Scott of Highland, Kan., are seeking a home in Oklahoma. The Scotts have been married not quite ten years and are the parents of nineteen children, thirteen of them living, all boys under five. Recently when Mrs. Scott and her thirteen children boarded a train with only one first class passenger ticket the conductor protested. "Madam, you cannot carry a whole Sunday school along with you on that one ticket," he said, "and you need not tell me these are all yours."

Mrs. Scott dug down into her valise and brought out the family Bible, in which were recorded the names and ages of each of the children. The conductor had to give in.

The ages of the Scott children are: Triplets, four and one-half years; twins, three and one-half years; triplets, two and one-half years; triplets, eighteen months; twins, six months.

UNWRITTEN LAW UPHELD.

Vermont Judge Refuses to Hold Girl Who Slew Assailant.

Judge F. C. Sinneron of the municipal court of Poulney, Vt., refused to entertain a charge of murder against Carmela Covino, a young girl, who admitted shooting to death forty-five-year-old Luigi Vermillo in defense of her honor. The judge at the conclusion of a five hour hearing declined to hold her for trial. Vermillo, who had a wife and five children in Europe, was a boarder in the home of the girl's father. Carmela is in her teens. "What is this charge against me?" the girl said. "In my country I'd have the right to shoot a man who insulted me. America is more free than Italy, they say. Well, this man attacked me, so why could I not shoot him? He insulted me, and I shot him."

Examine Students For Hookworm. Students at Wofford college at Spartanburg, S. C., who do not pass their examinations will get a medical examination by experts on the hookworm in order that it may be determined whether or not they are suffering from that disease. This plan was decided on by the faculty after a lecture by Dr. J. L. Ward, a member of the Rockefeller commission for the eradication of the hookworm. Dr. Ward declared that the dullness displayed by many Wofford students was not necessarily due to mental inefficiency. He said that students suffering from hookworm could not be expected to do well in their studies.

A Mother's Safeguard. Foley's Heney and Tar for the children. Is best and safest for all colds, coughs, croup, whooping cough and bronchitis. No opiates. A. McMillen. The McCook Tribune. \$1.00 a year.
