

BREAK IN THE RANKS

LA FOLLETTE'S COLLEAGUES SHY AT PRESIDENTIAL BOOM.

INSURGENTS TO STAND BY TAFT

Attitude of Cummins One of Big Surprises—Line of Division Between Brown and Norris Plainly Marked.

Washington.—Demoralization among the insurgents is complete following the discovery that Senator Cummins of Iowa has determined to cast his lot with President Taft for another nomination as against Senator La Follette. When La Follette's friends began to count noses in the senate they found that they were few in numbers. The only senators who could definitely be counted upon to stand by LaFollette to the end and carry their fight for him to the floor of the next republican national convention were Bourne of Oregon, Pointexter of Washington, Bristow of Kansas and Clapp of Minnesota. There is some doubt about Works of California, that senator not having made his position clear as yet. Senator Brown of Nebraska, together with eight other insurgents has decided to line up for Taft in 1912. This break in insurgent ranks is disconcerting to LaFollette's friends.

It is taken for granted here that Representative Norris will be a candidate against Senator Brown in Nebraska. Mr. Norris has voted against Canadian reciprocity. Senator Brown will vote for the measure in the senate. Norris is not only vice-president of the progressive league, but one of LaFollette's most ardent boomers, and among the insurgents in the house who are unalterably opposed to another nomination of Taft. Senator Brown is for Taft for another term. The two men, therefore, will have at least two very important issues as subjects for debate in their primary contest.

Will Go After Steel Trust.

Washington.—Within ten days the result of the investigation by the bureau of corporations into the organization and conduct of the United States Steel corporation will be placed on the desk of President Taft. It will then rest with the president and Attorney General Wickersham whether the administration will begin proceedings in the courts against the alleged steel trust under the Sherman anti-trust law.

Movement for More Markets.

Detroit.—Secretary of Agriculture Wilson, addressing the board of commerce here on the Canadian agreement, said reciprocity is a movement for more markets for the products of diversified industry from field and factory, an enlargement of the policy of half a century that has made our home market, and brought the farmers' customers nearer the field.

Says Beans Prolong Life.

Muldrow, Okla.—A. D. Dutton, ninety-two years old, who attributes his longevity to his habit of eating beans, was married to Mrs. Rebecca Jane Galloway, twenty-four years old. Despite his advanced years, Dutton farms every working day of the week. He is apparently as hale as a man half his age.

Mrs. Cleveland Returns.

New York.—Mrs. Grover Cleveland has returned from Europe with her son, Richard F. Cleveland, who has been at school in Scotland. Mrs. Cleveland, with her other children, will go to the Cleveland home in Princeton, N. J., and thence to their farm in Tamworth, N. H., for the summer.

Guadalajara, Mexico.—The volcano Colima became active when the earthquake shocks were felt and is now emitting smoke and lava. The towns of Tonila and San Andres were badly damaged by the disturbances, parts of them being destroyed.

Americans Are Scarce.

London.—Already a quarter of a million visitors are here for the coronation, but the shopkeepers and hotel-keepers are disappointed at the absence of the hoped for influx of Americans. The police regulations for the crowd on the day of the procession will be made more stringent than ever before. Temporary gates are being erected in all thoroughfares through which the procession will pass and these will be closed as soon as the route is comfortably filled with spectators.

Washington.—The Canadian reciprocity bill is ready for consideration by the senate, the finance committee having voted ten to four to report the bill Tuesday without recommendation and with the Root amendment to the pulp wood and paper clause tacked on.

Topeka.—Attorney General Dawson has notified the five members of the council at Hunnewell, Kas., that they must co-operate with the woman mayor of that town, Mrs. Ella Wilson, and that no more trifling would be tolerated.

SIXTY-THREE KILLED

EARTHQUAKE IN EARLY MORNING IN MEXICO CITY.

PROPERTY LOSS IS HEAVY

Caught Beneath the Falling Walls of the Artillery Barracks—Most Serious Shock in a Score of Years.

Mexico City.—Sixty-three killed, seventy-five wounded, property loss, \$100,000.

These are the net results of an earthquake which rent the capital on Wednesday morning and injected a note of tragedy into what was to have been a day of unalloyed rejoicing. When the work of searching the ruins is completed it is possible that the list of dead will be lengthened somewhat, as hiding throughout the city there doubtless are many wounded who with traditional fear of the authorities and government hospitals are anxious to evade discovery. The property loss is an estimate based upon calculations made by owners and contractors. Little of the loss is covered by insurance.

It was 4:36 a. m. when the first shock was felt. According to the meteorological observatory, the greatest intensity was reached at the end of the first minute, but the instruments continued to record the shocks for fourteen minutes more.

