ENTERTAINMENT COURSE.

Committee Now Presents Its Talents and Scheduled Dates.

The Tribune has pleasure in printing the fact that the Citizens' Entertainment committee is this issue able to present for its readers an announcement of its course for the winter, of lectures and musical numbers. By reference to their advertisement on the first page of this issue a somewhat detailed foreword of the course can be read. It comprises three fine musical numbers and two splendid lectures. The committee believes they have secured a worthy and meritorious course for the winter at a reasonable figure.

At the outset The Tribune wants its readers to know that this is not a money-making scheme in any sense of the word. The committee is composed of Rev. L. E. Lewis, Rev. W. M. Patton, Rev. D. L. McBride, Rev. E. T. Bayne, Rev. A. J. R. Goldsmith, Sup't W. T. Davis, and Messrs. L. W. McConnell, C. W. Barnes, J. R. McCarl, F. M. Kimmel, E. S. Howell, C. F. Heber, E. E. Culbertson, Charles Skalla, Esq. Worth Monks, Dr. C. L. Fahnestock. Their services are each and all free, and their only purpose is to offer the people of McCook some first class attractions at a minimum of cost. To this end they hope to have the enthusiastic and earnest cooperation of the people of McCook.

The season tickets will cost \$2.00 for the five numbers, and half that amount or \$1.00 for children under twelve years and for school children. The handling of all the tickets has been placed with L. W. McConnell. Sup't. Davis will have charge of the school tickets.

The special committee in charge of the sale of the tickets is L. W. McConnell, Dr. C. L. Fahnestock and Rev. W. M. Patton. These gentlemen will immediately inaugurate a campaign for the sale of the season tickets, of which at least four hundred must be disposed of to assure the financial success of the course.

In order to relieve the committee of some of this work, it has been decided by the committee to give a free season ticket to any one who will sell twelve adult sea-

son tickets, or an equivalent number of children's tickets. Details can be ascertained from either Mr. McConnell, Dr. Fahnestock or Rev. Patton.

Single admission tickets will be sold as follows: For each of the musical numbers, 75 cents; for the two lecture numbers, 50 cents each. It will be seen that it will be largely advantageous to all to buy the season tickets.

Holders of season tickets will be given the advantage of one day in making reservations of seats over holders of single admission tickets in each entertainment number.

It is the ardent hope of the committee that the people of McCook will respond to this opportunity with a prompt and liberal purchase of season tickets.

The Argan Tree.

Among the most remarkable trees of the world is the argan, which abounds in southern Morocco, but is seldom seen elsewhere. A "forest" of argans has a curious scattered appearance because the trees grow singly and far apart. They are very leafy, but seldom exceed twenty feet in height. The branches put out horizontally and begin a yard above the ground. Sheep, cattle and camels feed on the leaves, and goats will stand on their hind legs to reach them, but horses and mules refuse to touch them. The wood is very hard and extremely useful to the natives, who make charcoal from it. The fruit, resembling a large olive, is used to feed cattle and to manufacture a valuable oil. It also furnishes the principal sustenance of many of the poorer natives.—Scientific American.

First Veterinary School.

As nearly as the facts can be got at the first veterinary school was founded in the city of Lyons, France, about the middle of May of the year 1761. Since 1761 veterinary schools have spread all over the civilized world, especially in Germany, France, England and the United States of America, in which advanced countries the horse has the benefit of as fine a science as that which exists for his master, man.—New York American.

History of the Sardine.

The sardine has been honored with a history, the writer being no less a personage than a member of the Societe Academique of Nantes. The sardine in the early days was brought in in small boats. Then came a police ordinance in 1738 in the interest of the poorer classes against the monopolist. Owing to the police ordinance the sardine was a source of livelihood to the Bretons. Joseph Cillon, whose name is still revered in Nantes, first prepared the fish with oil. His venture was a great success, and he had many imitators. In 1835 there was something like a crisis in the sardine industry. Millet, who was the chief curer, had his factory indicted as a nuisance, but the difficulty was overcome by removing it from the center of the town to the shore. Although the fame of the sardine was firmly established, it was only in 1855 that it received its apotheosis. Then it was shown in the Paris exhibition.—London Globe.

Something to Show.

"Do you mean to tell me," demanded Mr. Sillicus angrily, "that you actually ordered \$10 worth of groceries of a total stranger at prices less than any wholesale dealer can buy them and paid for them in advance?"

"Yes, that's what I said," replied the better half.

"And you hadn't sense enough to see that it was a barefaced swindle!" roared Sillicus. "Well, your money's gone now, and you have nothing to show for it."

"Why, yes, I have, John," said his wife. "I have the man's receipt for the money."—Lippincott's.

A Big Job.

"That is old Jed Wombat, our oldest inhabitant."

"Why doesn't he get his whiskers trimmed?"

"Well, he does start a dicker with the barber every winter, but they ain't never been able to reach no agreement yet."—Washington Herald.

His Cure.

"I have cured myself by learning to chew my food."

"What have you cured yourself of?"

"The belief that if I remained away from the office for more than ten minutes at lunch time everything would go to the dickens."—Chicago Record-Herald.

Forgot His "First Aid."

"But how does she know that he doesn't love her?"

"She fainted away the other evening, and he didn't kiss her before he hollored for help."—Houston Post.

As a Last Resort.

Mother—I saw you kissing my daughter.

"Yes, but only out of desperation. I couldn't think of anything to say to her."—Pileende Blatter.

COMING TO McCOOK

Associated Doctors, Specialists,
Will Be At The Leading Hotel.

FRIDAY, NOV. 3, AND WILL REMAIN

ONE DAY ONLY

Remarkable Success of These Talented Physicians in the Treatment of Chronic Diseases.

OFFER THEIR SERVICES

FREE OF CHARGE

The Associated Doctors, licensed by the state of Nebraska for the treatment of deformities and all nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

These doctors are considered by many former patients among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard indeed to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs and those afflicted with long standing, deep seated chronic diseases, that have baffled the skill of the family physician, should not fail to call.

According to their system no more operations for appendicitis, gall stones, tumors, goiter or certain forms of cancer. They were among the first in America to earn the name of the "Bloodless Surgeons," by doing away with the knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two-ounce bottle of your urine for chemical analysis and microscopic examination. Deafness often has been cured in sixty days.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit this time may help you.

Remember, this free offer is for one day only.

Married ladies must come with their husbands and minors with their parents.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller." For sale by all dealers.

Quality and price, courtesy and promptness in delivery are making for success at the McCook Flour and Feed Store.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.
