

# The McCook Tribune.

Tuesday Evening Edition

THIRTIETH YEAR.

McCOOK, RED WILLOW COUNTY, NEBRASKA, TUESDAY EVENING, JULY 25, 1911.

NUMBER 17.

## IN THE JUNIOR NORMAL.

State Sup't Crabtree visited the normal Friday. He addressed the normalites at chapel hour. He expressed himself as highly pleased with conditions and work at the McCook normal. He but recently arrived home from attending the national educational meeting in Frisco.

Mr. Gregory, inspector of normal training in high schools spent Thursday in the city. He gave one of his practical talks before the chapel on that morning.

Special examinations will be held by Sup't Bettcher Thursday and Friday, 27th and 28th. These examinations will give Junior normal credits as well as certificate credits.

This will be recorded as one of the most satisfactory, successful and effective sessions of the McCook Junior State Normal. The work has been of a gratifyingly solid and substantial sort.

One of the interesting addresses before the chapel was that of Master Mechanic Culbertson last Thursday morning, along the line of locomotive engineering.

There were 86 enrolled in the county examination last week. Sup't Bettcher states this to be the largest number ever so enrolled in the county. She sent to the state department over 400 examination papers.

## Armory Hall Remodeled.

Armory hall is being generally overhauled and remodeled. The entire stage has been removed and all this space has been added to the hall, proper, which is thus enlarged some 15 or 20 feet. Five cloak rooms have been provided on the east end of the room, extending entirely across the hall between the exit ways. The hall will be repapered, repainted, redecorated, etc., and when the work is finished will be one of the best appointed and largest halls in the city. The hall will still be occupied by company M, and will be known as Armory hall.

## Planning a New Opera.

Council Bluffs, Ia., July 22.—A new comic opera, "In Nevada," the product of Raymond S. Light of Villisca, Ia., and F. J. Mason of McCook, Neb., is soon to be put on the stage. These men, friends for many years, have collaborated on several pieces of music and Mr. Mason is a song writer of considerable note.—Lincoln Journal.

## National Guard.

At least seven out of twenty-five companies comprising the Nebraska national guard may be required to stay at home because they have fallen short of the minimum number of men required by general orders No. 10, issued by the adjutant general of the guard May 14. This order says no company that has less than forty men and two officers will be permitted to participate in the state camp which is to be held near Omaha. It is announced that this order will be enforced by

Adjutant General Phelps. The war department has a rule that also bears down on the guard. It provides that government pay will not be given to any guardsmen that have not had three months service. This rule will prevent hurried and hasty recruiting just before the annual camp of the state guardsmen. As the Nebraska guard will go into camp this year September 27, recruits hereafter accepted by the companies cannot participate in government pay.

The companies that are now below forty men are L, First regiment, Omaha; hospital corps, Lincoln; M, First regiment, McCook; machine gun company, Beatrice and of the Second regiment, A, of Kearney, E of Holdrege and M of Albion.

## Pay D. of H. Dues.

Mrs. Augusta Anton leaves this week, for Des Moines, Iowa, to be absent several weeks, on her annual vacation. She hopes that all who owe Degree of Honor dues will call and pay them promptly before she departs, end of week.

Each year has found some new improvement on the state fair grounds and when the next fair dates, September 4th to 8th rolls around, the visitor will behold a new grand stand with steel supported roof covering the entire structure, which covers a space of 80x420 feet. This new stand is built on the site of the old stand but a little further back from the track, and contains 6400 comfortable seats, the upper row of which is 40 feet from the ground. An earthen dyke over one-half mile in length and averaging about six feet in height has been constructed around the west of the grounds to prevent flood water from Salt and Antelope creeks from coming on the grounds. Some of the other improvements are a cement floor in the auto building and the installation of turnstiles opened by coins.

The Tribune knows of one man in Danbury who this year produced and sold \$185.00 worth of strawberries on a plot of ground in that town of 75x140 feet dimensions. And the family ate all they wanted besides. He irrigated from a well by a windmill.

Colorado Irrigated Lands near Denver, several thousand acres of fine level land will come under irrigation next spring. Write for full particulars. M. R. Stewart, 335 Empire Bldg., Denver, Colo.

The Arapahoe Pioneer insists that the McCook team submitted to being robbed of the game, last week Tuesday, listlessly and coldly.

You want not only pure spices, but full flavored ones. McConnell has the finest ever used. It will pay you to try them.

Perry had the distinction of having two runaways in one day, end of week. No one hurt, however.

