## Democrats Do Czar Act.

Washington, June 2.—(Special—) Conceding that the present democratic caucus methods are little if any better than the old republican autocratic methods, Representative Norris of Nebraska today denounced the means employed by the democrats of the house to secure a duty on raw wool. Mr. Norris is strenuously opposed to secret caucuses and thinks that the latest example only goes to prove that the obnoxious power of the preceding republican speaker has been transferred, with little change, to the chairman of the majority ways and means committee. Objection on the part of Mr. Underwood alone kept Mr. Norris from saying on the floor today what he says in the State Journal through these dispatches.

"Secret caucuses," said Mr. Norris, "are a menace to our free institutions. Every member of the house is sent here by the public to transact the public's business, and any secrecy in the transaction of that business appeals to me as odious and menacing to legislative action. Must the country be forced to accept legislation that has been cooked up by the few leaders who control the party caucuses? This is little, if any,

C. E. Eldred of McCook, one of the most prominent young attorneys in the district, filed his application last week for the nomination on the republican ticket for judge of the Fourteenth judicial district.—Danbury News.

C. E. Eldred, who has announced his candidacy for the district judgeship of the Fourteenth Judicial District, is pre-eminently qualified, both by temperament and training for the duties of the office he seeks. For the last twenty years he has been actively engaged in the practice of his profession, not only in Southwestern Nebraska, but in Northwestern Kansas and Eastern Colorado as well. He served three terms as mayor of McCook—a thankless profitless office, but one involving great responsibility, and one that only a man who has at heart the welfare of the community in which he lives will assume. He was appointed to fill out an unexpired term as county judge and then became county attorney of Red Willow county, an office to which he was elected for a second term, but refused a third nomination. In every one of these positions he has made good. His tenure of these offices will show the esteem in which he is held by the people who knew him best, and should be sufficient recommendation of his fitness as a man, for the responsible position of district judge.—Trenton Register.

The Holdrege Progress now claims that Holdrege is just the hole in the doughnut.

Carnegie, the canny Scotchman, admits that "the day of 25 and 30 per cent profits will be no more. People will have to be content with 5 and 10 per cent. Multi-millionaires will then be no more." When we contemplate such profits, too, on watered stock, the wonder is that America has been patient so long.

**Our Thirtieth Birthday.**  
The McCook Tribune is thirty years old and after this date will be issued as a semi-weekly. The Tribune is one of the leading Nebraska weeklies and Kimmell is to be congratulated on the success he has attained. We are also delighted to have company in the semi-weekly class. \* \* \* Monday's wreck furnished a striking advantage of a semi-weekly newspaper. The Clarion Tuesday presented to its readers as good a report of the wreck as the weekly papers which are sent out today. The McCook Tribune issued a special edition on Tuesday and is so popular that the paper went to semi-weekly at once. In this day of hustle and push a semi-weekly local paper though small in size, is appreciated by the public.—Cambridge Clarion.

### A Mortgage of \$600,000,000.

New York, June 1.—The announcement of James J. Hill of the execution of a mortgage of \$600,000,000 by the Great Northern Railway company was followed by the news today that the Great Northern has sold to the First National Bank of New York \$20,000,000 4 1/2 per cent fifty-year bonds secured under its mortgage.

It is stated proceeds will be used for general corporate purposes which include improvements and extensions on the Great Northern under way at present or already planned.

It also was made known here today that the Bankers' Trust company New York, is the trustee under the \$600,000,000 mortgage which is the largest corporate mortgage on record.

The financial community accepts the mortgage on the Hill system as a precautionary measure more than anything else. It is also disposed to associate the proposed acquisition of the Chicago, Burlington & Quincy by the Great Northern as a direct result of the recent Standard Oil and Tobacco decisions, since it is generally recognized that the Northern Pacific and the Burlington are in a sense competing lines.

Local representatives of the Hill roads declined to discuss the matter today, but it is known that the mortgage will take care primarily of the Chicago, Burlington and Quincy 4 per cent bonds, amounting to \$222,400,000.—Omaha Bee.

### Condition Still Serious.

Sidney Dodge's condition is still serious. There seemed to be a little change for the better Sunday evening, but he suffers most of the time when not under the influence of medicine, and has been unconscious for over a week. His son Arthur, who lives at Winnipeg, Manitoba, was telegraphed for last Saturday, but word was received in reply that he had met with a serious accident just before which made it impossible for him to come. He had tried to slack some lime in a large cream can when an explosion occurred which threw the lime all over his face and hands. It is as yet uncertain as to whether he will regain his eyesight or not.—Marion Enterprise.

### Disgusting Exhibition.

Mrs. Ava Willing Astor, one of America's fool rich, created a sensation on Thursday by appearing at a ball given in London by Lord Winterston, with an impersonation of Juno. She was clad in pink gauze, wore sandals exposing her bare feet, and lead a peacock, which spread its tail proudly and shared the attention attracted by Mrs. Astor.

To the people of this county the most important office to be filled at the election this fall is that of district judge. The announcement of Mr. C. E. Eldred's candidacy appeared in the last issue of this paper. Mr. Eldred, who is well known to our people, has lived in this part of the state for more than twenty years and during that time he has filled a number of offices in the city and county of which he is a resident with credit to himself and with entire satisfaction to the people he served. As a lawyer he is well read and his judgment is deferred to, by those who know him best, because he is one who is known to be sure. He is always certain of every step before he takes it. He has been a successful practitioner, and he has the qualities that will make of him a good judge. Among his acquaintances he is known as a man of character, whose domestic life is above reproach, and as one who is honest, trustworthy and reliable.—Trenton Republican.

## ANOTHER BANK STORY

Smith bought some pigs from his neighbor Jones. The price came to \$6.42. Smith paid Jones in cash, but as usual neither had the proper change, and Smith said; "Just make it even money." Smith lost 8 cents. Jones bought some pigs from his neighbor Johnson. The price came to \$6.42. Jones had his money in the bank and gave Johnson a check for the exact amount. Jones did not lose a cent. This is only one of the advantages of a checking account. Come in and let us explain further.
