

Largest Circulation in Red Willow Co.

Entered at postoffice, McCook, Nebraska, as second-class matter. Published weekly.

Joseph E. Cobbe, compiler and annotator of the statutes of Nebraska, twice an unsuccessful candidate for the supreme judge nomination on Republican ticket, died at his home in Beatrice, on Tuesday, of appendicitis. The judge has for thirty years been an active citizen in legal and political circles in Nebraska. His death removes an able jurist and a citizen of untarnished character.

The seed wheat problem is causing some thought. It is the general opinion, however, that this is a most favorable fall for the planting of small grain, and it should not be overlooked. It is of large importance and is receiving considerable attention from those who appreciate the value of the crop to this country, and especially of the early money it usually brings to the farmers.

When things go wrong — as things will go in this old bully world of woe—we like to have a goat; to place a hefty load of blame upon some other fellow's frame our talents we devote. When I rise from my downy couch and find I have a large blue grouch, I say: "It's Jimpson's fault; I never liked that fellow's curves; to see him 'round gets on my nerves; it's time to call a halt. I might be happy as a bird if that man Jimpson was it terred a hundred fathoms deep; but while he still infests this sphere and hangs around this village here, my province is to weep." But when I've soaked my head a while, subdued the mild attack of bile, I know it isn't true; for all the sorrows that I bear I raised myself, with tender care, and nursed them as they grew. When some affliction comes to rack your bosom, try and trace it back; you'll find you sowed the seed; your happiness and sorrow both, when analyzed are but the growth of your own word or deed. So, neighbor, be a dead game sport, and do not paw around and snort and blame some other guy, when sorrow grabs you by the heart and rends your bosom all apart, and tears bedim your eye.—Walt Mason.

Dundy County Fair.
The Dundy county fair will be held in Benkelman, September 1 and 2. The Leonard Amusement Co., of Kansas City, will provide all the amusements for the two days. They are preparing for a good racing program. Base ball will be a prominent feature. They announce a strong stock and farm products exhibit. If you can spare a day or two it will be pleasantly and profitably spent at Benkelman on these dates. Paul Jones, Benkelman, is secretary of the association.

Appreciated the Post Cards.
I thank the people very much for the many beautiful cards sent me.
LAURIE MILLER.

In this connection The Tribune wishes to add, that Laurie received 230 post cards, some of them very pretty, and from many places. He says that they came from all over the country, from Massachusetts, California, British Columbia, and all of them in response to a few lines inserted in the McCook Tribune, a few issues since.

Political Advertising.

Furnas county and Beaver City have the honor of being the home of the candidate of the Peoples Independent and Democratic nominee for district judge. R. J. Harper of this city is the only candidate for the nomination on those tickets, and he will consequently be nominated without opposition. Mr. Harper is a lawyer who works. He did not stop studying law as soon as he was admitted to the bar. He avails himself of every spare moment to delve deeper into legal lore. Should he be so fortunate as to be elected he would bring no disgrace to the bench or the friends who have urged him to make the race.—Beaver City Times-Tribune.

MISS SACKVILLE-WEST.

Diplomat's Daughter Appears as an Hour in Sensational Dance.

Miss Flora Sackville-West, daughter of a former British minister to the United States, recently made her debut in London as a dancer. Her performance is entitled "La Danse des Fleurs." The curtain rises upon the interior of a seraglio whose owner, a native prince, has been captivated by a houri whose face he has seen but once. He sings of his love and, exhausted, sinks into a sleep. He dreams, and in his dreams the girl appears and dances for him. As he awakes she is bending over him. He snatches aside the veil that hides her face and seizes her, but she eludes him.

The first appearance of the beautiful young woman, whose mother was Josefa Duran de Ortega, the celebrated Spanish dancer, and who until after

MISS SACKVILLE-WEST.

Sackville-West's death was thought to have been the wife and widow of the diplomat, created quite a stir.

Miss West was prominent in the suit brought by her brother in which it was decided that her father never had been the husband of Mme. de Ortega. When it was announced that she would go upon the stage she was billed as "the Hon. Flora Sackville-West, daughter of the late Lord Sackville."

The Sackville family objected to the use of the name, and much printing was withdrawn. She is still known, however, as Flora Sackville-West.

LATEST FLYING MACHINE.

Kentucky Inventor's Quadriplane Makes Many Short Flights.

Several hundred short flights, none of which has been more than a mile in length, have been made with this curious quadriplane among the mountains of Carter county, Ky. The inventor is M. B. Sellers, who has been experimenting with this type of machine several years.

The four supporting planes are placed one above the other in step formation,

QUADRIPLANE IN FLIGHT.

the upper plane being in advance. It is claimed to be one of the largest aeroplanes in the world, and the total weight, including the operator, is only 250 pounds. The first model, complete with engine, propeller, etc., only weighed seventy-eight pounds, but the weight of the later models has been increased. The planes have a spread of twenty feet, and the total sustaining surface is 250 square feet. The speed attained in the short flights with a five-horsepower two cylinder French motor, direct connected to the propeller, has been about twenty-six miles an hour.