Arapahoe and McCook are scheduled for a game at McCook, July 28th, Friday afternoon.

## SAMUEL MESSNER.

The deceased was born near Pine Village, Warren county, Indiana, June 12, 1851, died July 15, 1911, aged 60 years, 1 month and 3 days.

He was married to Miss Annie Henton, at Indianola, April, 1878. To this union one son, Chauncey S. was born, who, with his mother, mourn the loss of a kind and loving husband and father.

The deceased also leaves W. T. Messner, of Cherryvale, Kansas; J. C. Messner, Oxford, Indiana; Frank Messner, Oxford, Indiana; Daniel Messner, Oxford, Indiana; and two sisters Edith A. Johnson of Denver, Colo., and Mrs. W. A. Minnear of this place to mourn his loss.

The deceased, in company with W. T. Henton, came to Johnson county, Nebraska, in 1873, fitting out an ox team, then they drove to where the Beaver and Sappa creeks join, at which place they fell in with Joe and Eugene Dolph, the four of them coming up the creek together. The Dolph boys were just returning from filing on their homesteads.

The deceased and W. T. Henton were the third and fourth settlers to file on Beaver, west of Lebanon. The deceased, in company with W. T. Henton, George S. Johnson, the Ashton brothers and the Dolph brothers, took a leading part in organizing the county—Danbury News.

## A Big Transaction.

Last week, Wednesday, the record of filings in the office of the county clerk shows one of the heaviest transactions recorded in Red Willow county in a long while. One deal shows the transfer of a half interest of portions of sections 28, 29, 32, 33 and 34, all in township 1, range 28, from Martin Nilsson and wife to W. T. Auld of Lincoln. Consideration \$40,000. Another filing transfers a half interest in the elevator and alfalfa mill at Marion from Martin Nilsson and wife to W. T. Auld of Lincoln. Consideration is \$10,000. Mr. Auld is a well known banker of Lincoln. The property transferred is one of the heaviest and most valuable in this county. Marion Powell of Lincoln is the owner of the other half interest.

## In To The Finish.

Arthur B. Wood advises The Tribune that the report that he has withdrawn from the race for the nomination for county treasurer on the Republican ticket, subject to the decision of the primary election, August 15, 1911, is absolutely false and without any foundation. He requests The Tribune to state that he is in the race for the nomination to the finish and urges his friends over the county to correct this false report whenever they hear it stated. He seeks your votes and will appreciate the same. But remember, he is in the contest to the finish.

## Could Not Accept.

The Tribune's information was slightly ahead of the fact last week. George Kearns was offered the city clerkship by Mayor Adams, but Mr. Kearns declined on account of other business interfering with his acceptance.

## Reseating the Pastime.

The Pastime theatre has been reseated, adding to the seating capacity somewhat and improving the comfort of the seats as well.

Showers aplenty, but little moisture.

## Toilet Soap.

We carry a large line of toilet soap, from 5¢ a cake up.

## MESSNER.

## ATTEMPT TO DESTROY CHASE CO. RECORDS

Saturday Night—Beatrice Blood Hounds Sent to Hunt Down the Incendiaries—Second Attempt.

A second attempt is said to have been made Saturday night, to destroy the records of Chase county, by burning the court house. Some time since, the court house was burned, but the records being in a vault escaped destruction. Awaiting the building of the new court house, the records are housed temporarily in a building on "court house block." Saturday night's attempt is said to have resulted in the loss of at least some of the records.

On this occasion, a hole was made through the wall of the stone vault and some combustible material inserted and set on fire. All records were damaged by the smoke—and some important ones destroyed.

The Beatrice blood hounds arrived in McCook, Sunday night, on 15, and were taken at once by automobile in waiting to Imperial.

Details are very meagre, but indications are that some interesting news may be expected from that source.

## City Council Proceedings.

The city council was in session Thursday afternoon, with all the councilmen present but Woods. City Attorney F. L. Wolff served as acting city clerk, in the absence of Mr. Traver, resigned.

The resignation of City Clerk Frank L. Traver was accepted.

Ordinance No. 202, assuming by the city the rights and rates of the McCook Water Works Co., for the municipal plant, was passed.

Ordinance No. 203, creating the office of water commissioner and prescribing his bond, salary, etc., was passed. The bond is placed at \$5,000 and the salary at \$1,000 per annum.

Ordinance No. 204, providing for an electrical inspector for the city was passed.

A resolution was passed by the council which fixes the salary of the water works engineer at \$55 per month, with house rent and coal. The salary of the assistant engineer was placed at \$50 per month.