Bonds to Bring a Premium.

Washington.—Treasury officials are convinced that when the time comes to receive bids on the new issue of \$50,000,000 Panama bonds, at 3 per cent, there will not be the slightest difficulty in getting a good premium. They will be disappointed if the bids are not considerably above par and this despite the fact that these bonds will be unique among those issued since the civil war in that they will not be usable as the basis of circulation.

Heartily for Arbitration.

Paris.—The American chamber of commerce in Paris, which transmitted the resolutions adopted by the New York chamber of commerce and the Paris chamber of commerce favoring unrestricted arbitration between the United States and France to the forty-five chambers of commerce in this country, has already received enthusiastic replies. The chambers endorsing the project include those of Bordeaux, Rouen, Dunkerque and Troyes.

May Renew Champagne Riots.

Paris.—The champagne question which led to serious rioting in the departments of Marne and Aube last April is likely to be revived with all the usual disorders as the result of a decree signed by President Fallieres. The decree ratified the plan promulgated by the council of state for the solution of the much debated problem of which wines shall be designated champagne.

Washington.—Carrying out the program agreed on by the senate committee on privileges and elections, Senator Dillingham has introduced in the senate a resolution authorizing the special committee of eight members of the regular elections committee to investigate the charges against Senator Lorimer of Illinois.

Victoria, B. C.—After numerous small strike disturbances the city is now comparatively quiet. Three men who were in a mob of 1,500 which tore down a fence on a non-union building were sentenced to three months in jail.

Shipp Calls Meeting.

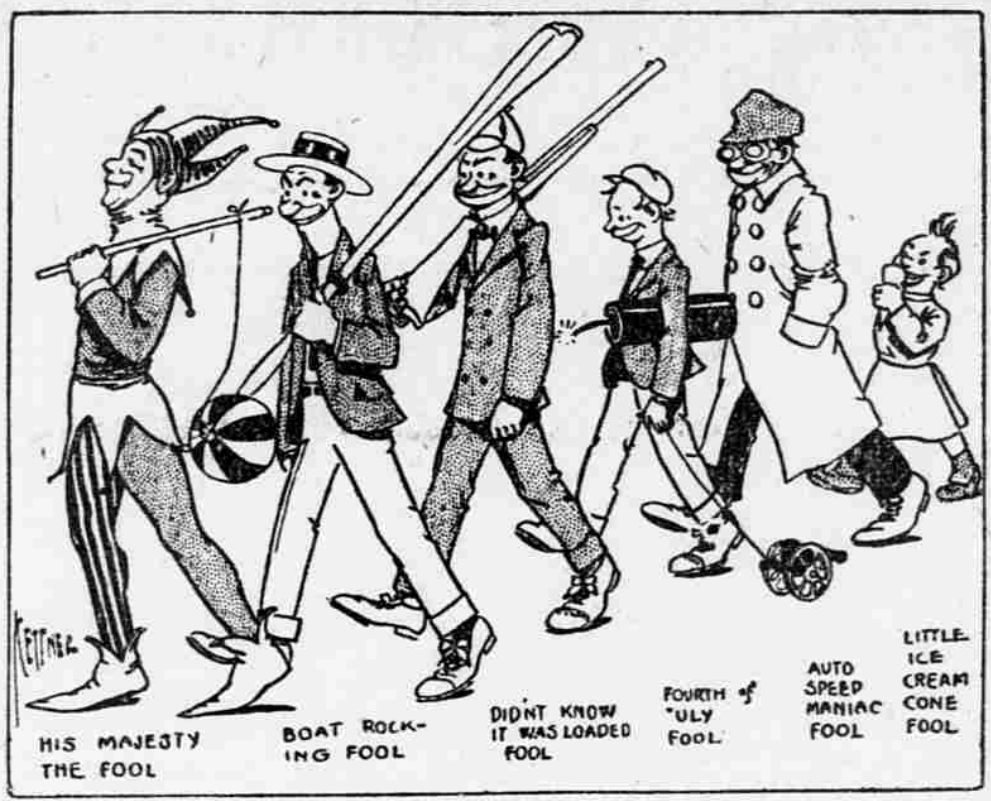

Kansas City.—Thomas R. Shipp, secretary of the national conservation congress has sent out from here notices to members of the executive committee of the congress to meet in Washington Monday to decide upon the place of holding the next meeting of the congress.

Mangum, Okla.—William, the eight-year-old child of William C. Keith, and a two-year-old sister were burned to death here when the boy poured kerosene on a kitchen fire.

