ARAPAHOE 5; McCOOK 33.

McCook defeated Arapahoe in a poorly played game of football last Saturday by the score of 33 to 5. Arapahoe scored after about three minutes of play. Arapahoe's left end broke thru and blocked a punt and then grabbed the ball and ran 35 yards for a touchdown. Try at goal failed. McCook received the kick off and began a series of end runs and forward passes that carried the ball to the 4 yard line, where Emerson carried it over the line. Schmidt kicked goal. Schmidt kicked off to Arapahoe. The ball see-sawed back and forth, with McCook having a little the best of it. Knowles received the ball on his 30-yard line and on an end run carried the ball over for the second touchdown. Schmidt kicked goal. In the second quarter Schmidt made two touchdowns on out side tackle smashes. He kicked goal both times. Also booted a pretty goal from the field. On the first down in the second half, Schmidt carried the ball 55 yards for touchdown. He kicked goal. This ended the scoring. McCook's team work was very ragged. Arapahoe played the better game in the last half, but the defensive work of the McCook team was good enough to throw the Arapahoe's back for losses. McCook would get the ball only to lose it by repeated fumbles. Schmidt, Miller and Emerson played the best game for McCook. The work of the rest of the team was good but it lacked unity. Curry played the best game for Arapahoe. The attendance was very small. The Athletic Association is in debt now about \$50.00. The boys play Oxford next Friday. The management has gone to a good deal of expense in bringing the Oxford team here, but they believe it will be a close fast game. Everybody come out and give the team and the management your support. McCook line-up: Cox-Huber, r e; Hughes, r t; Willetts, r g; Benjamin, e; Miller-Turner, l g; Gray-Miller, l t; O'Brien, l e; Schwab, g; Schmidt, r h; Knowles-Gray-Jeffries, l h; Emerson, f b. Touchdowns, Knowles, Emerson Schmidt, 3; Curry. Goals from touchdown, Schmidt; field goal Schmidt. Referee, Beltzer; umpire, Archer; head lineman Bayne.

In Spookland.

The halloween entertainment given by the Epworth League in the M. E. church, Tuesday night, was a great success, and speaks well for the energy and ingenuity of its promoters. The guests passed thru the south basement entrance into the Elves' Cavern, whence in beavies of ten, sheeted and masked, were guided thru the wonders. They passed up the Enchanted Stairway, where wails of the departed smote their ears; they endured the agonies of being changed into goblins midst the formaldehydic vapors of the Witches' Cauldron; they felt the soothing effect of enchantment and incense as they regained human form in the Mystic Shrine; they were guided to the Devil's Slide by which precarious route they entered the Demon's Den with its yards of serpents coiled around; they gazed upon Hades where Satan forked over the flames; they toiled up the Witches' Flight into the light of the stars; they groped their way down the Vale of Darkness with its silent horror; they were entertained on Cannibal Island, touching eyes, ears, etc., of the man-eaters' victims; they Peeped into 1912 where the bursting of paper bags revealed written prophecies they were led into Diamond Hall to look upon its scintillant beauties; finally they were ushered in to the dining room where they sat at tables decorated with black paper cats under the light of jack o' lanterns. In the dining room also were two fortune telling booths presided over by Mesdames Eckman and Howell, a Wheel of Fate and other amusements. Nearly a hundred people attended the affair. A specialty of typewriter supplies at The Tribune Shop. Papers of all weights, sizes and qualities. Ribbons for every machine, carbon papers, manuscript covers, etc. All kept in stock.

TIM SULLIVAN'S LAND TAX

Big Politician Has Scheme to Reduce Congestion in New York Tenement Districts. Big Tim Sullivan has been looking about a bit in his Bowery kingdom, and as a consequence the brainiest man in Tammany has hammered out a land tax system, which he believes will reduce the congestion in the tenement districts, a New York correspondent of the Cincinnati Times-Star writes. "People in my district sleep three and four to the room," said he, "and many of the rooms have never had a ray of sunlight in them. They have to live that way because the rent is so high. The tenement owner who is willing to tear down his old building and put up a new one, with sunlight in every window and a bath in every flat, is afraid to do so, because he knows that his taxes would go skylarking up. The poor devils who rent his flats would in the end pay for that higher rate of taxation. Every eighth child born in New York city dies because its mother has to go to work or starve. At the same time there are 40,000 acres of good land lying idle within the city limits." Therefore Sullivan has a plan to cut the taxes on improved real estate, and increase the taxes on vacant property. He figures that owners would have either to build on their land—which would relieve the downtown congestion—or go to farming it, which would indirectly have the same effect. "A watch dog on a farm lives better than many of my constituents," he declares, "and yet, after an experience of a lifetime down there, I have yet to find the equal of the families on the streets near the Bowery for industry and economy and courage. Maybe my land tax plan is Bowery political economy, as has been charged. I like it all the better for that fact. The Bowery has had to put up with Fifth avenue political economy for a good while."

