HELPFUL HINTS ON HAIR HEALTH.

Scalp and Hair Troubles Generally Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how clean the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat band is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes

the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in McCook only at our store—The Rexall Store—L. W. McConnell.

Upholds Nebraskan's Plea.
Lincoln, Oct. 6.—(Special.)—In declaring the workingmen's compensation act constitutional the Washington state supreme court recently upheld in detail a brief submitted to that tribunal by George A. Lee, a former University of Nebraska man, whose parental home is at Humboldt. The Washington law is one of the first framed along the lines which it covers and is similar to one which it is believed will be submitted to the next Nebraska legislature by the commission appointed for the purpose of drafting such a measure.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all dealers.

The McCook Tribune.

By F. M. KIMMELL

Largest Circulation in Red Willow Co.

Entered at postoffice, McCook, Nebraska, as second-class matter. Published semi-weekly.

To the Voters of Red Willow County.

I take this means of expressing my sincere thanks for the help of so many friends in the recent primary election in which I received the nomination for county judge on the Republican ticket.

I was and always will be especially grateful for the majority given me by my friends in fourteen different precincts. If elected again I surely will strive to merit the good will and confidence shown me by the good people of this county. Sincerely,
J. C. MOORE.

The voters of Red Willow county will not be unmindful of E. B. Perry of Cambridge, Republican nominee for judge of the Fourteenth district at the polls in November. Mr Perry offers splendid qualifications and fine manhood for the high and honorable position he seeks. These two facts alone will assure him of substantial vote in this county.

Efficient service is the highest recommendation one can offer in seeking an election to office—be it public or private. Chas Skalla can claim all the benefits to be derived from that endorsement. In many respects his conduct of the office of county clerk has not been equaled in the history of the county. It stands as a monument to his faithful, tireless and intelligent work and is his claim for your vote.

A residence of many years in McCook has brought E. F. (Dick) Osborn to the favorable acquaintance of a wide circle of friends. He is now before the voters of Red Willow county asking their support for the office of sheriff, having received the Republican nomination at the recent primary election. Dick has served as deputy sheriff and in other similar official positions, consequently is not seeking an office for which he is not qualified or in which he is inexperienced. On the contrary it is conceded that he is peculiarly fitted by nature and qualified by experience to give good account of himself in the office he seeks. He is a young man of excellent character and of good ability. He is altogether deserving of your vote.

The name of Stilgebouer has stood in Red Willow county for over quarter century for high character and for the best citizenship. Among the Republican nominees, this fall, is a man who honorably wears the name—we refer to William J. Stilgebouer, the Republican nominee for county commissioner. Most of his life has been spent in this county, in the Beaver valley near Danbury. He is a man of careful and prudent habits. In business he is economical and conservative. His personal character is of the sterling sort you can depend upon and tie to. His long residence here acquaints him of the needs of one of Nebraska's most progressive western counties. His training assures the county of a careful and economical commissioner, should he be the choice of the people of this county for that important office. Remember William J. Stilgebouer when you vote in November.

The honest and conscientious manner in which J. C. Moore has served the people of Red Willow county in the office of county judge naturally appeals to the thoughtful and conservative voter and citizen—and particularly so in his probate work, a department of the office work growing in importance. There is no hesitancy, no matter how important and valuable the trust or estate in submitting the matter to County Judge Moore's care. A man and officer of the strictest integrity, of unquestionable fairness, and of motives only for the highest good, he has in past years strongly appealed to a large and solid and faithful following at the polls. A life-long Republican a resident of Red Willow county since its very infancy, an upright citizen, fearless and constant for the right he is entirely deserving the support of his party and of all others who stand for the best things in our national life. A vote for J. C. Moore will not be amiss or in vain.

No Limit.

The Christian Endeavorers of the state will notice a new feature in connection with their great convention to be held in the Lincoln Auditorium, Oct. 26 to 29, 1911. No limit is placed upon the number of delegates from any church. Some societies will send their entire membership. This was found to be necessary on account of the international scope of the program, and a general protest went up in regard to the representation being limited. Besides this, entertainment is to be furnished on the Harvard plan, i. e. lodging and breakfast free.

The program is complete with specialists in every line of Young People's work, and as it is particularly a young people's convention, a large representation is assured. 2500 to 3000 delegates are expected. Any desired information in regard to the convention can be obtained by writing Mr. Ray G. Fletcher, 361 Fraternity Bldg., Lincoln, Neb.