LOCUSTS ARE COMING.

This is the Summer For the Seventeen Year Variety.

The seventeen year locusts, which are due to return to plague the American farmers this summer after being absent since 1894, have made their appearance in the vicinity of New York city.

In the last previous visit the locusts literally covered suburban New York, stripping trees, bushes, hedges, lawns and truck farms of everything green and then, moving in vast clouds which

THE SEVENTEEN-YEAR LOCUST.

obscurd the sun, to fresh fields. The individual locusts lived only a few days, but each female in that time found time to lay about 500 eggs on the branches of denuded trees.

When the larvae had hatched they fell to the ground and burrowed straight down for more than a foot. There they are said to have rested for seventeen years before the process of hatching was complete, and as soon as the frost leaves the ground they will dig their way to the surface and appear as small oblong shells.

Socialist Is Alone In Congress

VICTOR L. BERGER of Milwaukee, Wis., the only Socialist ever elected to congress, intends he shall be heard. He declares that he will vote for every bill, no matter by whom introduced, "which gives greater political freedom or economic security to the working class, which safeguards the toilers at their tasks, which takes women and children from the factory, which lessens the burden and misery of the workers and adds to the leisure and comforts."

Historic Occasion.

Said Berger: "The advent of a new party in the congress of the United States is always an occasion of historic importance. It is especially so in this instance, because the Socialist party is an international party which for years has been represented in the national assemblies of every civilized country in the world.

"While America is the latest country to win this representation, it is the most promising of all countries for a general Socialist triumph.

"Furthermore, perhaps no other country, certainly no European country,

REPRESENTATIVE V. L. BERGER.

can establish socialism by itself. Every European country is absolutely dependent upon other countries and even upon other continents for supplies of food and raw material. America, on the other hand, can produce a surplus of everything needed by civilized man. It is therefore the only country which can establish a Socialist commonwealth without regard to other countries.

Party's Advent Important.

"The advent of the Socialist party in congress is further important for the reason that every political movement in history other than the Socialist movement has been based upon the exploitation of one set of men by another set of men. The only party that stands for the end of exploitation is the Socialist party.

"Of course I realize that I am but one congressman among nearly 500 in the two houses. I cannot expect to revolutionize the country single handed."

He Worked It a Year Ago.

I have a little garden. At present it is bare. No sprouts are bravely growing; No buds are bursting there.

My garden is deserted, 'Tis barren, dismal, drear, And I intend to let it Remain that way this year.

- The petition of Robert MeQuilkin, Jr., A. F. Trumble and others, asking for the establishment of a public road, and also the vacation of a public road, was read and considered. The board finds that James Madison is the only owner of land along the line of proposed road, and that said James Madison has waived the issuance and service of notice of the pendency of the said road petition.
- Further, that the public good requires the establishment of said road and the same was granted, establishing a road as follows: "Commencing at the intersection of the established county road between Cambridge and Bartley with the half section line running north and south across section 35, township 4, range 26, in Red Willow county, 4 chains and 70 links south of the northeast corner of SE of NW of said section 35, and running thence in a southwesterly direction across the south half of the northwest quarter of said section 35, and intersect the public road at a point 60 rods east of the west line of said section 35, on the half-section line running east and west, terminating thereat, correct survey of said road to be made by order of county board.
- Also vacating that part of the Cambridge and Bartley county road between said points, which road runs about 62 rods south and 100 rods west from starting point.
- Said new road is to be known as Road No. 441, and the county clerk was instructed to notify the overseer of highways of district No. 1, to open said road and vacate the old road.
- The claim of \$150.00 of James Madison, for damages caused by the location of above named road across the south half of the north west quarter of section 35, 4, 26, was audited and allowed at the sum of \$150.00 and the county clerk was instructed to draw a warrant on the county general fund, levy of 1911, in payment thereof.
- On motion the board adjourned to meet August 23, 1911.
- F. S. LOFTON, Chairman.
- Attest:
Chas. Skalla, County clerk.

Cut Prices on Coal.

During the months of July and August, on lots of three tons or more, we will make following prices:

- Canon Lump, \$8.00 per ton
- Maitland Lump, \$7.50 per ton
- Maitland Nut, \$7.00 per ton
- Maitland Pea, \$6.50 per ton
- Lignite Lump, \$6.50 per ton
- Iowa Lump, \$6.50 per ton
- Pennsylvania Nut, \$12.50 per ton
- Pennsylvania Stove, \$12.50 per ton
- Pennsylvania Furnace, \$12.00 per ton
- Colorado Nut, \$12.00 per ton

These prices are \$1.00 less than last winter and will save you some money by putting in your winter coal now.