Denver.—"Guilty of murder in the second degree." George Martin Dunn of Lincoln, Neb., on trial charged with the murder of Mrs. Sophia Brandt, drooped forward slightly in his chair, and his face turned a shade paler, as the clerk of the court read the verdict. The jury had been out nearly twenty-four hours.

Madison, Wis.—The bill for county option in Wisconsin was indefinitely postponed by the assembly. This action practically disposes of the question at this legislature.

THE FOOL IS HERE

(Copyright, 1911.)

DEBATE WILL BEGIN AT ONCE

Democratic Majority in House Offers It as a Wholesome Measure—Republicans Designate It Petty Politics.

Washington.—The long expected wool tariff revision bill was introduced in the house of representatives Tuesday by Chairman Underwood of the ways and means committee and debate on it will begin in earnest. The measure was accompanied by a lengthy report from the democrats in its favor, while the republican members, headed by Representative Payne of New York, unanimously reported against it. Indications are that the passage of the bill will be stubbornly contested, but no intimation had been given as to the time to be granted for debate. Quoting President Taft's addresses after the passage of the Payne-Aldrich bill, in which he declared "the woolen schedule is indefensible and I propose to say so," the report says: "Had the president made these public utterances earlier, while the tariff of 1909 was under consideration by congress his declaration would have been of real service to the people and would have enabled them to protest against the betrayal of the public welfare to private greed. The president's silence at that time and his approval of the act of 1909 makes it impossible for him to evade his full share of responsibility for the failure of revision which he now admits."

Trouble Ahead for Mexico.

Washington.—A pessimistic view of the Mexican situation is taken in high official and diplomatic quarters here. In spite of the resignation of Diaz and the issue of a call for a new election, those who know most about the inwardness of things in Mexico still insist that dark clouds of trouble are lowering over the republic, and that the end of difficulty is far from being reached. In fact, there is a strong disposition here to believe that Mexico is merely at the beginning of her troubles and that what will follow will be much worse than that which has gone before.

Coronation Will Be Expensive.

London.—The cost of the coronation of King George, June 22, is going to be so great that there is really no way of arriving at an accurate estimate. A sample of the profligacy the people are showing is seen in the appropriation of \$25,000 made by parliament to defray the government's expenses. This is \$301,000 more than was spent at King Edward's coronation and no one ever accused King Edward of being a piker.

Nebraska Couple Drowned.

Glenwood Springs, Colo.—Clasped tight in each other's arms the bodies of Clyde Lewis and his bride of two months were found drowned at the bottom of a big reservoir near here, when their boat sprung a leak while they were in deep water and capsized. Their bodies were recovered later, still locked in embrace. The Lewises were married two months ago at Sumner, Neb., their home.

Revolt Against the Turks.

Cetteing, Montenegro.—The Merdities, the most powerful of the Albanian tribes, have revolted against the Turks. They have proclaimed autonomy for Albania and appointed a provisional government in Oroshi.

Moving Picture Films Burn.

New York.—One hundred and forty miles of moving pictures melted into the air, leaving no ashes behind, when flames swept through the two-story building of the Powers company, film manufacturers, in the Bronx.

Granted Purple Robes.

Washington.—Cardinal Gibbons has invested the Very Reverend William T. Russell, rector of St. Patrick's church here, with the purple robes of a monsignor and a domestic prelate of Pope Pius X.

Rome.—Nearly one million persons witnessed the inauguration of a magnificent monument to King Victor Emmanuel II. Interest was added to the occasion by reason of the celebration of the granting of the constitution by King Charles Albert in 1848, the same constitution which still rules Italy. King Victor Emmanuel and Queen Helena and the queen mother, Margherita, who appeared for the first time in an official function since the death of King Humbert, the duke of the Abruzzi and other members of the royal house were present.

ALL OVER NEBRASKA

Road Building in Merrick.

Merrick County.—The two days' good roads building jubilee was concluded last week and a stretch of good road in Merrick county running from east to west along the line of the Union Pacific for forty miles is about completed. The road officers in the districts through which the road passes had prepared the way for the completion of the work by having all the grades turned up and everything ready for the volunteer workmen to go ahead, putting on the surface and the finishing touches. The principal problem was to overcome the sandy stretches and this was done by hauling muck and clay onto the sand and mixing the two soils. The work was under the direction of H. E. Glatfelter, president of the association, and Joe A. Hays, secretary, assisted by district foreman.

Want Change of Venue.

