**RAILROAD NEWS NOTES.**

—New flues are being placed in the 1952, this week.  
 —Mrs. V. H. Solliday arrived home yesterday on No. 13.  
 —Paulson and Hoffman are laying off briefly, this week.  
 —Fireman Cotner is off duty nursing a scalded hand for a few days.  
 —Engine 1976 is in for driving brass and similar work. Also the 1765.  
 —Mrs. Floyd M. Berry went down to Wilcox, last night on 10, to visit her folks at home.  
 —J. M. Trammell and son John arrived home, this morning, from a trip to Denver of a few days.  
 —John Murray is acting in Dispatcher Kleven's place, while the latter is away on annual vacation.  
 —George Lichtenberger is looking after Gardner's desk, while W. M. is in the west on vacation.  
 —Engineer Jesse Ray is on Archibald's run on the branch while the latter is absent on vacation.  
 —Dispatcher and Mrs. H. D. Stewart arrived home Tuesday from their outing in the west of two weeks.  
 —Engineer T. D. Morrissey is off duty for a day or two moving his household effects over from Herndon, Kansas.  
 —Mr. and Mrs. C. D. Noble departed on No. 3, Tuesday night for Steamboat Springs, Colorado, on the Moffat line, on an outing.  
 —Dispatcher and Mrs. Leroy Kleven departed Tuesday evening for Wisconsin on train No. 10, on their annual outing and vacation.  
 —Mrs. G. W. Phillips and her mother Mrs. Snook will leave tomorrow, for Colorado Springs, and other Colorado points, on a visit.  
 —Gus Budig and Fred Ebert were passengers on No. 10, last evening, to enjoy the railroad men's picnic at Capital Beach, at Lincoln, today.  
 —Mr. and Mrs. Fred Billings and Mr. and Mrs. Web Stevens went down to Lincoln, last night, to take in the big railroad picnic at Capital Beach.  
 —Mrs. Frank Bussey, who has been visiting Iowa friends for the past month or so, arrived home, Monday on train 9.  
 —G. L. Harmon and Mrs. Will Harmon, went down to Omaha, first of the week, to see her husband, who is ill in the Methodist hospital in that city.  
 —Mrs. Hugh Brown was down from Denver, briefly, first of the week. She reports Mr. Brown recovering nicely. She returned to Denver later in the week again.  
 —W. M. Gardner, right hand supporter in the office of General Foreman Murphy, left on No. 9, yesterday morning for Salt Lake City, Utah, and other points west, on a well-earned vacation of a couple of weeks.

—Walter Campbell went up to Brush, Colorado, Monday on 13, to work in the depot there under Agent Scott.  
 —Mr. and Mrs. S. D. Hughes departed, on Monday night, for Steamboat Springs, Colorado, on an outing.  
 —Engineer Will Archibald is at headquarters today. He will spend a short time at Excelsior Springs before going on east to Chicago.  
 —Engineer Will Archibald of the Orleans-St. Francis line is in Chicago on a long vacation, visiting relatives and friends. The wife and son have both been there for some time.  
 —Mr. and Mrs. John Hunt, Mrs. Whitcomb and Miss Grace Whitcomb left, yesterday, for Steamboat Springs, Colorado, to enjoy a short visit and vacation up on the Moffat line.  
 —Mrs. J. E. Morrissey was a passenger on Tuesday evening on train No. 10, for Galesburg, Illinois, on a visit to Mrs. E. S. Koller. Miss Gertrude is there now, guest of Miss Adaline.

The entries of cattle and horses in the live stock department of the state fair closes on August 18, so as to permit the names and numbers of the animals entered, together with owner and postoffice address to be published in the official catalogue. This book is ready for distribution on the first day of the Fair and in addition to data as to all animals entered for premiums contains daily program of races, aeroplane flights, concerts, shows, speeches etc., which occur each day, September 4 to 8.

**Can Pay at the Store.**  
 Parties owing the Updike Co. may pay their bills at Jones & Co.'s confectionery and news stand on lower Main avenue. Phone 13 or 169.  
 S. S. GARVEY, Manager.

**Exclusive Agent, Exclusive Coffee.**  
 Huber is exclusive agent in McCook for the unexcelled Barrington Hall coffees. Priced at 20c, 25c and 35c per pound.

**The Only Union-Made**  
 overalls in the city are the Carhart. Huber is the exclusive agent. Also jackets and caps. The phone is 97.

**The Main Store—On the Main Street.**  
 If it is the freshest and best in groceries, fruits, vegetables etc., you seek, look no further than Huber's.

For special on dill, sour and sweet pickles see Magner.

Try a Tribune want ad and watch results.

Pure Gold flour from winter wheat at Magner's.

