J. W. Rogers Buried Yesterday.

The body of John W. Rogers arrived in the city on No. 15, yesterday and after services in the Methodist church at ten o'clock in the morning, conducted by Rev. L. E. Lewis, the remains were interred in Riverview cemetery.

Although the fact of death and time of services were not widely known, yet a goodly number of sympathetic friends from country and city attended the services, thus indicating a genuine and heartfelt sympathy for Mr. and Mrs. Rogers and family. There were a number of beautiful floral offerings on the casket and potted plants and ferns, palms and cut flowers on the rostrum completed the pretty floral effect.

John W. Rogers, eldest child of County Commissioner and Mrs. W. N. Rogers, was born in Jo Daviess county, Illinois, December 19th, 1877. He died at Beatrice, Nebraska, July 10th, 1911. At the age of 19 years he was overcome by the heat while working in the harvest field, and never recovered from the effects, it becoming finally necessary to place the unfortunate young man in the institution at Beatrice, where the disease accomplished his death. He is survived by his parents, two sisters and four brothers.

Henry Rogers was out from Lake View, Iowa, attending the funeral, leaving for home today.

Out of proper respect for their fellow county officer the doors of the several county offices were closed during the hour of the funeral services.

McCOK HARDWARE CO.

A new departure at the 1911 state fair September 4th to 8th will be the coin turnstiles at the general admission gates. Instead of the customary stop and purchase of a ticket at an outside ticket office, the fair visitor will walk to the turnstile and lay down his fifty-cent piece which drops into a slot, releasing the lock and permitting the person to pass through. Therefore when you come to the state fair this year be sure to have a 50-cent piece, as nothing else will unlock the turnstile.

Drop this paper and go look at the varnish on your window sill at once—is it there? If not, sandpaper well and give 2 coats of my natural varnish 24 hours apart. It will save the woodwork from decay and improve its looks. Half pint can covers 50 square feet. Chi-Name. L. W. McCONNELL, Druggist.

BURRIS H. STEWART DEAD.

This community was inexpressibly shocked this morning, by the death of Burris H. Stewart, at his own hand. The fatal shot was fired in the gentlemen's toilet in the Masonic Temple building shortly before eight o'clock, death being instantaneous. Mr. Stewart seemed to be laboring under great mental stress, this morning, and came to his place of business as early as six o'clock. Completing some arrangements looking forward to the deed, he stepped into the toilet, locked the door and the regrettable and sorrowful act was consummated.

B. H. Stewart was a young man of high and clean character and held a large and growing circle of friends. He was a member of the First Congregational church of this city. He was especially active and zealous as a Mason, having served McCook lodge No. 135 during the past year as its worshipful master.

For several years he was the capable foreman of The Tribune office, leaving its employ some six months since to engage in business here on his own account.

His death under saddest of circumstances has most profoundly touched the sympathetic heart of this city.

Besides father and ten brothers he leaves a young widow to whom all hearts go out in tenderest sympathy.

For special on dill, sour and sweet pickles see Magner.

Limit Unmeasured.

If there is any limit to the usefulness of the gasoline engine it has not been measured. An Oklahoma farmer is reaping a big harvest from an acre and a half of potatoes, irrigated by means of a pump driven by a gasoline engine and twenty-five dollars worth of underground perforated cement pipe. The potato crop is a failure in Oklahoma, and he has sold his crop for \$2.50 a bushel, the purchaser doing his own digging. The advantage of this kind of irrigation is that it requires but a comparatively small amount of water, for evaporation is negligible and every drop goes where it is needed. Unlike ordinary irrigation works this does not become useless in a wet season, for the pipes are expected to drain the soil and yield a bumper crop of potatoes when the neighboring field are drowned out. It will only be necessary to disconnect the pump and let nature take its course.—Lincoln Journal.

Killed Stock.

There was a heavy rain, last evening, south of the city. Don Thompson lost three head of cattle and Harry Wade one horse by lightning.

Miss Katherine Brady who is attending school at Loretto Heights, Denver, is home on a visit.

McCook and Alma will play ball at McCook, Saturday, July 15th, at 4 p. m. on the E. & M. grounds.

Use Your Own Judgment

In the matter of food, Taste Tells. This is true in regard to our Velvet Ice Cream made by The Holdrege Ice Cream Co. There is no better ice cream made than this. Your own Taste will tell you so. It is made in the latest model brine freezer, air tight, absolutely free from dust and flies and packed for shipping without the use of dippers, spoons, or ladles, or exposed to air. This finished cream meets a test every day of from 18 to 20 per cent butter fat—which is from 4 to 6 per cent more than the pure food law requires.

The fact that 500 gallons of this ice cream is used every day in Red Willow and adjoining counties is proof sufficient of its excellent quality.

We have the exclusive agency for the Holdrege Ice Cream and are prepared to furnish it in any quantity at any time or place.

The Man Who Fails

Is the man who spends all he is able to earn from day to day. He knows he should save money, or when he is too old to work, he will have to rely on the charity of his neighbors and relatives, but he doesn't make a start. The older one gets, the harder it is to acquire the saving habit.