Makes Clean Kitchens

You can make your kitchen fairly shine with cleanliness, with less labor and in less time than it takes to clean it with soap, soap powder or other cleansers if you use

Old Dutch Cleanser

Every speck of dirt is quickly and easily removed from floors, woodwork, taps, metal work, windows, painted walls, cooking and dairy utensils—even the kitchen stove is cleaned and brightened by this wonderful little boon to housewives. Absolutely free from all harmful chemicals.

OUTLOOK ENCOURAGING

Western Fruit Growers Have Very Successful Season.

Not since the inauguration of the era of systematic and scientific development of western resources has horticulture presented such encouraging prospects as during the present season in the vast empire that lies beyond the Missouri valley. From every fruit growing section come reports of record breaking yields, either in quality or quantity. The unprecedented conditions that exist give assurance that one of the finest displays of fruits ever assembled will be shown in Omaha when the doors are opened on the annual land show, on Oct. 16, continuing until the 28th.

SOME SAMPLE BOXES OF APPLES AT OMAHA LAND SHOW.

This insures some remarkably attractive exhibits for the forthcoming land show.

In most of the fruit growing districts the crop is not only larger, but the quality is extraordinary fine. The growers have adopted improved systems of grading and packing, so that they are enabled to receive maximum returns for their products. The exhibits at the Omaha Land Show will include practically every grain and fruit that is grown in the west, as well as the minerals and oils that are taken from the earth, and it will be truly a "Western Land Products Exhibit."

Extraordinary Feature.

Machinery hall will be something extraordinary in connection with the land show proper. In former years the machinery department was one of the features of the corn exposition in Omaha, and it was greatly missed at the last land show. The management, therefore, hastened to restore this feature and, in addition, make it the most complete of anything ever seen here. Machinery of all kinds will be shown, from small hand tools to the big tractor. In addition there will be practical demonstrations with tractors. Since there is to be a vast display of fruit, Machinery hall will be well stocked with fruit cultivating implements.

The interior scene of the big Coliseum when the doors are thrown open to the throngs on Oct. 16 will be one of dazzling magnitude. Many thousands of electric lights will be employed and the spectacle will be grand. One of the spectacular features will be the panoramic reproduction showing the "Conquering of the West" from the glacial period down to the present time. This is the best production of its kind since that of Creation at the St. Louis World's fair.

NOVEL FEATURE IN LAND SHOW DISPLAY

Instead of taking a ride on a merry-go-round, visitors to the Omaha Land Show can take their "joy rides" on a gang plow behind a gas tractor. A big machinery exhibit will be a feature of the land show and in connection with this department there will be demonstrations of plowing by power. A twenty-five-acre field, conveniently located, so as to be easily reached from the Coliseum, has been secured for the purpose. There actual plowing work with the big plows will be shown. Such field exhibits have been features of Canadian expositions for years, but nothing as extensive as this has been put on in the United States before. The Hart-Parr company of Charles City, Ia.; the Gas Tractor company of Minneapolis, the International Harvester company of America and Fairbanks, Morse & Co. of Omaha will show gas tractors; the Rumely company of LaPorte, Ind., will show their oil burning engine and the Aultman-Taylor Thresher company of Mansfield, O., will plow with a steam tractor. Gang plows from the John Deere company and the Parlin & Orendorf Plow company will be used in the field tests, and besides these there will be fine exhibits by the J. I. Case Plow company and by the Oliver Chilled Plow works of South Bend, Ind.

Not to be outdone by the tractor people, the Hackney Manufacturing company of St. Paul will show how plowing can be done with their auto-plow, where the plow and tractor is combined. In addition to the plowing demonstration, showing how big tracts of land can be put into fine condition for seeding in a short time, there will also be an exhibit of corn shredding, with field demonstration of the work. The land show will be held from Oct. 16 to 28 and the plowing exhibits will be given on Tuesday and Thursday of each week.

THEY'RE ALL ALIKE

Ask any man past fifty years of age and he will tell you of some time in his life when he was sailing high. Things were coming his way. There are few exceptions. Why is he poor now? Well there are various reasons. One thing is sure. It is not because he placed his money in a sound bank and checked it out only when safe investments were secured. There are more ways to lose money than to make it. If you are making any money, no matter how small the amount, start the saving habit by opening a bank account.