Wants, for rent, for sale, etc., 5c line, in The Tribune.

You will find them fresh and clean at Magner's grocery.

The McCook Tribune. It is \$1.00 the year in advance.

For special on sauer kraut by the gallon see Magner.

Drink "Wedding Breakfast" coffee and be happy. At Huber's only.

Magner sells better groceries than the just as good kind. Try him for an order.

We never hesitate to guarantee Lily Patent flour. At the McCook Flour and Feed Store.

All grades of Oxford flour and each sack guaranteed at the McCook Flour and Feed Store.

Huber's coffee cannot be beat. Coffee from 15 cents to 35 cents, and "Wedding Breakfast" heads the list.

**A STUDY OF MARKETS**

**Some Points Which the Farmer Should Consider.**

By C. W. Pugsley, Professor of Agronomy and Farm Management, Nebraska Experiment Station.

The question often arises in the farmer's mind as to whether he shall market his products at retail or at wholesale. The advantages of the retail method to the producer are usually that he will receive a higher price and that he will be able to market his products close to home. The disadvantages of the retail are:

First—That he is at a greater expense. This greater expense comes in the extra pains he has to make in the boxing and packing, the extra men and teams it takes to deliver to the retail trade.

Second—In the poor price he will receive for any surplus which he may have over and above what the retail demands. As a rule it is not possible for the retailer to get from his merchant as large a price for his surplus as it would be if he were not in competition with him for the retail business.

Third—The loss that will come from dissatisfied customers and bad debts, which he must necessarily have. There will always be some of both no matter how good his product is or how careful he is in the selection of his customers.

Fourth—In the extra expense he will be to in advertising his business. Judicious advertising is a very important thing now days in the retail farm business, and it is an item which must not be overlooked, but usually one which pays good dividends.

It is necessary for the business farmer to keep accurate accounts of the cost of production and the cost of marketing.

Besides, if he is keeping accounts, he will be much better situated to watch the market. I had occasion some time ago to prepare a table from the high and low prices received for corn, wheat, oats, cattle and hogs for a period of forty-two years, these being compiled by the month. I found that during the forty-two years the highest prices were paid for corn more often during the month of May than during any other month in the year, and that the lowest prices was paid during the months of December, January and February; that the average range for this period between the highest and the lowest was 28c per bushel. The reason, of course, why corn is the lowest during the months mentioned is because most farmers have time to haul their corn away at this season of the year, many farmers have not gone to the trouble to build cribs and bins in which to store their corn, and so the market is flooded. In the case of wheat the highest price hit the months of April and May the ofttest, while the lowest price struck the month of August, with a range between the highest and lowest of 51c per bushel. Of course, August is the month when the grain is being threshed, as a rule, and many farmers, from lack of bins, haul the grain to market at this time of the year. With oats, the highest prices are in the months of May and June, while the lowest are during August, with an average range of 20c per bushel. The same reason applies here that applied with wheat. In the case of cattle, the highest prices have struck the ofttest in the months of March, April and May, and the lowest during November, December and January, the average difference being \$1 per hundredweight. With hogs, the highest prices are paid during July, August and September, and the lowest during December and January, with an average range of \$1.50 per hundredweight. Now the farmer, in figuring whether or not he can afford to hold his grain until the season of the year when he will most likely receive the highest price, must take into consideration the following items: The cost of the construction of bins and the interest on money invested in same; the value of his time during the season when the highest price occurs; the shrinkage of the grain, which will always occur in carrying it from one season to another; the loss from weevil, leakage, mice and other things which in some localities are doubtless heavy. In reference to the cattle, he must take into consideration the price of corn at the two seasons of the year, the availability of labor, the price of hay, and the price which he would have to pay for his feeders. With hogs, he must remember that the months of July, August and September are hot months and that there will probably be a greater loss when he markets at this season. Let him also remember that the most profitable weight in which to market a hog is from 200 to 300 pounds, and that this weight should be attained at the age of from eight to twelve months. This makes it necessary for him, if he is going to hit the highest point in the August market, to raise fall pigs, and in the raising of these fall pigs he must count the necessary cost of a good house, the extra care it takes to carry them through the winter months and the greater loss there is with pigs of this class. He must also remember that the pigs are small during the winter and do not take a great deal of feed and that by the time his spring pastures are ready, his pigs are at an age when they will gain the most rapidly on pasture with a liberal allowance of corn.

These are only some of the points which the farmer should consider.

**Selecting Your Fall Clothes Here Is Neither Problem nor Experiment**

**RATHER A PROVEN PLEASURE AND PROFIT**

Because we sell you the beautiful and tried L. & H. Suits and Coats Nationally reputed for their artistic outlines and correct fit.

