TAKE A KODAK WITH YOU.

We say "Kodak" advisedly. We do not merely mean camera, but the particular make of camera that bears the Eastman trade mark, "Kodak." The satisfactory results that it has given to our customers justify us in specifying "KODAK."

Your vacation will mean more to you if you kodak. Not only more pleasure at the time, but afterward.

the added pleasure that will come from the pictures.

Let us show you how simple it all is by the Kodak system. Our stock is very complete and we are always glad to give photographic help to any amateur.

HAPPY NUPTIAL EVENT.

The Marriage of Mr. John Rice and Miss Regina Provance.

Wednesday morning at 8 o'clock, Mr. John Rice and Miss Regina Provance, two most estimable and popular young people of our city, were solemnly wedded in St. Patrick's Catholic church, Rev. W. M. Patton, O. M. I., being the celebrant of the nuptial mass by which these highly esteemed young friends were made husband and wife until death does them part.

Besides the high contracting parties there were Miss Marguerite Rice of Scotts Bluff, Nebraska, sister of the groom, and Dr. Arthur Colfer, and Miss Lillian Provance of Baltimore, Md., sister of the bride, and Mr. Ed. Williams, in the wedding party.

With Miss Claire McKenna at the pipe organ, Mendelssohn's Wedding March was played as a processional, and the Wedding March from Lohengrin as a recessional.

The bride and groom and a small wedding party of relatives and most intimate friends then repaired to the cozy home of the young folks, first door north of the Baptist church, where a dainty wedding breakfast was served.

The groom is known as one of the most promising young lawyers in this section of the state, and connected with W. S. Morlan's office. The bride is the charming sister of Mrs. J. M. Trammell, with whom she has made her home for years, since coming here from the old home in Baltimore, Md.

The Tribune has very warm wishes for their success and happiness.

MIDNIGHT FIRE STIRS THE CITY

Considerable Portion of City Is In Jeopardy for a While On Account of Strong Wind.

THOUGHT TO HAVE BEEN OF INCENDIARY ORIGIN

And the Matter Will Doubtless be Probed to the Bottom—Many Suspicious Circumstances Connected With the Fire.

Between 11 and 12 o'clock Tuesday night, a building on west A street, owned by Laura Hughes, was practically destroyed by fire.

The city fire department was first called out, and quickly got lines playing on the fire and the adjacent livery barn, owned by W. W. Barritt. Their early efforts were hampered by low water, which was soon improved by closing the valves at the stand pipe and pumping direct into the system.

Shortly afterwards, the Burlington's fire department was called out, and they assisted greatly in confining the fire to this building.

While the first fire was in progress, fire was discovered in another building less than a block east of the burning structure, owned by the same party. Part of the apparatus was transferred to this building and this fire was more easily controlled and extinguished before great damage had been occasioned the building or contents.

It is the common opinion that both buildings were set on fire, evidences being at hand of coal oil having been used in the effort to destroy the buildings and contents.

The owner was occupying the first building discovered on fire, but the second building is said to have not been occupied, save, it is said, by a young man, hired to sleep therein in order that the insurance might not be cancelled.

The first building is a practical loss and the contents were likewise de-

stroyed. The damage to the second building will not amount to more than a few hundred dollars, including contents.

Both buildings and contents are said to have been insured, although J. E. Kelley advises the writer that about a month since he canceled advised the insurance was subsequent policies he held on same. We are re-written in the German Fire Insurance Co.

The departments were hampered somewhat by the bursting of hose, and it is stated that the Burlington contingent had one section of their pipe lines cut by unknown party or parties during the fire. In these instances the water had to be turned off until the sections were replaced.

The fire has caused more discussion than any fire that has ever occurred in the city, and it seems to be a common desire that the closest scrutiny and investigation be given the same, as to its origin and cause.

The known water shortage, the fairly strong wind, the extraordinary dryness, and the nearness to the livery barn, caused the greatest concern and apprehension throughout the city; and there was an intense feeling of relief when the fire was confined to the original buildings. Had the livery barn become involved in the fire it is not easy to imagine just how far the conflagration would have gone.

Under all the circumstances, both departments did effective and commendable work.

Married This Morning.

Mr. William J. Moore of Billings, Montana, and Miss Jessie Lee Bruce, daughter of Mr. and Mrs. J. A. Bruce of our city, were married this morning at 7 o'clock, Rev. L. E. Lewis of the Methodist church officiating, in the presence of members of immediate family and a few friends. A wedding breakfast was served immediately after the ceremony, and the happy couple departed on No. 13, this morning, for their future home in Billings, Montana. The bride has been the efficient lady in charge of the ready-to-wear department in H. C. Clapp's store; the groom is a railroad man. They take with them to their new home the congratulations and best wishes of many McCook friends. The guests were: Misses Tressa Rector, Clar Burton, Bridgie Doyle, Tacie DeLong, Mabel Bruns, Josephine McClure, Barbara Schlect and Pearl Lawritson.

Addition - Subtraction Multiplication

Add to your earning capacity a little each day, but subtract at least one-fourth of each dollar you earn and put it in the bank. By so doing you multiply present contentment and future comfort by every deposit you make.

It is the duty of every man to provide for himself and his family, both now and in the future. Health and contentment are two essentials in securing the best results from your labors, but so divide your income that a goodly portion will be applied to the fund which insures FUTURE comfort.