Gage County.—A motion for a change of venue was filed in the district court at Marysville, Kan., by L. W. Colby, attorney for Alexander Menard, the Wymore farmer who is charged with assisting in the robbery of the Hanover, Kan., bank last winter, but was denied. Menard's case was continued to the next term of court, and his bond was increased from \$2,000 to \$2,500, which he failed to give. The case against Frank Wheeler, who has been out on bond of \$2,000, on a similar offense, was also continued to the next term.

School for Deaf.

Douglas County.—At the Omaha School for the Deaf, during the last two years 220 pupils were enrolled. At present ninety-four boys and eighty-four girls—178 in all—are in attendance. One hundred and twelve pupils have been enrolled since the founding of the institution, and eighty-eight of this number have graduated. Twenty-one were mutes.

Wants Tuberculosis Hospital.

Sheridan County.—Hay Springs is the latest applicant for the \$40,000 tuberculosis hospital which the board of public lands and buildings is to locate. Kimball, Lodge Pole and North Platte are previous applicants. The board will inspect the various sites during early summer.

Railroad Building in Nebraska.

Scottsbluff County.—J. R. Williams, who has the contract on the Gering extension of the Union Pacific, will have the grading from the river west—twenty-two miles, complete by June 15, except the yards at Gering, which will take him until July 1. Mr. Williams will then take up the extension of the Callaway branch of the Union Pacific as far west as Tryon.

Killed by Explosion.

Lincoln County.—Engineer Warren Kelly, Fireman Smith and Fred Thompson, head brakeman, were killed when the engine on a freight train blew up a mile west of Birdwood siding, the second station west of North Platte.

Young Girl Suicides.

Polk County.—Miss Zella Hollister, the 17-year-old daughter of George Hollister, who has resided eight miles southeast of Osceola for many years, committed suicide by taking strychnine. She had been having some words with her mother regarding a young man with whom she had been keeping company.

Squirrel Adopted by Cat.

Cass County.—O. P. Monroe exhibited a cat acting as mother to a young timber squirrel. The young squirrel was found by boys and the squirrel was taken to their home and placed with the cat, which at once adopted it.

Youthful Tlopers Captured.

Furnas County.—Carrie Southworth, the 12-year-old girl who ran away last week with Louis Carrier of Cambridge, a boy of 17, has been located at Julesburg, Colo., where the two are being held by the sheriff. The father of the Carrier boy has started to bring the truants home.

Bank Change at Hemingford.

Hox Butte County.—The controlling interest in the Peoples bank at Hemingford has been sold to Keith L. Pierce, cashier of the First State bank. L. Canfield of Bennett, Neb., remains president and C. U. Canfield has been appointed cashier.

Seward Woman Dies Suddenly.

Seward County.—Mrs. Mable Belden, wife of Dr. Roy Belden, died very suddenly on the lawn of her home. She leaves a babe 4 months old.

Earthquake at Tekamah.

Burt County.—A slight earthquake shock was felt at Tekamah and was so pronounced that dishes rattled on pantry shelves.

Killed by Water Crane.

Furnas County.—As No. 6 was pulling into the yard at Oxford an unidentified man, supposed to be Charles F. Winters, was knocked off the tender of the engine by the water crane. He died soon after the accident.

Chase Farmer Killed by Lightning.

Chase County.—Charles A. Montgomery was killed by lightning during a rain and electrical storm. He was a prominent and well-to-do farmer of the southwest part of the county.

SHE GOT WHAT SHE WANTED

This Woman Had to Insist Strongly, but it Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—he said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it, and I am so glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will."—Mrs. JANETZKI, 2963 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit. Women who are passing through this critical period or who are suffering from any of those distressing peculiarities to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

The Farmer's Son's Great Opportunity

Advertisement for Western Canada farms. Text: "Why wait for the old farm to become your inheritance? Begin now to prosper for your future prosperity and independence. Buy a farm in Western Canada. Free Home Opportunity awaits you in Manitoba, Saskatchewan or Alberta, where you can secure a Free Home on 60 to 160 acres at reasonable prices. Now's the Time—not a year from now, but now! The profits secured from the abundant crops of Wheat, Oats and Barley, as well as cattle raising, are causing steady advance in price. Government returns show that the number of settlers in Western Canada from the U. S. was 50 per cent larger in 1910 than the previous year. Many farmers have paid for their land out of the proceeds of one crop. Free Home lots of 160 acres and pre-emption of 400 acres at \$3.00 an acre. Fine climate, good schools, excellent railway facilities, low freight rates, water and lumber easily obtained. For pamphlet "Last Best West," particulars as to suitable location and low cost of land, apply to Dept. of Immigration, Ottawa, Can., or to Canadian Gov't Agent. W. V. BENNETT, Room 4 Bldg. Omaha, Neb. Please write to the agent nearest you."