**Improvement on the Importations**

Means a happy, practical blending of Paris style with American requirements.

**IN MEN'S WEAR**

Whether a question of service, originalities or clever exclusiveness we can fulfil your wants to the letter. New fall goods are arriving daily.

**Ederheimer-Stein Fit Form Clothes**

Come in and look them over. You're welcome I'm sure

**C. L. DeGROFF & CO.**

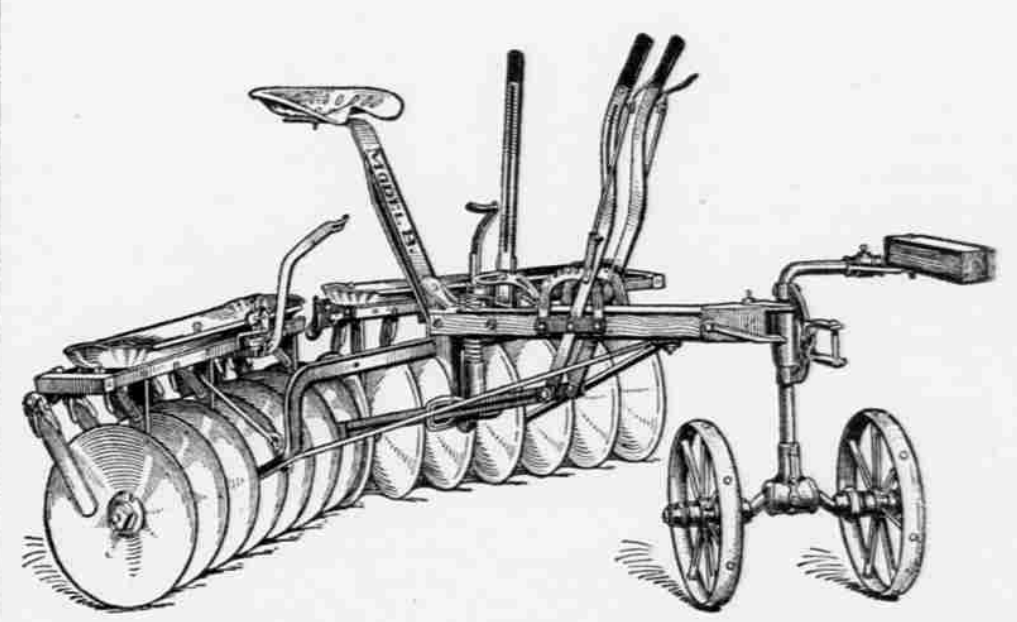

EVERYTHING TO EAT AND WEAR

Ederheimer-Stein Young Men's Clothes

Sells the

**John Deere Model "B" Disc Harrow**

The Only Real Flexible Disc Harrow Manufactured.

- 1 The Model "B" has a patented third lever with spring pressure to make discs penetrate at even depth, full width of harrow.
- 2 The Model "B" patented spring pressure lever gives great flexibility and makes very thorough discing on rough ground.
- 3 The Model "B" patented spring pressure lever does away with the stiff frame used on all other disc harrows.
- 4 The Model "B" patented spring pressure lever allows both gangs to work independently and oscillate on uneven ground.
- 5 The Model "B" patented spring pressure lever can be tightened for dead furrow or loosened for ridge in center.
- 6 The Model "B" has hard maple boxes, soaked in oil, with dirt proof oil tubes.
- 7 The Model "B" has soft oilers or hard oilers, as desired.
- 8 The Model "B" has the best adjustable, oscillating scrapers used on any disc harrow.
- 9 The Model "B" has 2 leaf seat spring, steel lever ratchets, heavy steel riveted frame, and heavy disc blades, with fine cutting edge.
- 10 The Model "B" can be furnished with round or cutaway blades, and with or without tongue truck or seeder attachment.

TRY THE MODEL "B" DISC HARROW DIAGONALLY ACROSS YOUR FIELD, ON ROUGH GROUND, AND SEE WHAT FINE WORK IT DOES; CUTS OUT THE MIDDLE.

The Tribune—\$1.00 the year.  
**BEGGS' BLOOD PURIFIER**  
 CURES and Purifies the Blood.

**PRELIMINARY ANNOUNCEMENT**

Miss Bertha Schmauder of St. Joseph, Mo., who will be in charge of the Trimming Department, will arrive in the city, last of this week, and on next Monday morning our Trimming Work will be in full swing. I wish to add, however, that we have now on display a nice selection of.....  
**PATTERN HATS, TAILORED HATS, STYLISH FELTS, READY-TO-WEAR HATS**  
 and will be more than pleased to show you and assist you in making selections from our advance showing of this fall's attractive millinery.

**Mrs. J. P. Nies**  
 Upstairs in GeGross's Department Store