Rather Exaggerated.

It was his first experience in the dental chair. "Great Josephus!" gasped the victim as he leaped upward. "What was that you put in my mouth?" "A rubber dam, sir," responded the dentist politely. "Rubber dam? H'm! I thought it was the Gatun dam from the way it felt."

FEST OF THE SOUTH PACIFIC

Jack London's Description of the Now-Nows, Which Give's the New Now-Nows.

The following story from Jack London's recently published "The Cruise of the Snark" indicates that the Jersey mosquito has a rival in the "now-nows."

"I made the strategic mistake of undressing on the edge of a steep bank where I could dive in, but could not climb out. When I was ready to dress I had a hundred yards' walk on the bank before I could reach my clothes. At the first step fully 10,000 now-nows landed upon me. At the second step I was walking in a cloud. By the third step the sun was dimmed in the sky. After that I don't know what happened.

"When I arrived at my clothes I was a maniac. And here enters my grand tactical error. There is only one rule of conduct in dealing with now-nows. Never swat them. Whatever you do, don't swat them.

"They are so vicious that in the instant of annihilation they eject their last atom of poison into your carcass. You must pluck them delicately between thumb and forefinger, and persuade them gently to remove their proboscises from your quivering flesh. It is like pulling teeth. But the difficulty was that the teeth sprouted faster than I could pull them, so I swatted, and so doing filled myself full of their poison.

"This was a week ago. At the present moment I resemble a sadly neglected smallpox convalescent."

HISTORIC MOUND AT MEMPHIS

On Its Summit De Soto Was Received by the Chickasaw Chief in 1541.

Under the lead of the residents of the southwest portion of the city, there is a renewal of activity for the purchase of Jackson Mound Park and a small amount of adjacent property as an addition to the public park system. People favoring the purchase have drawn up a petition which sets out why they think that the property should be purchased by the city.

"These mounds have a historical value that is beyond calculation. Upon the summit of one of them, in May, 1541, De Soto was received by the Chickasaw chief. This was twenty-three years before the birth of Shakespeare; it was sixty-six years before Jamestown was settled; it was seventy-nine years before the Pilgrims landed at Plymouth Rock. It is, therefore, the oldest landmark in the United States. Beneath the bluff here during the Civil war the gunboat Arkansas was built.

"Being such a historical landmark, it is highly important that the city should own and keep sacred forever this memorable spot."—Memphis Commercial Appeal.

Wanted Dog Massage.

Because Alexandria hotel, Los Angeles, refused to massage her bulldog with electric appliances, Mrs. Henry T. Phillips and maid of New York refused to register. Mrs. Phillips had three maids, a man servant, and a brindle bulldog. "Before I register," said Mrs. Phillips to the chief clerk, Mr. Sibbard, "I must be assured that my dog will have sanitary quarters with plenty of light and sunshine. I do not expect to take him to my rooms, but he must be massaged by the barber with electric appliances."

Mr. Sibbard gasped his astonishment, then politely and gently declared that "it was against the rules." "Very well, then," the woman snapped, indignantly. "Come, give me the chain boy. Come, Brutus," and she swept from the lobby to a taxicab.—Exchange.

Smokers' Faces Tell It.

A cigar dealer in one of the stands at the Union depot in Kansas City can tell what kind of a cigar a man smokes just by looking at him. He becomes quite proficient in reading men's faces so far as their purchases of tobacco wares is concerned. "I have been in the cigar business 26 years," he said. "It has been my experience that a dark haired man, with a dark complexion, wants a heavy smoke, a 'Havana' cigar. A light haired man with a fair skin prefers a light smoke. The dark man enjoys a pipe, while the blonde likes the cigarette. The most trying demand the cigar man has to hazard is, 'Give me a good cigar.' There are some exceptions, of course, but if a dealer followed my rule of light and dark he will generally please the customer."

Lamp for Matching Colors.

U. S. Consul Augustus E. Ingram of Bradford, England, reports the invention of a new lamp for matching colors by artificial light. The source of light may be a metallic-filament incandescent electric lamp or a gas or petroleum incandescent lamp. The advantages of the new lamp are cheapness, uniformity in the quality and quantity of the light given and great illumination. The light filters are formed of a special blue glass with a special green glass, and the results have been excellent.

Before and After.

As the anthem was ended the preacher arose, relates the Ram's Horn, and began to read from Acts 20: "And after the uproar was ceased." "But at the close of the sermon the choir rose and sang: "It is time to awake from sleep."
